Important information relating to the use of this Base Prospectus and Offers of the Notes generally.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Guarantor and the relevant Dealer do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Guarantor or the relevant Dealer which is intended to permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale

of Notes in the United States, the European Economic Area (including the United Kingdom, Italy, France and Spain); see “*Subscription and Sale and Transfer and Selling Restrictions*”.

None of the Issuer, the Guarantor nor the relevant Dealer makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

The Base Prospectus has been prepared on the basis that, except as otherwise specified in the Final Terms, any offer of Notes in any “**Relevant Member State**” will be made pursuant to an exemption under the Prospectus Directive and pursuant to the passport regime foreseen in said Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in the Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer, the Guarantor or the Dealer(s) to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, none of the Issuer, the Guarantor or the Dealer(s) have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or the Dealer(s) to publish or supplement a prospectus for such offer.

The Base Prospectus has been prepared on the basis that Notes may be directed to any category of potential investors unless specified otherwise in the applicable Final Terms.

The Notes may not be a suitable investment for all investors. Each prospective investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisors, whether it:

- (a) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable Supplement to this Base Prospectus and all the information contained in the Final Terms;
- (b) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the specified currency for principal or interest payments of the Notes is different from the potential investor's currency;
- (d) understands thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets;
- (e) in respect of Notes linked to the performance of, without limitation, one or more, or a combination of, underlying shares or depositary receipts, indices, rates of interest, other rates, foreign exchange rates, funds, inflation indices and/or entities (together, “**Reference Items**” and each, a “**Reference Item**”) (in respect of such Notes, together, “**Reference Item Linked Notes**” and each a “**Reference Item Linked Note**”), understands thoroughly (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) the nature of each such Reference Item Linked Note; and
- (f) is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

None of the Issuers, Guarantors, Dealers or any affiliate of BBVA has given, and will not give, to any potential purchaser of Notes (either directly or indirectly) any assurance, advice, recommendation or guarantee as to the merits, performance or suitability of such Notes, and the purchaser should be aware that the Issuer is acting as an arm's-length contractual counterparty and not as an advisor or fiduciary.

In making an investment decision, investors must rely on their own examination of the Issuer and the Guarantor and the terms of the Notes being offered, including the merits and risks involved.

Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

D.2	Key risks regarding the Issuer and the Guarantor:	<p>In purchasing Notes, investors assume the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer and the Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's and the Guarantor control.</p> <p>The Issuer and the Guarantor have identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. RISK FACTORS

Each of the Issuer and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and neither of the Issuers nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Most of these factors are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

The Issuer and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or otherwise perform its obligations in connection with any Notes may occur for other reasons which may not be considered significant risks by either the Issuer or the Guarantor based on information currently available to them or which they may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Prospective purchasers of the Notes should consider carefully, among other things in the light of their financial circumstances and investment objectives, all of the information in this Base Prospectus and, in particular, the risk factors set forth below (which each of the Issuer and the Guarantor, in its reasonable opinion, believes represent or may represent the risk factors known to it which may affect the Issuer's and/or the Guarantor's ability to fulfil its obligations under the Notes) in making an investment decision. Noteholders may lose the value of their entire investment in certain circumstances.

The Risk Factors set out below appear under the following headings:

1. Risk Factors relating to the Issuer.
2. Risk Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee.
3. Risk Factors relating to the Notes.
4. Risks relating to the structure of particular Notes.
5. Generic Risks Factors that are associated with Notes that are linked to Reference Item(s).
6. Risks Factors associated with Notes that are linked to one or more specific types of Reference Items.
7. Market Factors.
8. Potential Conflicts of Interest.

RISK FACTORS

1. Risk Factors relating to the Issuer

Issuer's dependence on the Guarantor to make payments on the Notes.

The Issuer is a finance vehicle established by the Guarantor for the purpose of, among others, issuing Notes and on-lending the proceeds within the Group. The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should the Guarantor fail to pay interest on or repay any loan in a timely fashion this could have a material adverse effect on the ability of the Issuer to fulfil its obligations under Notes issued under the Programme.

By virtue of its dependence on other Group members, each of the risks described below that affect the Guarantor will also indirectly affect the Issuer.

Certain considerations in relation to the forum upon insolvency of the Issuer

In the event of insolvency of the Issuer, the court having jurisdiction to open insolvency proceedings and the law applicable to those proceedings and their effects will be determined in accordance with the provisions of Council Regulation (EC) No 1346/2000, of 29th May 2000, on insolvency proceedings ("Regulation 1346/2000"), the Spanish Insolvency Law 22/2003, of 9th July, 2003, as amended (the "Spanish Insolvency Law") and the Dutch Insolvency Law (faillissementswet) of 30th September, 1893, as most recently amended on 13th March, 2008 (the "Dutch Insolvency Law"). Pursuant to these provisions, the courts of the place where the Issuer has its centre of main interests shall have jurisdiction to open insolvency proceedings against it and the law applicable to the insolvency proceedings and their effects will be the law of the place where such proceedings are opened.

Under Regulation 1346/2000 the centre of main interests should correspond to the place where the debtor conducts the administration of its interests on a regular basis and is therefore ascertainable by third parties. In the case of a company or legal person, Regulation 1346/2000 presumes, in the absence of proof to the contrary, that the place of its registered office is the centre of its main interests. Based on this presumption a Dutch court may consider that it has jurisdiction to open insolvency proceedings against the Issuer. Notwithstanding this presumption, it is arguable that the centre of main interests of the Issuer should be considered to be located in Spain and that the Spanish courts should be the courts with jurisdiction to open insolvency proceedings against it. In addition, even if the centre of main interests of the Issuer were not in Spain, the Spanish court could still open insolvency proceedings (named territorial insolvency proceedings) if they consider that the Issuer has an establishment within the territory of Spain, the effects of which would be limited to the assets of the Issuer situated in Spain.

Noteholders should be aware that, in accordance with the above, in the case of an eventual insolvency of the Issuer, there is uncertainty as to whether the insolvency proceedings would be opened in the Netherlands or in Spain.

2. Risk Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee

The Guarantor is subject to substantial regulation, and regulatory and governmental oversight. Adverse regulatory developments or changes in government policy could have a material adverse effect on its business, results of operations and financial condition.

The financial services industry is among the most highly regulated industries in the world. The Bank's operations are subject to on-going regulation and associated regulatory risks, including the effects of changes in laws, regulations, policies and interpretations, in Spain, the European Union, the United States and the other markets where it operates. This is particularly the case in the current market environment, which is witnessing increased levels of government and regulatory intervention in the banking sector which the Bank expects to continue for the foreseeable future. As a result, the Bank may further be subject to an increasing incidence or amount of liability or regulatory sanctions and may be required to make greater expenditures and devote additional resources to address potential liability. The regulations which most significantly affect the Bank, or which could most significantly affect the Bank in the future, include regulations relating to capital and provisions requirements, which have become increasingly more strict in the past three years, steps taken towards achieving a fiscal and banking union in the European Union, and regulatory reforms in the United States. These risks are discussed in further detail below.

In addition, the Bank is subject to substantial regulation relating to other matters such as liquidity. The Bank considers that future liquidity standards could require it to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, which would negatively affect the Bank's net interest margin.

The Bank is also subject to other regulations, such as those related to anti-money laundering, privacy protection and transparency and fairness in customer relations.

RISK FACTORS

Moreover, the Bank's regulators, as part of their supervisory function, periodically review the Bank's allowance for loan losses. Such regulators may require the Bank to increase its allowance for loan losses or to recognise further losses. Any such additional provisions for loan losses, as required by these regulatory agencies, whose views may differ from those of the Bank's management, could have an adverse effect on the Bank's earnings and financial condition.

In particular, the latest Spanish regulatory developments include (i) Royal Decree-Law 2/2012, of 3rd February and Law 8/2012 of 30th October, which increased coverage requirements to be met by 31st December, 2012 for performing and non-performing real estate assets, (ii) Law 9/2012, of 14th November (**Law 9/2012**) which established a new regime on restructuring and resolution of credit institutions and a statutory loss absorbency regime applicable within the framework of restructuring and resolution processes, which was based on the June 2012 draft of Directive 2014/59/EU, of 15th May, establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**), and (iii) Royal Decree-Law 14/2013, of 29th November (**RD-L 14/2013**) and Law 10/2014, which largely incorporated the CRD IV Directive into Spanish law, although certain regulatory developments in this area are still pending as at the date of this Offering Circular which are expected to include at least one further Royal Decree (various drafts of which have been made public throughout 2014 and now 2015) and several circulars of the Bank of Spain. Further, on 1st December, 2014 the Spanish Ministry of Economy and Competitiveness published for public consultation a first draft of the proposed law (anteproyecto de ley) on the restructuring and resolution of credit institutions and investment firms (**the BRRD Draft Implementation Law**), which provides for the implementation of the BRRD in Spain. The latest draft of the BRRD Draft Implementation Law was made public on 26th January, 2015. It is expected that once the BRRD Draft Implementation Law is approved and enters into force, it will implement the BRRD and will repeal and replace Law 9/2012 to reflect such implementation.

Adverse regulatory developments or changes in government policy relating to any of the foregoing or other matters could have a material adverse effect on the Bank's business, results of operations and financial condition. Furthermore, regulatory fragmentation, with some countries implementing new and more stringent standards or regulations, could adversely affect the Bank's ability to compete with financial institutions based in other jurisdictions which do not need to comply with such new standards or regulations.

Capital requirements

Increasingly onerous capital requirements constitute one of the Bank's main regulatory challenges.

As a Spanish financial institution, the Bank is subject to CRD IV, through which the European Union began implementing the Basel III capital reforms from 1st January, 2014, with certain requirements in the process of being phased in until 1st January, 2019. The core regulation in the solvency of credit entities is, therefore, the CRR, which is complemented by several binding technical standards, all of which are directly applicable in all EU member states, without the need for national implementation measures. The implementation of the CRD IV Directive into Spanish law has largely taken place through RD-L 14/2013 and Law 10/2014, and a new Bank of Spain Circular 2/2014, of 31st January. Notwithstanding this, further regulatory developments in this area remain pending as at the date of this Offering Circular as set out above.

The new regulatory regime has, among other things, increased the level of capital required by means of a "combined buffer requirement" that entities must comply with from 2016 onwards.

Article 104 of the CRD IV Directive, as implemented by Article 68 of Law 10/2014, and similarly Article 16 of Council Regulation (EU) No 1024/2013 of 15th October, 2013 conferring specific tasks on the European Central Bank (the **ECB**) concerning policies relating to the prudential supervision of credit institutions (the **SSM Regulation**), also contemplate that in addition to the minimum "Pillar 1" capital requirements, supervisory authorities may impose further "Pillar 2" capital requirements to cover other risks, including those not considered to be fully captured by the minimum "own funds" requirements under CRD IV or to address macro-prudential considerations. This may result in the imposition of additional own funds requirements on the Bank and/or the Group pursuant to this "Pillar 2" framework. Any failure by the Bank and/or the Group to maintain its "Pillar 1" minimum regulatory capital ratios, any "Pillar 2" additional own funds requirements and/or any buffer capital requirements (as discussed below) could result in administrative actions or sanctions, which, in turn, may have a material adverse impact on the Group's results of operations.

The ECB is currently undertaking an assessment of the additional "Pillar 2" capital requirements that may be imposed for each of the European banking institutions now subject to the Single Supervisory Mechanism (the **SSM**). The ECB is required to carry out these assessments under CRD IV at least on an annual basis. See further "Steps taken towards achieving an EU fiscal and banking union" below. There can be no assurance that an additional own funds requirement for the Bank and/or the Group may not be required by the ECB either when it provides its final decision in relation to this initial assessment or at any time in the future. Any additional own funds requirement that may be imposed on the Bank and/or the Group by the ECB pursuant to this initial assessment may require the Bank and/or the Group to hold capital levels similar to, or higher than, those required under the full application of CRD IV and potentially could be in line with earlier applicable minimum capital

RISK FACTORS

ratios required pursuant to the EBA recommendation of 22nd July, 2013 and capital principal requirements under Royal Decree-Law 2/2011 of 18th February (as amended subsequently by Law 9/2012). There can also be no assurance that the Group will be able to continue to maintain such capital ratios.

Any failure to maintain any additional capital requirements pursuant to the “Pillar 2” framework or any other capital requirements to which the Bank and/or the Group is or becomes subject (including the “combined buffer requirement”), may result in the imposition of restrictions on “discretionary payments” by the Bank as discussed below. It could also result, among other things, in the imposition of further “Pillar 2” requirements and early intervention by resolution authorities pursuant to the BRRD.

In addition to the above, the EBA published on 19th December, 2014 its final guidelines for common procedures and methodologies in respect of its supervisory review and evaluation process (**SREP**). Included in this were the EBA’s proposed guidelines for a common approach to determining the amount and composition of additional own funds requirements to be implemented by 1st January, 2016. Under these guidelines, national supervisors should set a composition requirement for the additional own funds requirements to cover certain specified risks of at least 56 per cent. CET1 capital and at least 75 per cent. Tier 1 capital. The guidelines also contemplate that national supervisors should not set additional own funds requirements in respect of risks which are already covered by capital buffer requirements and/or additional macro-prudential requirements; and, accordingly, the above “combined buffer requirement” is in addition to the minimum own funds requirement and to the additional own funds requirement.

In this regard, according to Law 10/2014, for those entities not meeting the “combined buffer requirement” or the “Pillar 2” capital requirements described above or where a restriction upon “discretionary payments” (as outlined below) has been imposed pursuant to Article 68 of Law 10/2014 distributions relating to CET1 capital, variable remuneration or discretionary pension revenues and distributions relating to additional tier 1 capital may be subject to restrictions until the Maximum Distributable Amount has been calculated and communicated to the Bank of Spain (and thereafter subject to such Maximum Distributable Amount). The criteria for the calculation of the Maximum Distributable Amount in respect of any such “discretionary payments” are expected to be specified in the regulation developing Law 10/2014.

At its meeting of 12th January, 2014, the oversight body of the Basel Committee endorsed the definition of the leverage ratio set forth in CRD IV, to promote consistent disclosure, starting on 1st January, 2015. There will be a mandatory minimum capital requirement on 1st January, 2018, with an initial minimum leverage ratio of 3 per cent. that can be raised after calibration, if European authorities so decide.

On 10th November, 2014 the European Union’s Financial Stability Board (the **FSB**) published a consultative document (the **Consultative Document**) containing certain policy proposals to enhance the loss absorbing capacity of global systemically important banks (**G-SIBs**), such as the Bank. The policy proposals included in the Consultative Document consist of an elaboration of the principles on loss absorbing and recapitalisation capacity of G-SIBs in resolution and a term sheet setting out a proposal for the implementation of these proposals in the form of an internationally agreed standard on total loss absorbency capacity (**TLAC**) for G-SIBs. The consultation period ended on 2nd February, 2015.

Once finalised, these proposals will form a new minimum TLAC standard for G-SIBs. If implemented as contemplated, the TLAC requirement may create additional minimum capital requirements for the Bank and could require the Bank to maintain an additional minimum TLAC ratio of (i) the Bank’s regulatory capital plus certain types of debt capital instruments and other eligible liabilities that can be written down or converted into equity during resolution to (ii) the Bank’s risk-weighted assets).

The FSB has proposed that a single specific minimum “Pillar 1” TLAC requirement will be set at the greater of (a) 16 per cent. to 20 per cent. of risk weighted assets and (b) twice the amount of capital required to meet the relevant Basel III Tier 1 leverage ratio requirement (i.e. if the leverage ratio were set at 3 per cent. for G-SIBs, at least 6 per cent. of the leverage ratio denominator). However, the final proposed TLAC amount has not been agreed within the FSB and is the subject of a quantitative impact study, expected to be completed in 2015. The final requirements are expected to be announced in 2015, most probably at the FSB’s plenary session in November 2015.

The TLAC requirements may apply both on a common minimum “Pillar 1” basis and with provision for home and host resolution authorities to be able to specify additional “Pillar 2” TLAC requirements on an individual institution basis. TLAC requirements may further be imposed in addition to the minimum “own funds” requirements under CRD IV and the requirement for own funds and eligible liabilities (**MREL**) pursuant to the BRRD once implemented in Spain. Any failure by an institution to meet the applicable minimum “Pillar 1” and “Pillar 2” TLAC requirements may be treated in the same manner as a failure to meet minimum regulatory capital requirements, where resolution authorities must ensure that they intervene and place an institution into resolution sufficiently early if it is deemed to be failing or likely to fail and there is no reasonable prospect of recovery.

While it is possible that TLAC requirements will be implemented by means of MREL, that is not yet certain. The conditions required of TLAC eligible instruments (other than own funds) and those required of eligible liabilities for MREL purposes

RISK FACTORS

under the BRRD are different and there can be no assurance that it will be possible for the Bank to issue instruments which simultaneously satisfy both requirements. Markets have not yet been established for such instruments (other than own funds instruments) and there can be no assurance that such markets will develop or that, if they do, the Bank will be able to issue sufficient TLAC and MREL eligible liabilities to meet its requirements. That may limit the quantity of the Bank's CET1 capital which is available to meet its "combined buffer requirement" and may, therefore, limit the Bank's ability to make "discretionary payments".

There can be no assurance as to the relationship between the above "Pillar 2" additional own funds requirements, the TLAC requirement, MREL, the above "combined buffer requirement" and the restrictions on "discretionary payments" discussed above. There can also be no assurance as to how and when effect will be given to the above guidelines of the EBA in Spain, including as to the consequences for an institution of its capital levels falling below those necessary to meet these requirements.

Basel III implementation differs across jurisdictions in terms of timing and the applicable rules. For example, the Mexican government introduced the Basel III capital standards in 2012 and Basel III implementation in the United States will be effective in 2015 for credit institutions with total consolidated assets of less than US\$250 million. Proposals for the different additional capital requirements that may be imposed such as the Consultative Document in relation to the imposition of TLAC requirements upon G-SIBs, also provide for different capital requirements for different institutions even though those institutions may be direct competitors in the relevant markets in which they operate. This lack of uniformity in implemented rules may lead to an uneven playing field and to competition distortions. Moreover, a lack of regulatory coordination, with some countries bringing forward the application of Basel III requirements or increasing such requirements, could adversely affect a bank with global operations such as the Bank and could undermine its profitability.

Finally, there can be no assurance that the implementation of the above capital requirements will not require the Bank to issue additional securities that qualify as regulatory capital, to liquidate assets, to curtail business or to take any other actions, any of which may have adverse effects on the Bank's business, financial condition and results of operations. Furthermore, increased capital requirements may negatively affect the Bank's return on equity and other financial performance indicators.

Tax treatment of deferred tax assets following the implementation of CRD IV

In addition to introducing new capital requirements, CRD IV provides that deferred tax assets (DTAs) that rely on the future profitability of a financial institution must be deducted from its regulatory capital (specifically its core capital or CET1 capital) for prudential reasons, as there is generally no guarantee that DTAs will retain their value in the event of the institution facing difficulties.

This new deduction introduced by CRD IV has a significant impact on Spanish banks due to the particularly restrictive nature of certain aspects of Spanish tax law. For example, in some EU countries when a bank reports a loss the tax authorities refund a portion of taxes paid in previous years but in Spain the bank must earn profits in subsequent years in order for this set-off to take place. Additionally, Spanish tax law does not recognise as tax-deductible certain amounts recorded as costs in the accounts of a bank, unlike the tax legislation of other EU countries.

Due to these differences and the greater impact of the requirements of CRD IV with respect to DTAs, the Spanish regulator implemented certain amendments to the Spanish Law on Corporate Income Tax (Royal Decree Law 4/2004 of 5th March, as amended) through RD-L 14/2013, which also provided for a transitional regime for DTAs generated before 1st January, 2014. These amendments enable certain DTAs to be treated as a direct claim against the tax authorities if a Spanish bank is unable to reverse the relevant differences within 18 years or if it is liquidated, becomes insolvent or incurs accounting losses. This will, therefore, allow a Spanish bank not to deduct such DTAs from its regulatory capital. The transitional regime provides for a period in which only a percentage (which increases yearly) of the applicable DTAs will have to be deducted. This transitional regime has also been included in Law 27/2014.

There can be no assurance that the tax amendments implemented by RD-L 14/2013 and Law 27/2014 will not be challenged by the European Commission, that the final interpretation of these amendments will not change and that Spanish banks will ultimately be allowed to maintain certain DTAs as regulatory capital. If this regulation is challenged, this may negatively affect the Bank's regulatory capital and therefore its ability to pay dividends or require it to issue additional securities that qualify as regulatory capital, to liquidate assets, to curtail business or to take any other actions, any of which may have a material adverse effect on the Bank's business, financial condition and results of operations.

Contributions for assisting in the restructuring of the Spanish banking sector

Royal Decree-Law 6/2013 of 22nd March, on protection for holders of certain savings and investment products and other financial measures, included a requirement for banks, including therefore the Bank, to make an exceptional one-off contribution to the Deposit Guarantee Fund (Fondo de Garantía de Depósitos) in addition to the annual contribution to be made by member institutions, equal to €3.00 per each €1,000 of deposits held as of 31st December, 2012. The purpose of such contribution was for the Deposit Guarantee Fund to be able to purchase at market prices the unlisted shares of certain Spanish financial institutions involved in restructuring or resolution processes under Law 9/2012 (none of which are part of

RISK FACTORS

the Group). There can be no assurance that additional funding requirements will not be imposed by the Spanish authorities for assisting in the restructuring of the Spanish banking sector.

Steps taken towards achieving an EU fiscal and banking union

The project of achieving a European banking union was launched in the summer of 2012. Its main goal is to resume progress towards the European single market for financial services by restoring confidence in the European banking sector and ensuring the proper functioning of monetary policy in the Eurozone.

Banking union is expected to be achieved through new harmonised banking rules (the single rulebook) and a new institutional framework with stronger systems for both banking supervision and resolution that will be managed at the European level. Its two main pillars are the SSM and the Single Resolution Mechanism (**SRM**).

The SSM is expected to assist in making the banking sector more transparent, unified and safer. In accordance with the SSM Regulation, the ECB fully assumed its new supervisory responsibilities within the SSM, in particular direct supervision of the 120 largest European banks (including the Bank), on 4th November, 2014. In preparation for this step, between November 2013 and October 2014 the ECB conducted, together with national supervisors, a comprehensive assessment of 130 banks, which together hold more than 80 per cent. of Eurozone banking assets. The exercise consisted of three elements: (i) a supervisory risk assessment, which assessed the main balance sheet risks including liquidity, funding and leverage; (ii) an asset quality review, which focused on credit and market risks; and (iii) a stress test to examine the need to strengthen capital or take other corrective measures.

The SSM represents a significant change in the approach to bank supervision at a European and global level, even if it is not expected to result in any radical change in bank supervisory practices in the short term. The SSM will result in the direct supervision of 120 financial institutions, including the Bank, and indirect supervision of around 3,500 financial institutions. The new supervisor will be one of the largest in the world in terms of assets under supervision. In the coming years, the SSM is expected to work to establish a new supervisory culture importing best practices from the 19 supervisory authorities that will be part of the SSM. Several steps have already been taken in this regard such as the recent publication of the Supervisory Guidelines and the creation of the SSM Framework Regulation. In addition, this new body will represent an extra cost for the financial institutions that will fund it through payment of supervisory fees.

The other main pillar of the EU banking union is the SRM, the main purpose of which is to ensure a prompt and coherent resolution of failing banks in Europe at minimum cost. Regulation (EU) No. 806/2014 of the European Parliament and the Council of the European Union (the **SRM Regulation**), which was passed on 15th July, 2014, and takes legal effect from 1st January, 2015, establishes uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of the SRM and a Single Resolution Fund. The new Single Resolution Board started operating from 1st January, 2015 but it will not fully assume its resolution powers until 1st January, 2016. From that date onwards the Single Resolution Fund will also be in place, funded by contributions from European banks in accordance with the methodology approved by the Council of the European Union. The Single Resolution Fund is intended to reach a total amount of €55 billion by 2024 and to be used as a separate backstop only after an 8 per cent. bail-in of a bank's liabilities has been applied to cover capital shortfalls (in line with the BRRD).

By allowing for the consistent application of EU banking rules through the SSM, the banking union is expected to help resume momentum towards economic and monetary union. In order to complete such union, a single deposit guarantee scheme is still needed which may require a change to the existing European treaties. This is the subject of continued negotiation by European leaders to ensure further progress is made in European fiscal, economic and political integration.

Regulations adopted towards achieving a banking and/or fiscal union in the EU and decisions adopted by the ECB in its capacity as the Bank's main supervisory authority may have a material impact on the Bank's business, financial condition and results of operations. In particular, the BRRD and Directive 2014/49/EU on deposit guarantee schemes were published in the Official Journal of the EU on 12th June, 2014. The BRRD was required to be implemented on or before 1st January, 2015, although the bail-in tool will not apply until 1st January, 2016, except where a bail-out is required during 2015. In this case, a minimum 8 per cent. bail-in of a bank's liabilities (including senior debt and uncovered deposits) will be required as a precondition for access to any direct recapitalisation by the European Stability Mechanism (**ESM**), as agreed by the Eurozone members in December 2014.

The process for the implementation of the BRRD in Spain started on 1st December, 2014, with the publication of the BRRD Draft Implementation Law for public consultation by the Spanish Ministry of Economy and Competitiveness. A new version of the BRRD Draft Implementation Law was made public on 26th January, 2015.

In addition, on 29th January, 2014, the European Commission released its proposal on the structural reforms of the European banking sector that will impose new constraints on the structure of European banks. The proposal aims at ensuring the harmonisation between the divergent national initiatives in Europe. It includes a prohibition on proprietary trading similar to that contained in Section 619 of the Dodd-Frank Act (also known as the Volcker Rule) and a mechanism to potentially

RISK FACTORS

require the separation of trading activities (including market making), such as in the Financial Services (Banking Reform) Act 2013, complex securitisations and risky derivatives.

Regulatory reforms initiated in the United States

The Guarantor's operations may also be affected by other regulatory reforms in response to the financial crisis, including measures such as those concerning systemic financial institutions and the enactment in the United States in July 2010 of the Dodd-Frank Act. In July 2013, U.S. federal bank regulators issued final rules implementing many elements of the Basel III framework and other U.S. capital reforms. In December 2013, the Federal Reserve, the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the Commodity Futures Trading Commission and the U.S. Securities and Exchange Commission issued final rules to implement the Volcker Rule, as required by the Dodd-Frank Act. The Volcker Rule prohibits an insured depository institution, its affiliates and any company that controls an insured depository institution from engaging in proprietary trading and from investing in or sponsoring certain covered funds, such as hedge funds and private equity funds, in each case subject to certain limited exceptions. The final rules also impose significant compliance and reporting obligations.

In February 2014, the Federal Reserve approved a final rule to enhance its supervision and regulation of the U.S. operations of foreign banking organisations (**FBOs**) such as the Bank. Under this rule, FBOs with U.S.\$50 billion or more in U.S. assets held outside of their U.S. branches and agencies (**Large FBOs**), such as the Bank, will be required to create a separately capitalised top-tier U.S. intermediate holding company (**IHC**) that will hold all of the Large FBO's U.S. bank and nonbank subsidiaries, such as Compass Bank and BBVA Compass. The IHC will be subject to U.S. risk-based and leverage capital, liquidity, risk management, stress testing and other enhanced prudential standards on a consolidated basis. Under the final rule, a Large FBO that is subject to the IHC requirement may request permission from the Federal Reserve to establish multiple IHCs or use an alternative organisational structure. The final rule also permits the Federal Reserve to apply the IHC requirement in a manner that takes into account the separate operations of multiple foreign banks that are owned by a single Large FBO. Although U.S. branches and agencies of Large FBOs will not be required to be held beneath an IHC, such branches and agencies will be subject to liquidity, and, in certain circumstances, asset maintenance requirements. Large FBOs generally will be required to form IHCs and comply with enhanced prudential standards beginning 1st July, 2016, although an IHC's compliance with applicable U.S. leverage ratio requirements is generally delayed until 1st January, 2018, and certain enhanced prudential standards will apply to the Bank's top-tier U.S. bank holding company, BBVA Compass, beginning 1st January, 2015. The Federal Reserve has stated that it will issue, at a later date, final rules to implement certain other enhanced prudential standards under the Dodd-Frank Act for large bank holding companies and Large FBOs, including single counterparty credit limits and an early remediation framework. The rule does not constitute any significant additional burden for FBOs that already organised their main US subsidiaries through a bank holding company structure such as the Bank. Indeed, those FBOs would have anyway been subject to US prudential standards.

In addition, the Federal Reserve and other U.S. regulators issued for public comment in October 2013 a proposed rule that would introduce a quantitative liquidity coverage ratio requirement on certain large banks and bank holding companies. The proposed liquidity coverage ratio is broadly consistent with the Basel Committee's revised Basel III liquidity rules, but is more stringent in several important respects. The Federal Reserve has also stated that it intends, through future rulemakings, to apply the Basel III liquidity coverage ratio and net stable funding ratio to the U.S. operations of some or all large FBOs. Although there remains uncertainty as to how regulatory implementation of these laws will occur, various elements of the new laws may cause changes that impact the profitability of the Bank's business activities and require that it changes certain of its business practices, and could expose the Bank to additional costs (including increased compliance costs). These changes may also cause the Bank to invest significant management attention and resources to make any necessary changes.

Taxation of the financial sector

On 14th February, 2013 the European Commission published its proposal for a Council Directive implementing enhanced cooperation in the area of a financial transaction tax (FTT), which was intended to take effect on 1st January, 2014 but negotiations are still ongoing. The proposed Directive aims to ensure that the financial sector makes a fair and substantial contribution to covering the costs of the recent crisis and creating a level playing field with other sectors from a taxation point of view. A joint statement issued in May 2014 by ten of the eleven participating Member States indicated an intention to implement the FTT progressively, such that it would initially apply to shares and certain derivatives, with this initial implementation occurring by 1st January, 2016.

On 4th July, 2014, Royal Decree-Law 8/2014, of 4th July was introduced in Spain setting forth a tax rate of 0.03 per cent. on bank deposits in Spain. Such tax was established in 2013 (but previously with a 0 per cent. rate) and is payable annually by Spanish banks. There can be no assurance that additional national or transnational bank levies or financial transaction taxes will not be adopted by the authorities of the jurisdictions where the Bank operates. Any such additional levies and taxes could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

RISK FACTORS

Withdrawals of deposits or other sources of liquidity may make it more difficult or costly for the Group to fund its business on favourable terms or cause the Group to take other actions

Historically, one of the Group's principal sources of funds has been savings and demand deposits. Large-denomination time deposits may, under some circumstances, such as during periods of significant interest rate-based competition for these types of deposits, be a less stable source of deposits than savings and demand deposits. The level of wholesale and retail deposits may also fluctuate due to other factors outside the Group's control, such as a loss of confidence (including as a result of political initiatives, including bail-in and/or confiscation and/or taxation of creditors' funds) or competition from investment funds or other products. The recent introduction of a national tax on outstanding deposits could be negative for the market in Spain. Moreover, there can be no assurance that, in the event of a sudden or unexpected withdrawal of deposits or shortage of funds in the banking systems or money markets in which the Group operates, the Group will be able to maintain its current levels of funding without incurring higher funding costs or having to liquidate certain of its assets. In addition, if public sources of liquidity, such as the ECB extraordinary measures adopted in response to the financial crisis since 2008, are removed from the market, there can be no assurance that the Group will be able to maintain its current levels of funding without incurring higher funding costs or having to liquidate certain of its assets or taking additional deleverage measures.

The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions

Financial markets reflect, among other matters, the perception of risk, economic conditions and economic policies in their present and short to mid-term future outlooks. Negative growth expectations and lack of confidence that policy changes would solve problems led to steep falls in asset values and a severe reduction in market liquidity in 2012 and 2013 and may occur again in the future. Additionally, in dislocated markets hedging and other risk management strategies may not be as effective as they are in more normal market conditions due in part to the decreasing credit quality of hedge counterparties. Severe market events such as the sovereign debt crisis, rising risk premiums and falls in share market prices, have resulted in the Group recording large write-downs on its credit market exposures in recent years. Any deterioration in economic and financial market conditions could lead to further impairment charges and write-downs.

The Group faces increasing competition in its business lines

The markets in which the Group operates are highly competitive and the Bank believes that this trend will continue. In addition, the trend towards consolidation in the banking industry has created larger and stronger banks with which the Group must now compete, some of which have recently received public capital from the European Stability Mechanism. Foreign competitors or funds may consider acquiring the institutions which have received such public capital in future auctions, such as occurred with respect to Novagalicia Banco, which was acquired by Banesco, a Venezuelan bank.

The Group also faces competition from non-bank competitors, such as payment platforms; ecommerce businesses; department stores (for some credit products); automotive finance corporations; leasing companies; factoring companies; mutual funds; pension funds; insurance companies; and public debt (as a result of the high yields which have recently been offered as a consequence of the sovereign debt crisis, there has been a crowding out effect in the financial markets).

There can be no assurance that this competition will not adversely affect the Group's business, financial condition, cash flows and results of operations.

The Group's business is particularly vulnerable to volatility in interest rates

The Group's results of operations are substantially dependent upon the level of its net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Interest rates are highly sensitive to many factors beyond its control, including fiscal and monetary policies of governments and central banks, regulation of the financial sectors in the markets in which it operates, domestic and international economic and political conditions and other factors. Changes in market interest rates can affect the interest rates that the Group receives on its interest-earning assets differently to the rates that it pays for its interest-bearing liabilities. This may, in turn, result in a reduction of the net interest income the Group receives, which could have a material adverse impact on its results of operations.

In addition, the high proportion of loans referenced to variable interest rates makes debt service on such loans more vulnerable to changes in interest rates. In addition, a rise in interest rates could reduce the demand for credit and the Group's ability to generate credit for its clients, as well as contribute to an increase in the credit default rate. As a result of these and the above factors, significant changes or volatility in interest rates could have a material adverse impact on the Group's business, financial condition or results of operations.

The Group has a substantial amount of commitments with personnel considered wholly unfunded due to the absence of qualifying plan assets

RISK FACTORS

The Group's commitments with personnel which are considered to be wholly unfunded are recognised under the heading "Provisions— Provisions for pensions and similar obligations" in its consolidated balance sheets included in the Consolidated Financial Statements (as defined under "Documents Incorporated by Reference" below). These amounts, which comprise "Post-employment benefits", "Early retirements" and "Post-employment welfare benefits", are considered wholly unfunded due to the absence of qualifying plan assets.

The Group faces liquidity risk in connection with its ability to make payments on these unfunded amounts which it seeks to mitigate, with respect to "Post-employment benefits", by maintaining insurance contracts which were contracted with insurance companies owned by the Group. The insurance companies have recorded in their balance sheets specific assets (fixed interest deposit and bonds) assigned to the funding of these commitments. The insurance companies also manage derivatives (primarily swaps) to mitigate the interest rate risk in connection with the payments of these commitments. The Group seeks to mitigate liquidity risk with respect to "Early retirements" and "Post-employment welfare benefits" through oversight by the Assets and Liabilities Committee (ALCO) of the Group. The Group's ALCO manages a specific asset portfolio to mitigate the liquidity risk regarding the payments of these commitments. These assets are government and covered bonds which are issued at fixed interest rates with maturities matching the aforementioned commitments. The Group's ALCO also manages derivatives (primarily swaps) to mitigate the interest rate risk in connection with the payments of these commitments. Should the Bank fail to adequately manage liquidity risk and interest rate risk either as described above or otherwise, it could have a material adverse effect on the Group's business, financial condition, cash flows and results of operations.

The Group faces risks related to its acquisitions and divestitures

The Group's mergers and acquisitions activity involves divesting its interests in some businesses and strengthening other business areas through acquisitions. The Group may not complete these transactions in a timely manner, on a cost-effective basis or at all. Even though the Group reviews the companies it plans to acquire, it is generally not feasible for these reviews to be complete in all respects. As a result, the Group may assume unanticipated liabilities, or an acquisition may not perform as well as expected. In addition, transactions such as these are inherently risky because of the difficulties of integrating people, operations and technologies that may arise. There can be no assurance that any of the businesses the Group acquires can be successfully integrated or that they will perform well once integrated. Acquisitions may also lead to potential write-downs due to unforeseen business developments that may adversely affect the Group's results of operations.

The Group's results of operations could also be negatively affected by acquisition or divestiture-related charges, amortisation of expenses related to intangibles and charges for impairment of long-term assets. The Group may be subject to litigation in connection with, or as a result of, acquisitions or divestitures, including claims from terminated employees, customers or third parties, and the Group may be liable for future or existing litigation and claims related to the acquired business or divestiture because either the Group is not indemnified for such claims or the indemnification is insufficient. These effects could cause the Group to incur significant expenses and could materially adversely affect its business, financial condition, cash flows and results of operations.

The Group is party to lawsuits, tax claims and other legal proceedings

Due to the nature of the Group's business, the Bank and its subsidiaries are involved in litigation, arbitration and regulatory proceedings in jurisdictions around the world, the financial outcome of which is unpredictable. An adverse outcome or settlement in these proceedings could result in significant costs and may have a material adverse effect on the Group's business, financial condition, cash flows, results of operations and reputation.

In addition, responding to the demands of litigation may divert management's time and attention and financial resources. While the Group believes that it has provisioned such risks appropriately based on the opinions and advice of its legal advisors and in accordance with applicable accounting rules, it is possible that losses resulting from such risks, if proceedings are decided in whole or in part adversely to the Group, could exceed the amount of provisions made for such risks. See "Item 8. Financial information—Consolidated Statements and Other Financial Information—Legal proceedings" of the 2013 Form 20-F and Note 23 to the Consolidated Financial Statements for additional information on the Group's legal, regulatory and arbitration proceedings.

Risks Relating to Spain and Europe

Economic conditions in the European Union and Spain could have a material adverse effect on the Group's business, financial condition and results of operations

The crisis in worldwide financial and credit markets led to a global economic recession in 2009 from which there has been a slow recovery in recent years, mainly in the most advanced economies. While there has been a significant reduction in risk premiums in Europe since the second half of 2012 and economic growth in Europe was positive from the second quarter of 2013 to the third quarter of 2014, the possibility of future deterioration in the European economic position remains as at the

RISK FACTORS

date of this Offering Circular. Any such deterioration could adversely affect the cost and availability of funding for Spanish and European banks, including the Group, and the quality of the Group's loan portfolio, require the Group to take impairments on its exposures to the sovereign debt of one or more countries in the Eurozone or otherwise adversely affect the Group's business, financial condition and results of operations.

While the probability of country defaults or rupture of the Eurozone has decreased significantly since 2012, if one or more EU Member States were to exit from the European Monetary Union (the EMU) this could materially adversely affect the European and global economy, cause a redenomination of financial instruments or other contractual obligations from the euro to a different currency and substantially disrupt capital, interbank, banking and other markets, among other effects, any of which could have a material adverse effect on the Group's business, results of operations and financial condition. In addition, tensions among Member States of the EU, and Euro-scepticism in certain EU countries, could pose additional difficulties in the EU's ability to react to an economic crisis.

In addition, the risk of a protracted period of negative inflation in the Eurozone cannot be ruled out, particularly in light of the fall in oil prices since the first half of 2014. If economic conditions in the European Union and Spain deteriorate as a result, this could have a material adverse effect on the Group's business, financial condition and results of operations

The Guarantor is dependent on its credit ratings and any reduction of its or the Kingdom of Spain's credit ratings could materially and adversely affect the Group's business, financial condition and results of operations

The Guarantor is rated by various credit rating agencies. The Guarantor's credit ratings are an assessment by rating agencies of its ability to pay its obligations when due. Any actual or anticipated decline in the Bank's credit ratings to below investment grade or otherwise may increase the cost of and decrease the Group's ability to finance itself in the capital markets, secured funding markets (by affecting its ability to replace downgraded assets with better rated ones), interbank markets, through wholesale deposits or otherwise, harm its reputation, require it to replace funding lost due to the downgrade, which may include the loss of customer deposits, and make third parties less willing to transact business with the Group or otherwise materially adversely affect its business, financial condition and results of operations. Furthermore, any decline in the Bank's credit ratings to below investment grade or otherwise could breach certain agreements or trigger additional obligations under such agreements, such as a requirement to post additional collateral, which could materially adversely affect the Group's business, financial condition and results of operations.

Since the Guarantor is a Spanish company with substantial operations in Spain, its credit ratings may be adversely affected by the assessment by rating agencies of the creditworthiness of the Kingdom of Spain. Any decline in the Kingdom of Spain's sovereign credit ratings could result in a decline in the Bank's credit ratings. In addition, the Group holds a substantial amount of securities issued by the Kingdom of Spain, autonomous communities within Spain and other Spanish issuers. Any decline in the Kingdom of Spain's credit ratings could also adversely affect the value of the Kingdom of Spain's and other Spanish issuers' respective securities held by the Group in its various portfolios or otherwise materially adversely affect the Group's business, financial condition and results of operations. Furthermore, the counterparties to many of the Group's loan agreements could be similarly affected by any decline in the Kingdom of Spain's credit rating, which could limit their ability to raise additional capital or otherwise adversely affect their ability to repay their outstanding commitments to the Group and, in turn, materially and adversely affect the Group's business, financial condition and results of operations..

Since the Guarantor's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition.

The Group has historically developed its lending business in Spain, which continues to be its main place of business. The Group's loan portfolio in Spain has been adversely affected by the deterioration of the Spanish economy since 2009.

After rapid economic growth until 2007, Spanish gross domestic product (GDP) contracted in the period 2009-10 and 2012-13. GDP grew on an annual basis in 2014 and the Bank's Economic Research Department (BBVA Research) estimates that the Spanish economy will maintain this positive trend in the years to come based on a reduction in the accumulated imbalances of the period of expansion, the improvement of external demand and the measures adopted by Spanish and Eurozone authorities in response to the economic crisis, including the structural reforms to foster competitiveness and productivity and the measures to reduce the public deficit. However, should external demand be lower than expected and/or the measures and reforms introduced do not contribute to enhancing competitiveness and productivity and/or policies to increase domestic demand (i.e. fiscal and monetary) fail to support domestic expenditure, the estimated positive scenario for the Spanish economy could be revised downwards.

The effects of the financial crisis were particularly pronounced in Spain given the country's heightened need for foreign financing as reflected by its high current account deficit, resulting from the gap between domestic investment and savings, and its public deficit. While the current account imbalance has now been corrected ([through estimated GDP growth in 2014 of 1.4 per cent.]) and the public deficit is diminishing, real or perceived difficulties in making the payments associated with servicing its public or private debt could have negative consequences, causing further damage to Spain's economic situation and increasing its financing costs. The aforementioned risks may be exacerbated by the circumstances referred to below:

RISK FACTORS

- The Spanish economy is particularly sensitive to economic conditions in the rest of the euro area, the main market for Spanish goods and services exports. Accordingly, an interruption in the recovery in the Eurozone might have a considerable impact on Spanish economic growth.
- The positive performance of the Spanish economy relies on policies within the Eurozone which are designed to diminish financial fragmentation (such as the banking and capital markets unions). Changes in the Eurozone policy framework might make access to markets less favourable for the Spanish economy.
- Lastly, a change in the current recovery of the labour market would adversely affect households' gross disposable income.

Given the concentration of the Group's loan portfolio in Spain, any adverse changes affecting the Spanish economy are likely to have a significant adverse impact on the Group's business, financial condition and results of operations.

Exposure to the Spanish real estate market makes the Group vulnerable to developments in this market

After a buoyant period, demand for mortgage loans in Spain began to adjust in mid-2006 but an adjustment in supply of new homes was not seen until the last quarter of 2008. According to the Spanish Ministry of Public Works, at the end of 2013 there was still an excess of unsold homes in the market of approximately 560,000. Spanish real estate prices continued to decline during 2013 in light of deteriorating economic conditions, and have showed only a slight recovery in 2014 (with year-on-year growth of 0.3 per cent. in September 2014 according to the National Statistics Institute of Spain). Housing demand continues to recover, with housing transactions increasing by 17.3 per cent. between January and October of 2014 as compared to the same period in 2013.

The Group has substantial exposure to the Spanish real estate market and further deterioration of Spanish real estate prices could materially and adversely affect its business, financial condition and results of operations. The Group is exposed to the Spanish real estate market due to the fact that Spanish real estate assets secure many of its outstanding loans and due to the significant amount of Spanish real estate assets held on its balance sheet, including real estate received in lieu of payment for certain underlying loans. Furthermore, the Group has restructured certain of the loans it has made relating to real estate and the capacity of the borrowers to repay those restructured loans may be materially adversely affected by declining real estate prices.

If Spanish real estate prices fail to sustain their initial recovery, the Group's business may be materially adversely affected, which could materially and adversely affect its financial condition and results of operations.

Highly-indebted households and corporations could endanger the Group's asset quality and future revenues

Spanish households and businesses have reached, in recent years, a high level of indebtedness, which represents increased risk for the Spanish banking system. In addition, the high proportion of loans referenced to variable interest rates makes debt service on such loans more vulnerable to upward movements in interest rates. Highly indebted households and businesses are less likely to be able to service debt obligations as a result of adverse economic events, which could have an adverse effect on the Group's loan portfolio and, as a result, on its financial condition and results of operations. Moreover, the increase in households' and businesses' indebtedness also limits their ability to incur additional debt, decreasing the number of new products the Group may otherwise be able to sell them and limiting the Group's ability to attract new customers in Spain satisfying its credit standards, which could have an adverse effect on the Group's ability to achieve its growth plans

Risks Relating to Latin America

The Group's Mexican operations are material. The Group faces several types of risks in Mexico which could adversely affect its banking operations in Mexico or the Group as a whole

The Mexican economy has recovered from the 2009 recession but the pace of this recovery remains below the historical average. In addition, drug-related violence remains a significant challenge for Mexico and the drop in oil prices since the first half of 2014 increases uncertainty about the final impact of reforms to be implemented in the Mexican energy sector, one of the key considerations for an improvement in mid-term expectations for the Mexican economy.

The Mexican economy grew by 1.3 per cent. in 2013 and is expected to grow by 2.1 per cent. in 2014. 2013 was characterised by a more acute downturn than originally forecast due to the considerable slowdown in the industrial sector, driven by a decrease in demand from the U.S., weak private domestic demand, and also a contraction in public demand. However, in 2014 there has been a gradual recovery, mainly driven by external demand and public expenditure. Remittances posted 15 consecutive months of growth, increasing by 6.5 per cent. between October 2013 and October 2014.

RISK FACTORS

In the first eleven months of 2014 credit granted to the private sector increased by an average of 4.2 per cent. in real terms, which was less than the average of 6.9 per cent. for the same period in 2013. Delinquency rates on loans have increased in the past three years. If there is an increase in unemployment rates (which were 4.8 per cent. in 2014, 4.9 per cent. in 2013 and 5.0 per cent. in 2012 and are expected to be 4.7 per cent. in 2015), for example as a result of a more pronounced or prolonged slowdown in Europe or the United States, such rates may increase.

In addition, average inflation was 3.8 per cent. in 2013 and 4.0 per cent. in 2014, exceeding the target set by the Mexican Central Bank of 3 per cent. Any tightening of the monetary policy, including to address upward inflationary pressures, could make it more difficult for customers of the Group's mortgage and consumer loan products in Mexico to service their debts, which could have a material adverse effect on the business, financial condition, cash flows and results of operations of the Bank's Mexican subsidiary or the Group as a whole.

In addition, the Bank's operations are subject to regulatory risks, including the effects of changes in laws, regulations, policies and interpretations, in Mexico. On 9th January, 2014, certain financial reforms which had been proposed in May 2013 were adopted. Such measures address the following matters (i) the establishment of a new mandate for development banks, (ii) the promotion of competition to reduce interest rates, (iii) the creation of incentives for banks to give more credit and (iv) the strengthening of the banking system.

According to the mandate of the Law for Transparent and Ordered Financial Services in place (last modified in 2010), the Mexican National Commission for the Protection and Defense of Financial Services Users (*Comisión Nacional para la Defensa de los Usuarios de los Servicios Financieros or Condusef*) (**Condusef**) has continued to request that banks submit several of their service contracts for revision by the Condusef (for example, contracts relating to credit cards and insurance), in order to check that they comply with the relevant transparency and clarity requirements. Condusef does not have systematic ways to evaluate and grade service contracts, and this reflects on a substantial variation in grades from one year to the next and no clear instructions for adequating such contracts. The Law Committee of the Banking Association (ABM) is coordinating the creation of a working group that is expected to propose improvements in the process. In addition, Condusef has asked banks to formulate new procedures so that beneficiaries of deposit accounts can collect the funds in the case of the death of the account owner. The Bank may have to incur compliance costs in connection with any new measures adopted by Condusef.

Furthermore, the Anti-Money Laundering Law (*Ley Federal para la Prevención e Identificación de Operaciones con Recursos de Procedencia Ilícita*) became effective in July 2013. The Law establishes more severe penalties for non-compliance and sets forth enhanced information requirements for some transactions.

Any of the risks referred to above or risks that may result from other adverse developments in laws, regulations, public policies or otherwise in Mexico may adversely affect the business, financial condition, operating results and cash flows of the Bank's Mexican subsidiary or the Group as a whole.

The Guarantor's Latin American subsidiaries' growth, asset quality and profitability may be affected by volatile macroeconomic conditions, including significant inflation and government default on public debt, in the Latin American countries where they operate

The Latin American countries in which the Group operates (which include Argentina, Chile, Colombia, Peru and Venezuela, the Group's five main markets in Latin America) have experienced significant economic volatility in recent decades, characterised by recessions, foreign exchange crises and significant inflation. This volatility has resulted in fluctuations in the levels of deposits and in the relative economic strength of various segments of the economies to which the Group lends. Negative and fluctuating economic conditions, such as a changing interest rate environment, also affect the Group's profitability by causing lending margins to decrease and leading to decreased demand for higher-margin products and services. In addition, significant inflation (such as inflation recently experienced by Venezuela and Argentina) and local currency devaluations (such as in Venezuela and Argentina) can negatively affect the Group's results of operations.

The start of the withdrawal of monetary stimuli by the Federal Reserve in the U.S., and the slowing of economic activity in several emerging markets led to an increase in volatility in the international financial markets. Latin America, like other emerging markets, has been one of the hardest hit in this new environment, particularly as Latin America benefited significantly from the increase in liquidity and the expansion in demand by countries such as the People's Republic of China (the **PRC**) in recent years.

Many of the main challenges for the region relate to the evolution of external factors, including the drop in commodity prices due to lower demand from Asia and the impact of an anticipated tightening of monetary policy by the U.S. Federal Reserve, which could diminish the foreign income of and/or deter the entry of financial flows into Latin American economies. 2014 was marked by a significant moderation in household and business expectations, as well as weakness in domestic demand indicators. The weakness in growth has resulted in the region's monetary policies tending toward a more accommodative approach. The ability of Latin American central banks to decouple themselves from any tightening of monetary policy by the Federal Reserve remains uncertain.

RISK FACTORS

In addition, negative and fluctuating economic conditions in some Latin American countries could result in government defaults on public debt. This could primarily affect the Group in two ways: directly, through portfolio losses, and indirectly, through instabilities that a default in public debt could cause to the banking system as a whole, particularly since commercial banks' exposure to government debt is generally high in several Latin American countries in which the Group operates.

While the Group seeks to mitigate these risks through what it believes to be conservative risk policies, no assurance can be given that its Latin American subsidiaries' growth, asset quality and profitability will not be further affected by volatile macroeconomic conditions in the Latin American countries in which it operates.

Latin American economies can be directly and negatively affected by adverse developments in other countries

Financial and securities markets in Latin American countries in which the Group operates are, to varying degrees, influenced by economic and market conditions in other countries in Latin America and beyond. Growth in the region has decelerated in 2012 and 2013, registering a growth rate of 3.1 per cent. in 2013 (according to current national accounts). The region is expected to grow by 0.5 per cent. in 2014. The external environment for Latin America has become less favourable. In the real economy, commodity prices are decreasing following lower demand from Asia. On the financial side, Latin America, together with other emerging markets, has been one of the regions hardest hit by the financial uncertainty resulting from the gradual moderation of the expansive monetary policies of the U.S. This has resulted in lowered capital inflows, increases in sovereign spreads, stock market falls and in the depreciation of exchange rates. From a fiscal perspective, the slowdown in demand and the lower prices of export commodities (such as copper and soy bean) will continue to reduce tax revenues.

Negative developments in the economy or securities markets in one country or area, particularly in the U.S., the PRC or in Europe under current circumstances, may have a negative impact on emerging market economies. Among the main global risks for Latin American countries are those currently posed by the effects of the withdrawal of monetary stimuli or tapering (as defined below) in the U.S. by the Federal Reserve and the lower foreign demand of commodities mainly from Asian countries. Any such developments may adversely affect the business, financial condition, operating results and cash flows of the Group's subsidiaries in Latin America. These economies are also vulnerable to conditions in global financial markets and especially to commodities price fluctuations, and these vulnerabilities usually reflect adversely in financial market conditions through exchange rate fluctuations, interest rate volatility and deposits volatility. For example, at the beginning of the financial crisis these economies were hit by a simultaneous drop in commodity export prices, a collapse in demand for non-commodity exports and a sudden halting of foreign bank loans. Even though most of these countries withstood the triple shock, with limited damage to their financial sectors, non-performing loan ratios rose and bank deposits and loans contracted. These trends have been corrected in recent months in most countries. As a global economic recovery remains fragile, there are risks of a relapse. If the global financial crisis resumes and, in particular, if the effects on the Chinese, European and U.S. economies intensify, the business, financial condition, operating results and cash flows of the Group's subsidiaries in Latin America are likely to be materially adversely affected.

The Group is exposed to foreign exchange and, in some instances, political risks as well as other risks in the Latin American countries in which it operates, which could cause an adverse impact on its business, financial condition and results of operations

The Group operates commercial banks and insurance and other financial services companies in various Latin American countries and its overall success as a global business depends, in part, upon its ability to succeed in differing economic, social and political conditions. The Group is confronted with different legal and regulatory requirements in many of the jurisdictions in which it operates. These include, but are not limited to, different tax regimes and laws relating to the repatriation of funds or nationalisation or expropriation of assets. The Group's international operations may also expose it to risks and challenges which its local competitors may not be required to face, such as exchange rate risk, difficulty in managing a local entity from abroad, and political risk which may be particular to foreign investors, or the distribution of dividends. For instance, the repatriation of dividends paid and the payments of dividends by the Group's Venezuelan and Argentinean subsidiaries need to be approved in advance by the relevant local authorities. Market outlook for the withdrawal of monetary stimuli or tapering in the U.S., together with the risk of an increased slowdown in the PRC, triggered widespread devaluation in exchange rates in the region in 2013.

The Group's presence in Latin American markets also requires it to respond to rapid changes in market conditions in these countries. There can be no assurance that the Group will succeed in developing and implementing policies and strategies that are effective in each country in which it operates or that any of the foregoing factors will not have a material adverse effect on its business, financial condition and results of operations.

Regulatory changes in Latin America that are beyond the Group's control may have a material effect on its business, financial condition, results of operations and cash flows

A number of banking regulations designed to maintain the safety and soundness of banks and limit their exposure to risk are applicable in certain Latin American countries in which the Group operates. Local regulations differ in a number of material respects from equivalent regulations in Spain and the United States.

RISK FACTORS

Changes in regulations may have a material effect on the Group's business and operations, particularly in Venezuela and Argentina. In addition, since some of the banking laws and regulations have been recently adopted, the manner in which those laws and related regulations are applied to the operations of financial institutions is still evolving. No assurance can be given that laws or regulations will be enforced or interpreted in a manner that will not have a material adverse effect on the Group's business, financial condition, results of operations and cash flows.

Risks Relating to the United States

Adverse economic conditions in the United States may have a material effect on the Group's business, financial condition, results of operations and cash flows

As a result of the business of the Bank's subsidiaries in the United States, the Group is vulnerable to developments in this market, particularly the real estate market. The recent crisis had a significant effect on the real economy and resulted in significant volatility and uncertainty in markets and economies around the world. The U.S. economy is regaining ground with sustained growth of well above 2 per cent. in 2013 and 2014 and unemployment rates falling below 6 per cent. in the last quarter of 2014. However, worsening economic conditions in the United States could have a material adverse effect on the business, financial condition, results of operations and cash flows of the Bank's subsidiary BBVA Compass, or the Group as a whole, and could require the Bank to provide BBVA Compass with additional capital.

Risks relating to Turkey

Since Garanti operates primarily in Turkey, economic, political and other developments (such as exchange rate fluctuations) in Turkey may have a material adverse effect on Garanti's business, financial condition and results of operations

In 2011, the Bank acquired a 25.01 per cent. interest in Türkiye Garanti Bankası A.Ş. (**Garanti**). On 19th November, 2014, the Bank announced the acquisition of a further 62,538 million shares in Garanti, amounting to an additional 14.89 per cent. of the total issued share capital of Garanti, from Doğuş Holding A.Ş. (**Doğuş**), Ferit Faik Şahenk, Dianne Şahenk and Defne Şahenk. Completion of this acquisition is conditional upon the obtaining of all necessary consents from the relevant regulatory authorities.

Most of Garanti's operations are conducted, and most of its customers are located, in Turkey. Accordingly, Garanti's ability to recover on loans, its liquidity and financial condition and its results of operations are substantially dependent upon the economic, political and other conditions prevailing in or that otherwise affect Turkey. For instance, if the Turkish economy is adversely affected by, among other factors, a reduction in the level of economic activity, continuing inflationary pressures, devaluation or depreciation of the Turkish Lira, a natural disaster or an increase in domestic interest rates, then a greater portion of Garanti's customers may not be able to repay loans when due or meet their other debt service requirements to Garanti, which would increase Garanti's past due loan portfolio and could materially reduce its net income and capital levels.

After growing by approximately 2.2 per cent. in 2012 and 4.1 per cent. in 2013 (according to current national accounts), the estimated Turkish GDP growth rate in 2014 is approximately 2.5 per cent. This slowdown is due to monetary tightening in the first part of the year and the softening of external demand. However, the drop in oil prices since the first half of 2014 has had a positive effect on the Turkish economy, as an oil importing country, by reducing its rate of inflation and current account deficit, and consequently its dependence on foreign inflows of capital. Inflation was 8.7 per cent. in 2012 and 7.5 per cent. in 2013, but accelerated slightly in 2014 up to an annual average of 8.8 per cent. before slowing towards the end of 2014. Turkey is an emerging market located in a region that has been subject to ongoing political and security concerns, such as those arising from the bordering conflict in Syria. As such, Turkey could be subject to greater risks than more developed markets, which may also have an adverse effect on the financial sector. Financial turmoil in any emerging market could negatively affect other emerging markets, including Turkey, or the global economy in general. Moreover, financial turmoil in emerging markets tends to adversely affect stock prices and debt securities prices of other emerging markets as investors move their money to more stable and developed markets, and may reduce liquidity to companies located in the affected markets. An increase in the perceived risks associated with investing in emerging economies in general, or Turkey in particular, could dampen capital flows to Turkey and adversely affect the Turkish economy.

In addition, actions taken by the Turkish government could adversely affect Garanti's business and prospects. For example, currency restrictions and other restraints on transfer of funds may be imposed by the Turkish government, Turkish government regulation or administrative policies may change unexpectedly or otherwise negatively affect Garanti, the Turkish government may increase its participation in the economy, including through nationalisations of assets, or the Turkish government may impose burdensome taxes or tariffs. The occurrence of any or all of the above risks could have a material adverse effect on Garanti's business, financial condition and results of operations and the value of the Bank's investment in Garanti. Moreover, political uncertainty or instability within Turkey and in some of its neighbouring countries

RISK FACTORS

(including as a result of the ongoing civil war in Syria) has historically been one of the potential risks associated with investments in Turkish companies.

Furthermore, a significant majority of Garanti's total securities portfolio is invested in securities issued by the Turkish government. In addition to any direct losses that Garanti might incur, a default, or the perception of increased risk of default, by the Turkish government in making payments on its securities or the possible downgrade in Turkey's credit rating would likely have a significant negative impact on the value of the government securities held in Garanti's securities portfolio and the Turkish banking system generally and make such government securities difficult to sell, and may have a material adverse effect on Garanti's business, financial condition and results of operations and the value of the Bank's investment in Garanti.

Any of the risks referred to above could have a material adverse effect on Garanti's business, financial condition and results of operations and the value of the Bank's investment in Garanti

The Bank has entered into a shareholders' agreement with Doğuş, among other shareholders, in connection with its acquisition of Garanti

The Bank entered into a shareholders' agreement with Doğuş, Doğuş Nakliyat ve Ticaret A.Ş. and Doğuş Araştırma Geliştirme ve Müşavirlik Hizmetleri A.Ş. (the **Doğuş Group**), in connection with its acquisition of a 25.01 per cent. interest in Garanti (the **current SHA**). On 19th November, 2014, the Bank and the Doğuş Group entered into an agreement that amends and restates the current SHA and which will come into force upon completion of the Bank's proposed acquisition of the above additional 14.89 per cent. interest in Garanti (**the amended and restated SHA**). Under the current SHA, certain decisions affecting the day to day management of Garanti require the consent of both the Bank and the Doğuş Group. Accordingly, under the current SHA the Bank must cooperate with the Doğuş Group in order to manage Garanti and grow its business.

The amended and restated SHA allows the Bank to appoint the Chairman of Garanti's board of directors, the majority of its members and Garanti's CEO, but provides that certain reserved matters must be implemented or approved (either at a meeting of the shareholders or of the board of directors) only with the consent of each party. For example, for so long as the Doğuş Group owns shares representing over 9.95 per cent. of the share capital of Garanti, the disposal or discontinuance of, or material changes to, any line of business or business entity within the Garanti group that has a value in excess of 25 per cent. of the Garanti group's total net assets in one financial year, will require the Doğuş Group's consent.

If the Bank and the Doğuş Group are unable to agree on such reserved matters, Garanti's business, financial condition and results of operations and the value of the Bank's investment may be adversely affected and the Bank may fail to achieve the expected benefits from its interest in Garanti. In addition, due to the Bank's and Garanti's association with the Doğuş Group, which is one of the largest Turkish conglomerates and has business interests in the financial services, construction, tourism and automotive sectors, any financial reversal, negative publicity or other adverse circumstance relating to the Doğuş Group could adversely affect Garanti or the Bank.

The full consolidation of Garanti in the consolidated financial statements of the Group following completion of the above acquisition may result in increased capital requirements

Following completion of the above acquisition, the Bank will fully consolidate Garanti in the consolidated financial statements of the Group. The consolidation of Garanti will result in a [significant] increase in the Bank's risk weighted assets, reflecting the greater risk profile of Garanti's asset base, and it may result in an incremental increase in the capital requirements imposed on the Group by the Banking Regulation and Supervision Agency (BRSA) in Turkey and/or the ECB through the SSM

Risks Relating to Other Countries

The Group's investment in the CITIC Group exposes it to regulatory, economic and geopolitical risk relating to emerging markets in Asia, particularly in the PRC

BBVA's ownership interests in members of the CITIC Group, a Chinese banking group, are a 29.68 per cent. stake in CITIC International Financial Holdings Ltd (**CIFH**), a banking entity headquartered in Hong Kong, and a 9.6 per cent. stake in China CITIC Bank Corporation Limited (**CNCB**). BBVA announced the sale of its 29.68 per cent. stake in CIFH to CNCB (on completion of which CNCB will hold a 100 per cent. interest in CIFH) on 23rd December, 2014 and the sale of a 4.9 per cent. interest in CNCB on 23rd January, 2015. The closing of these transactions is subject to the relevant regulatory approvals in the case of the CIFH sale, and completion of the necessary legal and corporate requirements for the sale of this portion of its interest in CNCB.

CNCB is a banking entity headquartered in the PRC. To the extent of the Group's remaining interest in CNCB, the Group is exposed to the risks relating to emerging markets in the region, particularly in the PRC. The Chinese government has exercised, and continues to exercise, significant influence over the Chinese economy. Chinese governmental actions,

RISK FACTORS

including changes in laws or regulations or in the interpretation of existing laws or regulations, concerning the economy and state-owned enterprises, or otherwise affecting the Group's activity, could have a significant effect on Chinese private sector entities in general, and on CNCB in particular. Chinese authorities have implemented a series of monetary tightening and macro prudential policies to slow credit growth and to contain rises in real estate prices. These could undermine profitability in the banking sector generally and CNCB's profitability in particular. The Group's business in the PRC may also be affected by the increased credit quality risks resulting from the recent increase in local government debt and financial stresses in smaller companies as their access to various forms of non-bank credit is tightened.

In addition, while the Group believes the long term prospects in the PRC are positive, particularly for the consumer finance market, risks are present from the anticipated long-term slowdown in growth. The different elements of these risks include: (i) the pending rebalancing of the PRC economy from an exports and investment economy to a consumption and services driven economy; (ii) accumulated imbalances such as those seen in outstanding debt levels; and (iii) the liberalisation process required in order for the market to be given the necessary scope to operate as the mechanism by which resources are assigned. All of these elements could pose risks to credit quality.

The PRC's GDP growth has moderated in an orderly manner following the efforts of the authorities to steer the economy towards a soft landing. For 2013, the PRC registered a 7.7 per cent. growth in GDP and a 7.3 per cent. growth is expected for 2014. The economic indicators available at the end of 2014 were consistent with a limited risk of significant adjustment beyond the expected slowdown of growth to 7 per cent. in 2015. The margins for flexibility in fiscal and monetary policies should also make it possible to address differences in demand from the expected levels.

Fundamental changes in the PRC's economic policy have also been announced. At the third plenum of the Chinese Communist Party, the authorities reiterated their commitment to maintaining high rates of growth, while at the same time proposing measures that will strengthen the role of the market in allocating resources and a rebalancing of the Chinese economy from a model of investment and exports towards increasing household consumption. These measures have high execution risks. For example, the rapid growth of credit has been reflected in liquidity tensions in the interbank market which are particularly affecting the shadow banking sector. The continuation of these tensions could have adverse effects on the stability of the system. Risks centre around uncertainties concerning U.S. monetary policy normalisation, the sluggish domestic real estate market and financial fragilities such as the debt overhang of local governments.

Any of these developments could have a material adverse effect on the Group's investments in Hong Kong or the business, financial condition, results of operations and cash flows of the Group..

Other Risks

A further reduction in expansive monetary policies ("tapering") and an increase in interest rates by the Federal Reserve could increase exchange rate and interest rate volatility

In order to stimulate their economies, the United States has been, and Japan is currently, carrying out expansive monetary policies. A reduction of this stimulus (tapering) (such as that implemented by the United States between December 2013 and October 2014) and a tightening of interest rates could potentially increase exchange rate volatility and financial uncertainty outside of the United States. Emerging economies are being subjected to capital outflows and currency depreciation, intensified in some cases by domestic events that have increased uncertainty regarding the management of their respective local economic policies. In addition, central banks are in the difficult position of having to decide between following the approach of the U.S. Federal Reserve to prevent further exchange rate depreciation and the loosening of monetary policy to support domestic growth.

As a result, differentiation between economies depending on their fundamentals can be wider than otherwise might be the case, with higher external deficits and more dependence on short-term and foreign-currency funding associated with greater vulnerability to capital outflows and currency depreciation. This might especially impact emerging economies such as Asia, Latin America and Turkey, which would negatively affect the business, financial condition, operating results and cash flows of the Group's subsidiaries in those regions

Weaknesses or failures in the Group's internal processes, systems and security could materially adversely affect its results of operations, financial condition or prospects, and could result in reputational damage

Operational risks, through inadequate or failed internal processes, systems (including financial reporting and risk monitoring processes) or security, or from people-related or external events, including the risk of fraud and other criminal acts carried out against Group companies, are present in the Group's businesses. These businesses are dependent on processing and reporting accurately and efficiently a high volume of complex transactions across numerous and diverse products and services, in different currencies and subject to a number of different legal and regulatory regimes. Any weakness in these

RISK FACTORS

internal processes, systems or security could have an adverse effect on the Group's results, the reporting of such results, and on the ability to deliver appropriate customer outcomes during the affected period. In addition, any breach in security of the Group's systems could disrupt its business, result in the disclosure of confidential information and create significant financial and legal exposure for the Group. Although the Group devotes significant resources to maintain and regularly update its processes and systems that are designed to protect the security of its systems, software, networks and other technology assets, there is no assurance that all of its security measures will provide absolute security. Any damage to the Group's reputation (including to customer confidence) arising from actual or perceived inadequacies, weaknesses or failures in its systems, processes or security could have a material adverse effect on its results of operations, financial condition or prospects. The financial industry is increasingly dependent on information technology systems, which may fail, may not be adequate for the tasks at hand or may no longer be available

Banks and their activities are increasingly dependent on highly sophisticated information technology (IT) systems. IT systems are vulnerable to a number of problems, such as software or hardware malfunctions, computer viruses, hacking and physical damage to vital IT centres. IT systems need regular upgrading and banks may not be able to implement necessary upgrades on a timely basis or upgrades may fail to function as planned. Furthermore, failure to protect financial industry operations from cyber-attacks could result in the loss or compromise of customer data or other sensitive information. These threats are increasingly sophisticated and there can be no assurance that banks will be able to prevent all breaches and other attacks on its IT systems. In addition to costs that may be incurred as a result of any failure of IT systems, banks could face fines from bank regulators if they fail to comply with applicable banking or reporting regulations

Compliance with anti-money laundering and anti-terrorism financing rules involves significant cost and effort

Group companies are subject to rules and regulations regarding money laundering and the financing of terrorism. Monitoring compliance with anti-money laundering and anti-terrorism financing rules can put a significant financial burden on banks and other financial institutions and pose significant technical problems. Although the Group believes that its current policies and procedures are sufficient to comply with applicable rules and regulations, it cannot guarantee that its Group-wide anti-money laundering and anti-terrorism financing policies and procedures completely prevent situations of money laundering or terrorism financing. Any of such events may have severe consequences, including sanctions, fines and notably reputational consequences, which could have a material adverse effect on the Group's financial condition and results of operations.

3. Risks Relating to the Notes generally

Notes are unsecured obligations of the Issuer and the Guarantor

The Notes issued by the Issuer are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank and will rank pari passu among themselves. Each issue of Notes will be guaranteed by the Guarantor pursuant to the Guarantee. The obligations of the Guarantor under the Guarantee are direct, unconditional, unsecured and unsubordinated obligations of the Guarantor and rank and will rank pari passu among themselves, subject as may from time to time be mandatory under Spanish law.

From 1st January, 2018, claims against the Guarantor under the Guarantee may be subject to bail-in

On 6th June, 2012, the European Commission published a legislative proposal for a directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms, known as the Recovery and Resolution Directive (the "RRD"). The stated aim of the draft RRD is to provide authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers' exposure to losses.

The powers provided to resolution authorities in the draft RRD include a bail-in tool comprising a general power for resolution authorities to write down the claims of unsecured creditors of a failing institution and to convert unsecured debt claims to equity (which may include claims against the Guarantor under the Guarantee, subject to certain parameters as to which liabilities could be eligible for the bail-in tool). It is not currently contemplated that the bail-in tool (other than in relation to certain capital instruments) will be applied before 1st January, 2018.

The draft RRD is not in final form and changes are expected to continue to be made to it in the course of the legislative process. It is also not yet possible to assess the full impact of the draft RRD, including the extent to which the application of the bail-in tool will affect claims such as those against the Guarantor under the Guarantee. However, the exercise of any such tool or any suggestions of its exercise could materially adversely affect the value of the Notes.

Noteholders will not be able to exercise their rights against the Guarantor on an event of default in the event of the adoption of any resolution measure under Law 9/2012

The Guarantor and, indirectly, the Issuer, may be subject to a procedure of early intervention, restructuring or resolution under Law 9/2012 if the Guarantor or its group of consolidated credit entities is in breach of (or there are sufficient objective

RISK FACTORS

elements pursuant to which it is reasonable to foresee that they may breach) applicable regulatory requirements relating to solvency, liquidity, internal structure or internal controls.

Pursuant to Law 9/2012 the adoption of any early intervention, restructuring or resolution procedure shall not itself constitute an event of default or entitle any counterparty of the Guarantor to exercise any rights it may otherwise have in respect thereof. Any provision providing for such rights shall further be deemed not to apply, although this does not limit the ability of a counterparty to declare any event of default and exercise its rights accordingly where an event of default arises either before or after the exercise of any such procedure and does not necessarily relate to the exercise of any relevant measure or power which has been applied pursuant to Law 9/2012.

Accordingly, the above provisions of Law 9/2012 may limit the enforcement by a Noteholder of any rights it may otherwise have against the Guarantor on the occurrence of any Event of Default (as defined in General Condition 9). In addition, pursuant to Directive 2001/24/EC on the reorganisation and winding up of credit institutions in EU Member States, Law 9/2012 and The Credit Institutions (Reorganisation and Winding up) Regulations 2004 of the United Kingdom, any resolution procedure is specified under Law 9/2012 to be a "reorganisation measure" for the purposes of Directive 2001/24/EC and, as such, will be effective in the United Kingdom in relation to the Guarantee as if it were a part of the general law of insolvency of the United Kingdom. Given the absence of any grandfathering provisions under Law 9/2012, this is the case for the Guarantee both in respect of those Notes already in issue as well as any Notes issued in the future.

Any enforcement by a Noteholder of its rights under the Guarantee upon the occurrence of an Event of Default following the adoption of any resolution procedure will, therefore, be subject to the relevant provisions of Law 9/2012 in relation to the exercise of the relevant measures and powers pursuant to such procedure, which may include, among others, the sale of the Guarantor's business, the transfer of assets or liabilities of the Guarantor to a bridge bank and/or the transfer of assets or liabilities of the Guarantor to an asset management company. Any claims against the Guarantor under the Guarantee on the occurrence of an Event of Default will consequently be limited by the application of any measures pursuant to the provisions of Law 9/2012. There can be no assurance that the taking of any such action would not adversely affect the rights of Noteholders, the price or value of their investment in the Notes and/or the ability of the Guarantor to satisfy its obligations under the Guarantee and the enforcement by a Noteholder of any rights it may otherwise have on the occurrence of any Event of Default may be limited in these circumstances.

Notes may be redeemed prior to their scheduled maturity

In the event that the Issuer would be required to pay additional amounts in respect of any Notes due to any withholding as provided in General Condition 7 of the "Terms and Conditions of the Notes" or the performance of the Issuer's obligations under the Notes or any arrangements made to hedge its obligations under the Notes has or will become unlawful, illegal or otherwise prohibited in whole or in part, the Issuer may redeem all of the Notes then outstanding in accordance with the Terms and Conditions of the Notes.

In the event that one or more Events of Default (as defined in General Condition 9 of the "Terms and Conditions of the Notes") occurs, the Notes may become immediately due and repayable at their Early Redemption Amount. In addition, in the case of an Index Linked Note, Equity Linked Note or Fund Linked Note, if "Automatic Early Redemption Event" is specified as being applicable in the Final Terms, on the occurrence of an Automatic Early Redemption Event the Notes will be automatically redeemed at their Automatic Early Redemption Amount. In the case of an Index Linked Note, Equity Linked Note or Inflation Linked Note, if an Additional Disruption Event occurs and "Delayed Redemption on the Occurrence of Additional Disruption Event" is not specified in the Final Terms, the Issuer may redeem the Notes early.

The Final Terms for a particular issue of Notes may provide for early redemption at the option of the Issuer. Such right of termination is often provided for Notes in periods of high interest rates. If the market interest rates decrease, the risk to Noteholders that the Issuer will exercise its right of termination increases. As a consequence, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, the Noteholder may not receive the total amount of the capital invested. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Notes

The Conditions of the Notes contain provisions which may permit their modification without the consent of all investors

The Conditions of the Notes contain provisions for calling of meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

RISK FACTORS

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

The Issuer of the Notes may be substituted without the consent of the Noteholders

The Issuer of the Notes may be replaced as obligor under such Notes with the Guarantor or any company from BBVA's group. Whilst the new issuer will provide an indemnity in favour of the Noteholders in relation to any additional tax or duties that become payable solely as a result of such substitution, Noteholders will not have the right to object to such substitution. See General Condition 16 of the "Terms and Conditions of the Notes".

The Guarantor of the Notes may be substituted without the consent of the Noteholders

The Guarantor of the Notes may be replaced as guarantor under such Notes with another company incorporated anywhere in the world. Whilst the new guarantor will provide an indemnity in favour of the Noteholders in relation to any additional tax or duties that become payable solely as a result of such substitution, Noteholders will not have the right to object to such substitution. See General Condition 16 of the "Terms and Conditions of the Notes".

The Issue Price of the Notes may be more than the market value of such Notes as at the Issue Date and the price of the Notes in the secondary market

The Issue Price in respect of any Notes specified in the relevant Final Terms may be more than the market value of such Notes as at the Issue Date, and more than the price, if any, at which the Dealer or any other person is willing to purchase such Notes in the secondary market. In particular, the Issue Price in respect of any Notes may take into account amounts with respect to commissions relating to the issue, placement and sale of such Notes and amounts relating to the hedging of the Issuer's obligations under such Notes.

Any such difference may have an adverse effect on the value of the Notes, particularly immediately following the Issue Date relating to such Notes, where any such commissions may be deducted from the price at which such Notes can be sold by the initial investor in the secondary market.

Credit ratings assigned to the Issuer, the Guarantor or any Notes may not reflect all the risks associated with an investment in those Notes

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provision that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

Change in law

The Conditions (except for General Condition 3(b) of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to Spanish and English law or administrative practice after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it.

Eurosystem eligibility

There may be an intention (which, if applicable, will be specified in the Final Terms) for certain Notes to be held in a manner which will allow Eurosystem eligibility. This simply means that such Notes are intended upon issue to be deposited with one

RISK FACTORS

of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

U.S. Foreign Account Tax Compliance Withholding

The U.S. Foreign Account Tax Compliance Act (or "FATCA") imposes a new reporting regime and, potentially, a 30 per cent. withholding tax with respect to (i) certain payments from sources within the United States, (ii) "foreign passthru payments" made to certain non-U.S. financial institutions that do not comply with this new reporting regime and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. Whilst the Notes are in global form and held within the clearing systems, in all but the most remote circumstances it is not expected that the new reporting regime and potential withholding tax imposed by Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (FATCA) will affect the amount of any payment received by the clearing systems (see "Taxation - *Foreign Account Tax Compliance Act*"). However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes are discharged once it has paid the common depository for the clearing systems (as bearer or registered holder of the Notes, as the case may be) and the Issuer has therefore no responsibility for any amount thereafter transmitted through the clearing systems and custodians or intermediaries ***Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes***

The U.S. Hiring Incentives to Restore Employment Act (the "**HIRE Act**") imposes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. While significant aspects of the application of the relevant provisions of the HIRE Act to the Notes are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*- Hiring Incentives to Restore Employment Act.*"

Spanish Tax Rules

RD 1145/2011 modified, among other provisions, article 44 of Royal Decree 1065/2007, of July 27 ("**RD 1065/2007**") which sets out the reporting obligations applicable to preference shares and debt instruments issued under additional provision one of Law 10/2014, of June 26 ("**Law 10/2014**"). The new procedures apply to interest deriving from preference shares and debt instruments to which Law 10/2014 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

Notes originally registered with the entities that manage clearing systems located in Spain.

According to the wording of article 44.4 of RD 1065/2007, income derived from securities originally registered with a clearing system located in Spain, will be paid free of Spanish withholding tax in respect to non-Spanish-resident holders (acting or not through a permanent establishment in the Kingdom of Spain) or to legal entities that are resident in the Kingdom of Spain for tax purposes and are subject to Corporate Income Tax, provided that the entities which hold values registered on its third parties accounts or, if applicable, the entities that manage clearing systems located outside Spain which have entered into an agreement with such clearing system located in Spain, submit a statement to the Issuer in accordance with the form attached as annex to RD 1065/2007 (see "Supplementary Annex" under "Taxation" section of this Base Prospectus) with the following information:

- (i) identification of the securities;
- (ii) total amount of income;
- (iii) amount of income received by individual with tax residency in Spain which are subject to Personal Income Tax; and
- (iv) amount of income received that will be paid free of Spanish withholding tax.

Notes originally registered with the entities that manage clearing systems located outside Spain.

RISK FACTORS

Article 44 of RD 1065/2007 sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 10/2014. The procedures apply to interest deriving from preference shares and debt instruments to which Law 10/2014 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

According to the literal wording of article 44.5 of RD 1065/2007, income derived from securities originally registered with the entities that manage clearing systems located outside Spain, and are recognised by Spanish law or by the law of another OECD country (such as Euroclear or Clearstream), will be paid free of Spanish withholding tax provided that the Paying Agent appointed by the relevant Issuer submits a statement to the issuer, in accordance with the form attached as annex to RD 1065/2007 (see “Supplementary Annex” under “Taxation” section of this Base Prospectus) relevant Issuer, the form of which is included in the Agency Agreement, with the following information:

- (i) identification of the securities; and
- (ii) total amount of the income corresponding to each clearing system located outside Spain.

These obligations refer to the total amount paid to investors through each foreign clearing house. For these purposes, “income means interest and the difference, if any, between the aggregate amount payable on the redemption of the Notes and the issue price of the Notes.

In accordance with Article 44 of RD 1065/2007 as amended by RD 1145/2011, the relevant Paying Agent should provide the relevant Issuer with the statement on the business day immediately prior to each interest payment date. The statement must reflect the situation at the close of business of that same day. In the event that on such date, the entity(ies) obliged to provide the declaration fail to do so, the relevant Issuer or the Paying Agent on its behalf will make a withholding at the general rate (currently 21 per cent, , transitory 20% from 1st of January 2015 and 19% from 1st of January 2016..) on the total amount of the return on the relevant Notes otherwise payable to such entity.

According to Article 44.5 RD 1065/2007, the Issuers and the Guarantor are not obliged to withhold any taxes provided that the simplified information procedures (which do not require identification of the Noteholders) are complied with by the Paying Agent. However, the Spanish Tax Authorities may eventually issue a tax ruling to clarify the interpretation of the currently applicable procedures and it cannot be completely discarded that such ruling determines that the relevant Issuer, or, as the case may be, the Guarantor, that is tax resident in Spain, should apply a withholding on payments to individuals with tax residence in Spain. If this were the case, identification of Noteholders may be required and the procedures, if any, for the collection of relevant information will be applied by the relevant Issuer or the Guarantor (to the extent required) so that it can comply with its obligations under the applicable legislation as clarified by the Spanish Tax Authorities.

As at the date of this Base Prospectus, the Guarantor has entered into an agreement with a Tax Certification Agent in order to establish a procedure for the disclosure of information regarding Noteholders who are resident in Spain for tax purposes. Such information will be provided, if necessary, to the Spanish Tax Authorities by the Guarantor.

General

The procedure described in this Base Prospectus for the provision of information required by Spanish laws and regulations is a summary only and is subject to further clarification from the Spanish tax authorities regarding such laws and regulations. None of the Issuers, the Guarantor or the Dealers, assumes any responsibility therefore.

Meetings of Noteholders, modification and waiver

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Withholding under the EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1st January, 2015 in favour of automatic information exchange under the Directive. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

RISK FACTORS

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

4. Risk relating to the structure of particular Notes.

There are particular risks associated with an investment in certain types of Notes, such as Index Linked Notes and may lose some or all of the principal amount invested by it.

Investors may lose the original invested amount

Investors may lose up to the entire value of their investment in the Notes, or part of it, as the case may be, as a result of the occurrence of any one or more of the following events:

- (a) the Issuer and the Guarantor of the Notes are subject to insolvency proceedings or some other event impairing the ability of each to meet its obligations under the Notes;
- (b) the terms of the relevant Notes do not provide for full repayment of the initial purchase price upon final maturity and/or mandatory early redemption of such Notes and the relevant Reference Item(s) perform in such a manner that the final redemption amount and/or mandatory early redemption amount is less than the initial purchase price;
- (c) the purchaser seeks to sell the relevant Notes prior to their scheduled maturity, and the sale price of the Notes in the secondary market is less than the purchaser's initial investment; and
- (d) the Notes are subject to certain adjustments in accordance with the terms and conditions of such Notes that may result in the scheduled amount to be paid or asset(s) to be delivered upon redemption being reduced to or being valued at an amount less than a purchaser's initial investment.

Notwithstanding that the relevant Notes may be linked to the performance of one or more Reference Items, investors in such Notes do not have and shall not receive any rights in respect of any Reference Item and shall have no right to call for any Reference Item to be delivered to them (unless otherwise provided in the Final Terms). Neither the relevant Issuer nor the Guarantor of the Notes shall be required to hold any Reference Item.

The relevant market value of the Notes at any time is dependent on other matters in addition to the credit risk of the Issuer and Guarantor and the performance of the relevant Reference Item(s)

The market value of the Notes at any time will be affected by a number of factors independent of the creditworthiness of the Issuer and the Guarantor (if any) and the performance of the relevant Reference Item(s), including:

- (a) market interest and yield rates;
- (b) the time remaining to any Redemption Date or the Maturity Date;
- (c) where the Reference Item(s) is/are equity securities, the dividend rate on Reference Item(s) and the financial results and prospects of the issuer of each Reference Item; and
- (d) numerous other economic, political and other factors.

The amount payable and/or deliverable in respect of Notes at any time prior to redemption is typically expected to be less than the trading price of such Notes at that time. The difference between the trading price and such amount will reflect, among other things, a "time value" for the Notes. The "time value" of the Notes will depend partly upon the length of the period remaining to final redemption and expectations concerning the value of the relevant Reference Item(s).

Market Disruption Events or Failure to Open of an Exchange

If an issue of Reference Item Linked Notes includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on the Strike Date, a Valuation Date, Observation Date or an Averaging Date and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such date, any consequential postponement of the Strike Date, Valuation Date, Observation Date or Averaging Date or any alternative provisions for valuation provided in any such Notes may have an adverse effect on the value and liquidity of such Notes. The timing of such dates (as scheduled or as so postponed or adjusted) may affect the value of the relevant Notes such that the Noteholder may receive a lower cash redemption amount and/or interest amount or other payment under the relevant Notes than otherwise would have been the case. The occurrence of such a Market Disruption Event or failure to open of an

RISK FACTORS

exchange in relation to any Reference Item comprising a basket may also have such an adverse effect on Notes related to such basket. In addition, any such consequential postponement may result in the postponement of the date of redemption of the Notes.

Notes where denominations involve integral multiples

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination (as set out in the relevant Final Terms) plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a Noteholder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time (i) may not be able to transfer such Notes and (ii) may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and in each case would need to purchase a nominal amount of Notes such that its holding amounts to an integral multiple of the minimum Specified Denomination.

If definitive Notes are issued, Noteholders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Physical Delivery Notes

In the case of Notes which are redeemable by delivery of assets (other than Credit Linked Notes), if a Settlement Disruption Event occurs or exists on the due date for redemption of the Notes, settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The Issuer in these circumstances also has the right to pay the Disruption Cash Redemption Amount in lieu of delivering the Entitlement (as defined in the Terms and Conditions).

If a Failure to Deliver due to Illiquidity occurs, the relevant Issuer has the right, in lieu of delivery of the assets affected by such event, to pay the Failure to Deliver Redemption Amount to the Noteholders. The Disruption Cash Redemption Amount and/or the Failure to Deliver Redemption Amount may be less than the fair market value of the Entitlement.

Noteholders may be required to pay certain expenses in relation to Notes subject to Physical Delivery

Holders of Notes subject to Physical Delivery must pay all Expenses relating to delivery of such Notes. As defined in the terms and conditions, "Expenses" includes all costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes arising from the delivery of the Entitlement.

There are certain requirements to be fulfilled and payments to be made by the Holder in order to receive Notes subject to Physical Delivery and the Issuer may decide to settle by way of cash payment instead in certain circumstances

In order to receive the Entitlement in respect of a Note settled by way of Physical Delivery, the holder of such Note must deliver or send to the relevant Clearing System or Principal Paying Agent (as applicable) a duly completed Asset Transfer Notice on or prior to the relevant time on the Cut-off Date and pay the relevant Expenses. If a Noteholder fails to deliver as required the certification of non-US beneficial ownership or certification that it is an eligible investor for US securities law purposes, the Issuer may deliver what the Calculation Agent determines to be the fair market value of the Entitlement instead of the relevant assets.

Certain considerations relating to public offers of the Notes

If the Notes are distributed by means of a public offer, under certain circumstances indicated in the Final Terms, the Issuer and/or the other entities indicated in the Final Terms will have the right to withdraw or revoke the offer and the offer will be deemed to be null and void according to the terms indicated in the Final Terms.

The Issuer and/or the other entities specified in the Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Notes issued and, therefore, may have an adverse effect on the liquidity of the Notes.

Some information regarding the Notes (e.g. interest rate, settlement date), the offer and/or the listing may be determined after the publication of the Final Terms and will be made public in accordance with the procedures set out in the Final Terms.

If an investor holds Notes which are not denominated in the investor's home currency, that investor will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes and the Guarantor will make any payments under the Guarantee in the Specified Notes Currency. This presents certain risks relating to currency conversions if an investor's financial activities are

RISK FACTORS

denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Notes Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Notes Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Notes Currency would decrease (1) the Investor's Currency equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or Guarantor to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

Risk of leveraged exposure

Leverage involves the use of a number of financial techniques to increase the exposure to a Reference Item, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Reference Item moves in the anticipated direction, it will conversely magnify losses when the Reference Item moves against expectations. If the relevant Notes include leverage, potential holders of such Notes should note that these Notes will involve a higher level of risk, and that whenever there are losses such losses will be higher (other things being equal) than those of a similar Note which is not leveraged. Investors should therefore only invest in leveraged Notes if they fully understand the effect of leverage.

Conducting hedging transactions

The Issuer may use all or some of the proceeds received from the sale of Notes to enter into hedging transactions. All or part of these hedging transactions may be entered into by the Issuer with the Guarantor. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the relevant Notes. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of Notes might in particular be affected by the liquidation of all or a portion of the relevant hedging positions (a) at or about the time of the maturity or expiration of such Notes or (b), if such Notes provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the relevant underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

5. Generic Risk Factors that are associated with Notes that are linked to Reference Item(s)

Risks relating to Reference Item Linked Notes

Reference Item Linked Notes are securities which do not provide for predetermined redemption amounts and/or interest payments, but amounts payable (whether in respect of principal and/or interest) or deliverable will be dependent upon the performance of the Reference Item, or a combination of Reference Items, which themselves may contain substantial credit, interest rate, foreign exchange, correlation, time value, political and/or other risks.

An investment in Reference Item Linked Notes therefore entails significant risks that are not associated with similar investments in a conventional fixed or floating rate debt security. These risks include, among other things, the possibility that:

- (a) the Reference Item may be subject to significant changes, whether due to the composition of any such Reference Item itself, or because of fluctuations in value of the Reference Item;
- (b) the resulting interest rate will be less (or may be more) than that payable on a conventional debt security issued by the Issuer at the same time or they may receive no interest;
- (c) the holder of a Reference Item Linked Note could lose all or a substantial portion of the principal of such Note (whether payable at maturity or upon redemption or repayment), and, if the principal is lost, interest may cease to be payable on such Note;
- (d) any Note that is linked to more than one type of Reference Item, or on a formula that encompass the risks associated with more than one type of Reference Item, may carry levels of risk that are greater than those for Notes that are indexed to one type of Reference Item only;
- (e) it may not be possible for investors to hedge their exposure to these various risks relating to Reference Item Linked Notes; and

RISK FACTORS

(f) a significant market disruption could mean that any Reference Item ceases to exist.

The risks reflect the nature of such a Note as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it expires or is redeemed. The risk of the loss of some or all of the purchase price of a Reference Item Linked Note upon redemption means that, in order to recover and realise a return upon his or her investment, a purchaser of such Note must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Reference Item.

It may not be possible to use the Notes as a perfect hedge against the market risk associated with investing in a Reference Item

Potential purchasers intending to purchase Notes to hedge against the market risk associated with investing in a Reference Item should recognise the complexities of utilising Notes in this manner. For example, the value of the Notes may not exactly match the value of the Reference Item. Due to fluctuating supply and demand for the Notes, there is no assurance that their value will match movements in the value of the Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate Notes in a portfolio at the prices used to calculate the value of any Reference Item.

There may be regulatory consequences for a Holder of Reference Item Linked Notes

There may be regulatory and other consequences associated with the ownership by certain investors of certain Reference Item Linked Notes. Each purchaser of Notes must conduct its own investigation into its regulatory position with respect to the potential purchase of Notes, and none of the Issuer, the Guarantor, the Dealer or the Arranger assumes any obligation or liability whatsoever to such purchaser in such regard.

There are specific risks with regard to Notes linked to a combination of Reference Items

An investment in Notes that are linked to a combination of Reference Items will entail significant risks not associated with an investment in a conventional debt security. A combination of the risks associated to the Reference Items may be significantly higher than the risks of each Reference Item considered on its own. On redemption of these type of Notes, the Noteholders will receive an amount (if any) or Entitlement (if any) determined by reference to the value of a combination of a number of different Reference Items. These Notes may pay interest calculated by reference to the value of the combination of a number of Reference Items.

No rights of ownership in the Reference Item(s)

Purchasers of Notes should be aware that the Issuer is under no obligation to hold a position in any Reference Item(s) and should note that the relevant Reference Item(s) that may be held by the Issuer will not be held by the Issuer for the benefit of the purchasers of such Notes and, as such, Noteholders will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any Reference Item referenced by such Notes. For the avoidance of doubt, no BBVA affiliate is under any obligation whatsoever to acquire and/or hold any Reference Item.

The past performance of a Reference Item is not indicative of future performance

Any information about the past performance of the Reference Item at the time of the issuance of the Notes should not be regarded as indicative of the range of, or trends in, fluctuations in the Reference Item that may occur in the future.

6. Risk Factors associated with Notes that are linked to one or more specific types of Reference Items

There are certain factors which are material for the purpose of assessing the risks associated with an investment in Notes issued under the Programme. Such factors will vary depending on the type of Notes issued, in particular in relation to Notes in respect of which the interest and/or redemption amount is linked to the value of one or more index, share, inflation index, unit, interest or share in a fund, the credit of one or more reference entity, , foreign exchange rate or the combination of any of the foregoing or such other underlying or basis of reference.

Risks relating to Index Linked Notes

The Issuer may issue Notes where the Final Redemption Amount or the amount of principal and/or interest payable is dependent upon the level of an index or indices (**Index Linked Notes**).

Potential investors in any such Notes should be aware that depending on the terms of the Index Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment if the value of the index/indices does not move in the anticipated direction. In addition, the movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant

RISK FACTORS

level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index or result of a formula, the greater the effect on yield.

If the Final Redemption Amount or the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. The index may reference equities, bonds or other securities, or it may be a property index referencing certain property price data which will be subject to market price fluctuations. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Notes.

Adjustment to indices for Index Linked Notes

If an index adjustment event (as described in “*Additional Terms and Conditions for Index Linked Notes*”) occurs the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the Notes or redeem the Notes. Such action may have an adverse effect on the value and liquidity of the affected Reference Item Linked Notes.

Returns on the Notes do not reflect direct investment in underlying shares or other assets comprising the index

The return payable on Notes that reference indices may not reflect the return a purchaser would realise if the Noteholder actually owned the relevant assets comprising the components of the index. For example, if the components of the indices are shares, Noteholders will not receive any dividends paid on those shares and will not participate in the return on those dividends unless the relevant index takes such dividends into account for purposes of calculating the relevant level. Similarly, Noteholders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant index. Accordingly, purchasers in Notes that reference indices as Reference Items may receive a lower payment upon redemption of such Notes than such purchaser would have received if the Noteholder had invested in the components of the index directly.

A change in the composition or discontinuance of an index could adversely affect the market value of the Notes

The sponsor of any index can add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of components of any index may affect the level of such index as a newly added component may perform significantly worse or better than the company it replaces, which in turn may affect the payments made by the issuer to the purchasers of the Notes. The sponsor of any such index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. The sponsor of an index may take any actions in respect of such index without regard to the interests of the purchasers of the Notes, and any of these actions could adversely affect the market value of the Notes.

Risks relating to Equity Linked Notes

The Issuer may issue Equity Linked Notes where the Final Redemption Amount or the amount of interest payable are dependent upon the price of or changes in the price of shares or a basket of shares or, depending on the price of or change in the price of shares or the basket of shares, where the Issuer’s obligation on redemption is to deliver a specified number of shares (**Equity Linked Notes**). Accordingly an investment in Equity Linked Notes may bear similar market risks to a direct equity investment and potential investors should take advice accordingly. An investment in Equity Linked Notes will entail significant risks not associated with a conventional debt security.

Potential investors in any such Notes should be aware that depending on the terms of the Equity Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified shares may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment if the value of the share(s) does not move in the anticipated direction. In addition, the movements in the price of the share or basket of shares may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the share or shares may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the share or shares, the greater the effect on yield.

If the Final Redemption Amount or the amount of interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share or shares on principal or interest payable will be magnified.

RISK FACTORS

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date, the volatility of the share or shares, the dividend rate (if any) and the financial results and prospects of the issuer of the relevant share or shares as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such shares may be traded.

A holder of the Equity Linked Notes will not be a beneficial owner of the underlying equity securities and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying equity securities, nor will a Noteholder be entitled to purchase the underlying equity securities by virtue of their ownership of the Notes. Moreover, holders of the Notes will not be entitled to any voting rights or other control rights that holders of the underlying equity securities may have with respect to the issuer of such underlying equity securities. Unless otherwise specified in the applicable Final Terms, the Interest Amount and/or Final Redemption Amount will not reflect the payment of any dividends on the underlying equity securities. Accordingly, the return on the Notes will not reflect the return an investor would realise if it actually owned the underlying equity securities and received dividends, if any, paid on those securities. Therefore, the yield to maturity based on the methodology for calculating the Final Redemption Amount will not be the same yield as would be produced if the underlying equity securities were purchased directly and held for a similar period.

Determinations made by the Calculation Agent in respect of Potential Adjustment Events, Extraordinary Events and Additional Disruption Events may have an adverse effect on the value of the Notes

Upon determining that a Potential Adjustment Event, Extraordinary Event or Additional Disruption Event has occurred in relation to an underlying share or the issuer of such underlying share, the Calculation Agent has broad discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Notes (including to substitute the affected Share) and/or (ii) (in the case of an Extraordinary Event or an Additional Disruption Event) cause early redemption of the Notes or cancel the Notes, linkage to the relevant equity(ies), any of which determinations may have an adverse effect on the value of the Notes.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of the shares, (b) an extraordinary dividend, (c) a call of the shares that are not fully paid, (d) a repurchase by the issuer, or an affiliate thereof, of the shares, (e) a separation of rights from the shares or (f) any event having a dilutive or concentrative effect on the value of the shares. Extraordinary Events include (a) a delisting of the shares on an exchange, (b) an insolvency (where all the shares of the issuer of the underlying shares are transferred to a trustee, liquidator or similar official or may not be legally transferred) or bankruptcy of the issuer of the shares, (c) a merger event entailing the consolidation of the shares with those of another entity, (d) a nationalisation of the issuer of the shares or transfer of the shares to a governmental entity, or (e) a tender offer or takeover offer that results in transfer of the shares to another entity. Additional Disruption Events include (a) a change in applicable law since the Issue Date that makes it illegal to hold, acquire or dispose of the shares or more expensive for the Issuer to hedge its obligations under the relevant Notes or (b) if specified to be applicable in the relevant Final Terms, (i) an insolvency filing by or on behalf of the issuer of the underlying shares or (ii) Hedging Disruption.

Holders may receive physical delivery of Shares in lieu of payment of cash amounts

Where the Notes include the right of the Issuer, subject to the fulfilment of a particular condition, to redeem the Notes at their maturity by delivering Shares to the purchaser of such Notes, the purchasers will receive such Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the issuer of such Shares and the risks associated with such Shares. The purchaser should not assume that the Noteholder will be able to sell such Shares for a specific price after the redemption of the Notes, and in particular not for the purchase price of the Notes. Under certain circumstances the Shares may only have a very low value or may, in fact, be worthless, in which case see risk factor "Investor may lose the original invested amount" above. Holders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Shares.

Risks relating to Inflation Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable is dependent upon the level of an inflation index or indices (**Inflation Linked Notes**).

Potential investors in any such Notes should be aware that depending on the terms of the Inflation Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the inflation index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an inflation index or result of a formula, the greater the effect on yield.

In certain circumstances following cessation of publication of the inflation index, the Calculation Agent may determine that there is no appropriate alternative inflation index, in which case the Issuer may redeem the Notes. Such action may have an effect on the value of the Notes.

RISK FACTORS

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation index or the indices on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the inflation index or indices. The level of the inflation index or indices may be affected by the economic, financial and political events in one or more jurisdictions or regions.

Risks relating to Fund Linked Notes

The Issuer may issue Notes where the Final Redemption Amount or the amount of principal and/or interest payable are dependent upon the price or changes in the price of units, shares or interests in a fund or funds (including exchange traded fund(s)) or where, depending on the price or changes in the price of units, shares or interests in such fund or funds, on redemption the Issuer's obligation is to deliver a specified amount of Fund Shares (**Fund Linked Notes**). Accordingly, an investment in Fund Linked Notes may bear similar market risks to a direct fund investment and potential investors should take advice accordingly. An investment in Fund Linked Notes will entail significant risks not associated with a conventional debt security. Prospective investors in any such Notes should be aware that depending on the terms of the Fund Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified Fund Shares may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment if the value of the fund share(s) or unit(s) does not move in the anticipated direction. In addition, the movements in the price of units, shares or interests in the fund or funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the fund or funds may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the units, shares or interests in the fund or funds, the greater the effect on yield.

Prospective investors should also be aware that in the event of the occurrence of one or more Extraordinary Fund Events the Issuer may substitute the relevant Fund Shares with fund shares of a fund with similar characteristics or, if no such fund is selected, with a replacement index, or redeem the Notes depending on whether such Extraordinary Fund Event is a Substitution Event or a Termination Event.

In the event that redemption proceeds in respect of the underlying Fund Shares are not received by the hedge provider on or prior to the scheduled redemption date or termination date, such date may be postponed for a period of up to two calendar years (or such other period as may be specified in the applicable Final Terms) and no additional amount shall be payable as a result of such delay.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or funds on principal or interest payable will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date or settlement date (as applicable) and the volatility of the price of unit(s), fund shares or interests in the fund or funds. The price of units, fund shares or interests in a fund may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units, shares or interests in the fund or funds may be traded.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by any relevant fund before purchasing any Notes. None of the Issuer, any Affiliate of the Issuer or the Calculation Agent make any representation as to the creditworthiness of or advisability of an investment in relation to any relevant fund or any such fund's administrative, custodian, investment manager or adviser.

Where the Issuer issues Fund Linked Notes linked to one or more funds, including hedge funds, the relevant Notes reflect the performance of such fund(s).

Funds may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities.

Holders may receive physical delivery of Shares in lieu of payment of cash amounts

Where the Notes include the right of the Issuer, subject to the fulfilment of a particular condition, to redeem the Notes at their maturity by delivering Fund Shares to the purchaser of such Notes, the purchasers will receive such Fund Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the issuer of such Shares and the risks associated

RISK FACTORS

with such Fund Shares. The purchaser should not assume that the Noteholder will be able to sell such Fund Shares for a specific price after the redemption of the Notes, and in particular not for the purchase price of the Notes. Under certain circumstances the Fund Shares may only have a very low value or may, in fact, be worthless, in which case see risk factor "Investor may lose the original invested amount" above. Holders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Fund Shares.

For all the above reasons, investing directly or indirectly in funds is generally considered to be risky. If the underlying fund does not perform sufficiently well, the value of the Notes will fall, and may in certain circumstances be zero.

Risks relating to Credit Linked Notes

The Issuer may issue Credit Linked Notes where the amount payable is dependent upon whether certain events (**Credit Events**) have occurred in respect of one or more entities (together "**Reference Entities**" and each a "**Reference Entity**") and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if such events have occurred, on redemption the Issuer's obligation is to deliver certain specified assets.

Save where Maturity Credit Redemption applies the Credit Linked Notes may then be redeemed prior to their scheduled maturity. Where Maturity Credit Redemption applies (as specified in the applicable Final Terms) maturity of the Credit Linked Notes may be delayed until scheduled maturity of the Credit Linked Notes, notwithstanding that this may occur a significant time following the occurrence of the relevant Credit Event and unless so elected in the applicable Final Terms no further interest will be payable in this period.

Prospective investors in any such Notes should be aware that depending on the terms of the Credit Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Notes may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the reference entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

The Issuer's obligations in respect of Credit Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a reference entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The holders of Credit Linked Notes will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the Final Terms, to the full extent of their investment in such Notes. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Noteholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Note is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Noteholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls. See also risk factor "*Risk of Leveraged Exposure*" above.

Where cash settlement or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Notes in a reduced nominal amount or at zero, and interest bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance.

Where physical settlement applies, the occurrence of a Credit Event may result in the redemption of the Notes by delivery of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their paramount. Where the Notes provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which, for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans), are impossible or illegal to deliver on the specified settlement date, or (b) assets which the Issuer, the Guarantor and/or any affiliate has not received under the terms of any transaction entered into by the Issuer, the Guarantor and/or such affiliate to hedge the Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of principal payable on redemption. Prospective Investors should review the "*Terms and Conditions of the Notes*" and the Final Terms to ascertain whether and how such provisions should apply to the Notes.

RISK FACTORS

Investors in the Notes are accordingly exposed, as to both principal and (if applicable) interest, to the credit risk of the Reference Entity. The maximum loss to an investor in the Notes is 100 per cent. of their initial principal investment, together with (if applicable) any accrued interest amounts.

A Credit Event may occur prior to the Trade Date

Holders of the Notes may suffer a loss of some or all principal amount of the Notes in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date. Neither the Calculation Agent nor the Issuer nor any of their respective Affiliates has any responsibility to inform any Noteholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

Increased credit risk is associated with "First-to-Default" or "Nth-to-Default" Credit Linked Notes or Linear Basket Credit Linked Notes

Where the Notes are First-to-Default or Nth-to-Default Credit Linked Notes or Linear Basket Credit Linked Notes, the Notes may be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the first or the nth or each Reference Entity in respect of which a Credit Event occurs. The credit risk to Noteholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities, including for Zero/Set Recovery Notes.

Interest and principal repayments on the Notes may be calculated by reference to the Outstanding Nominal Amount of the Notes. As at the Issue Date the Outstanding Nominal Amount is an amount equal to the Aggregate Nominal Amount. If a Credit Event occurs in respect of a Reference Entity, then the Outstanding Nominal Amount may be reduced by an amount equal to a predefined portion of the Aggregate Nominal Amount which may be zero irrespective of the actual market recovery in respect of such Reference Entity. Therefore investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may lose the entire principal amount invested.

Amendment of Credit Linked Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions or hedging arrangements of the Issuer.

ISDA Credit Derivatives Definitions

Whilst there are many similarities between the terms used in this Base Prospectus (in particular, in the Additional Terms and Conditions for Credit Linked Notes and the terms used in the 2014 ISDA Definitions, there are many substantial differences and a prospective investor should understand that the complete terms and conditions of the Notes are as set out in this Base Prospectus and the applicable Final Terms and that the 2014 ISDA Definitions are incorporated not by reference herein. Consequently, investing in Credit Linked Notes is not necessarily equivalent to investing a credit default swap that incorporates the 2014 ISDA Definitions.

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how either set of the ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Notes and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predicable or favourable to the Issuer or the Noteholders.

Risks relating to Auction Settlement of Credit Linked Notes

Where an Auction Final Price Determination Date occurs in respect of Credit Linked Notes, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

RISK FACTORS

The Issuer and the Noteholders may have little or no influence in outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their Affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their Affiliates) shall be under any obligation to consider the interests of any Noteholder.

Risks relating to Foreign Exchange (FX) Rate Linked Notes

The Issuer may issue Notes where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated (Foreign Exchange (FX) Rate Notes). Accordingly an investment in Foreign Exchange (FX) Rate Notes may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the Foreign Exchange (FX) Rate Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

The foreign exchange rate(s) to which the Notes are linked will affect the nature and value of the investment return on the Notes. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above.

Payments of principal and interest or other obligations of the Issuer in respect of any Tranche of Notes may be restricted upon the occurrence of certain disruption events applicable to the Notes, if so specified in the Final Terms (the "**Currency Adjustment Notes**"). A relevant disruption event may relate to the imposition of currency or exchange controls in any specified country or to a nationalisation, or any other circumstance as provided in the Final Terms. Following a relevant disruption event in respect of Currency Adjustment Notes, the Issuer shall be entitled to require the Calculation Agent to adjust the Notes or to redeem the Notes early or to postpone payments or deliveries in respect of the Notes so long as the relevant disruption event continues.

Notes which are issued at a substantial discount of premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

There are specific risks with regard to Floating Rate Notes

A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the "*Terms and Conditions of the Notes*" provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to issue Fixed Rate Notes may affect the market value and secondary market (if any) of the Floating Rate Notes (and *vice versa*).

RISK FACTORS

7. Market Factors

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Notes

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

There may be price discrepancies with respect to the Notes as between various dealers or other purchasers in the secondary market

If at any time a third party dealer quotes a price to purchase Notes or otherwise values Notes, that price may be significantly different (higher or lower) from any price quoted by any affiliate of BBVA. Furthermore, if any Noteholder sells their Notes, the Noteholder will likely be charged a commission for secondary market transactions, or the price may reflect a dealer discount.

8. Potential Conflicts of Interest

The Issuer and/or the Guarantor are subject to various potential conflicts of interest in respect of the Notes, which could have an adverse effect on the Notes.

The Issuer, the Guarantor and its affiliates may take positions in or deal with Reference Item(s)

The Issuer, the Guarantor and its affiliates may:

- (a) in the ordinary course of business, effect transactions for their own account or for the account of their customers and hold long or short positions in the Reference Item(s) or related derivatives;
- (b) in connection with an offering of Notes, enter into one or more hedging transactions with respect to the Reference Item(s) or related derivatives; and/or
- (c) in connection with such hedging or market-making activities or with respect to proprietary or other trading activities, enter into transactions in the Reference Item(s) or related derivatives which may adversely (or positively) affect the price, liquidity or value of the relevant Notes and which could therefore be adverse to the interests of the relevant Noteholders.

The Calculation Agent, which will generally be the Guarantor or an affiliate of the Guarantor, has broad discretionary powers which may not take into account the interests of the Noteholders

As the Calculation Agent will generally be the Guarantor or an affiliate of the Guarantor, potential conflicts of interest may exist between the Calculation Agent and the Noteholders, including with respect to the exercise of the very broad discretionary powers of the Calculation Agent. For example, the Calculation Agent has the authority (i) to determine whether certain specified events and/or matters so specified in the conditions relating to a Tranche of Notes have occurred and (ii) to determine any resulting adjustments and calculations or substitutions as described in such conditions. Potential purchasers should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Notes. Any such discretion exercised by, or any calculation made by, the Calculation Agent (in the absence of manifest or proven error) shall be binding on the relevant Issuer and all Noteholders.

The Issuer and/or the Guarantor may have confidential information relating to the Reference Item and the Notes

The Issuer and/or the Guarantor or its affiliates may from time to time, by virtue of their status as underwriter, advisor or otherwise, possess or have access to information relating to the Notes, the Reference Item and any derivative Notes referencing them. FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without interest coupons attached, registered form, without interest coupons attached, or in book-entry form. In this Base Prospectus, Bearer Notes and Registered Notes are collectively referred to as **Certificated Notes**. Notes will be issued outside the United States in reliance on Regulation S under the Securities Act (**Regulation S**).

Bearer Notes

Each Tranche of Bearer Notes will be initially issued in the form of a temporary global note (a “**Temporary Bearer Global Note**”) or a permanent global note (a “**Permanent Bearer Global Note**”) as indicated in the applicable Final Terms, which, in either case, will (i) if the Global Notes are intended to be issued in new global note (“**NGN**”) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear and Clearstream, Luxembourg; or (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream, Luxembourg. Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification of non-U.S. beneficial ownership or certification to the effect that the holder is a U.S. person who purchased in a transaction that did not require registration under the Securities Act and to the effect that such holder is not a United States person, or is a United States person that purchased by or through certain United States financial institutions or is a financial institution purchasing for resale during the restricted period to persons other than United States persons or persons within the United States or its possessions as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Bearer Global Note of the same Series or (b) for definitive Bearer Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Bearer Global Note if the Permanent Bearer Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached upon either (a) not less than 60 days’ written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) to the Principal Paying Agent as described therein or (b) only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in General Condition 9) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available, (iii) if so specified in the applicable Final Terms, the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form or (iv) the Notes are required to be removed from both Euroclear and Clearstream, Luxembourg and no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance with General Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) or the Issuer, as the case may be, may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes which have an original maturity of more than 365 days and on all receipts and interest coupons relating to such Notes:

FORM OF THE NOTES

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

Registered Notes will initially be represented by a global note in registered form (a Registered Global Note). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Registered Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in General Condition 2 and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Registered Global Note will bear a legend describing such restrictions on transfer.

Registered Global Notes will either (a) be deposited with a custodian for the accounts of Euroclear and Clearstream, Luxembourg or (b) be deposited with a common depositary or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg, and registered in the name of a common nominee of Euroclear and Clearstream, Luxembourg or in the name of a nominee of the common safekeeper, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in General Condition 5.(2) (i)) as the registered holder of the Registered Global Notes. None of the Issuer, the Guarantor, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in General Condition 5) immediately preceding the due date for payment in the manner provided in that General Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (a) an Event of Default has occurred and is continuing, (b) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form, (c) in the case of Notes registered in the name of a nominee for a common depositary or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, no successor clearing system is available, and (d) the Notes are required to be removed from (in the case of Notes registered in the name of a nominee for a common depositary or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg) both Euroclear and Clearstream, Luxembourg and, in either case, no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance with General Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) or the Issuer, as the case may be, may give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Registrar.

No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

General provisions relating to Certificated Notes

FORM OF THE NOTES

Pursuant to the Agency Agreement (as defined under “Terms and Conditions of the Notes”), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg or its nominee each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and their agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes and voting, giving consents or making requests, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer, the Guarantor and their agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly.

Except in relation to Notes issued in NGN form or Registered Global Notes held under the NSS, any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer and the Principal Paying Agent. A Note may be accelerated by the holder thereof in certain circumstances described in General Condition 9. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note within a period of 15 days from the giving of a notice by a holder with Euroclear or Clearstream, Luxembourg of such Notes so represented and credited to its securities account that it wishes to accelerate such Notes, then holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and Clearstream, Luxembourg.

Subject as set out below, title to Bearer Notes, Coupons and Receipts will pass by delivery, and title to Registered Notes will pass upon registration of transfers, in accordance with the provisions of the Agency Agreement. The holder of each Coupon or Receipt, whether or not such Coupon or Receipt is attached to a Bearer Note, in his capacity as such, shall be subject to and bound by all the provisions contained in the relevant Note. The Issuer, the Guarantor and any Paying Agent, to the extent permitted by applicable law, may deem and treat the bearer of any Bearer Note, Coupon or Receipt as the absolute owner thereof (whether or not such Bearer Note, Coupon or Receipt shall be overdue and notwithstanding any notation of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Bearer Global Note, without prejudice to the provisions set out below.

The Issuer has appointed the entity specified in the Final Terms at its office specified below to act as registrar of the Registered Notes (the "**Registrar**").

(d) Notes in Global Form

For as long as any of the Notes are represented by a Global Note held by or on behalf of Euroclear Bank S.A./N.V. ("**Euroclear**") and/or Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**") , each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg, as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and the Agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer, the Guarantor and any Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**holder of Notes**" and related expressions shall be construed accordingly.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be.

Except in relation to Notes indicated in the Final Terms as being in New Global Note form, references to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the Final Terms or as may otherwise be approved by the Issuer and Principal Paying Agent.

If Registered Notes are represented by a Registered Global Note, such Registered Global Note will be registered in the name of a nominee for a common safekeeper (if the Registered Global Note is issued under the new safekeeping structure ("**NSS**")) or a common depository (if the Registered Global Note is not issued under the NSS) on behalf of, in either case, Euroclear and Clearstream Luxembourg or in the name of a nominee for an alternative clearing system or in the name of such other person as the Final Terms shall provide.

(e) Book-Entry Notes

Book-Entry Notes may be transferred and title to the Book-Entry Notes may pass, in accordance with Spanish law and with all rules, restrictions and requirements of Iberclear (or, as the case may be, the relevant Iberclear Member), upon registration in the Central Registry or, as the case may be, the registry maintained by the relevant Iberclear Member. Each Holder will be (except as otherwise required by Spanish law) treated as the absolute owner of the relevant Book-Entry Note for all purposes and no person will be liable for so treating the Holder.

The creation of limited in rem rights or any other encumbrance on the Book-Entry Note must be entered in the corresponding account and effected in accordance with the then current procedures of Iberclear (or relevant Iberclear Member).

One or more certificates evidencing the relevant Noteholder's holding of Book-Entry Notes in the relevant registry will be delivered by the relevant Iberclear Member or, where the Noteholder is itself a Iberclear Member, by Iberclear (in each case, in accordance with the requirements of Spanish law and the procedures of the relevant Iberclear Member or, as the case may be, Iberclear) to such Noteholder upon such Noteholder's request. Transfers of Registered Notes.

TERMS AND CONDITIONS OF THE NOTES

2. Transfer Of Registered Notes

(a) Transfers of interests in Registered Global Notes

Transfers of beneficial interests in Registered Global Notes will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Notes in definitive form or for a beneficial interest in another Registered Global Note only in the Specified Denominations set out in the Final Terms and only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Agency Agreement.

(b) Transfers of Registered Notes in definitive form

Subject as provided in paragraph (e) below upon the terms and subject to the conditions set forth in the Agency Agreement, a Registered Note in definitive form may be transferred in whole or in part (in the Specified Denominations set out in the Final Terms). In order to effect any such transfer (i) the holder or holders must (A) surrender the Registered Note for registration of the transfer of the Registered Note (or the relevant part of the Registered Note) at the specified office of any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (B) complete and deposit such other certifications as may be required by the relevant Transfer Agent and (ii) the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such reasonable regulations as the Issuer and the Registrar may from time to time prescribe (the initial such regulations being scheduled to the Agency Agreement). Subject as provided above, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request, a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

(c) Registration of transfer upon partial redemption

In the event of a partial redemption of Notes under General Condition 6, the Issuer shall not be required to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

(d) Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

(e) Exchanges and transfers of Registered Notes generally

Holders of Registered Notes in definitive form, other than Institutional Accredited Investors, may exchange such Notes for interests in a Registered Global Note of the same type at any time.

(f) Minimum Tradeable Amount

Where a "**Minimum Tradable Amount**" is specified in the Final Terms, Notes will be transferable only in a minimum aggregate amount of Specified Denominations equal to the Minimum Tradable Amount specified in the Final Terms.

The Issuer, the Guarantor, the Dealer, the Principal Paying Agent or any other party to this Programme shall not be liable to any Noteholder for any loss arising by operation of this General Condition 1 (2).

3. Status Of The Notes And The Guarantee

(a) Status of the Notes

TERMS AND CONDITIONS OF THE NOTES

The Notes and any related Coupons and Receipts are direct, unconditional, unsecured and unsubordinated obligations of the Issuer and rank and will rank *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditor's right.

In the event of insolvency of the Issuer, the court having jurisdiction to open an insolvency proceeding and the law applicable to those proceedings and their effects will be determined in accordance with the provisions of Council Regulation (EC) No 1346/2000, of 29th May 2000, on insolvency proceedings ("**Regulation 1346/2000**"), the Spanish Insolvency Law 22/2003, of 9th July 2003, as amended (the "**Insolvency Law**") and the Dutch Insolvency Law (*faillissementswet*) of 30th September, 1893, as most recently amended on 13th March, 2008 (the "**Dutch Insolvency Law**"). Pursuant to these provisions, the courts of the place where the Issuer has its centre of main interests shall have jurisdiction to open insolvency proceedings against it and the law applicable to the insolvency proceedings and their effects will be the law of the place where such proceedings are opened.

Under Regulation 1346/2000 the centre of main interests should correspond to the place where the debtor conducts the administration of its interests on a regular basis and is therefore ascertainable by third parties. In the case of a company or legal person, Regulation 1346/2000 presumes, in the absence of proof to the contrary, that the place of its registered office is the centre of main interests. Based on this presumption a Dutch court may consider that it has jurisdiction to open insolvency proceedings against the Issuer. Notwithstanding this presumption, it is arguable that the centre of main interests of the Issuer should be considered to be located in Spain and that the Spanish courts should be the courts with jurisdiction to open insolvency proceedings against it. In addition, even if the centre of main interests of the Issuer were not in Spain, the Spanish court could still open insolvency proceedings (named territorial insolvency proceedings) if they consider that the Issuer has an establishment within the territory of Spain, the effects of which would be limited to the assets of the Issuer situated in Spain.

In the event of insolvency (*faillissement*) of the Issuer declared by a Dutch court (either principal or territorial proceedings), claims relating to Notes will be *pari passu* claims (*concurrente vorderingen*) as defined in the Dutch Insolvency Law. Ordinary credits rank below credits against the insolvency estate (boedelschuld) and credits with a privilege (*voorrecht*). Ordinary credits rank above subordinated credits and the rights of shareholders.

In the event of insolvency (*concurso*) of the Issuer declared by a Spanish court (either principal or territorial insolvency proceedings) claims relating to Notes (which are not held by persons related to the Issuer under article 93 of the Spanish Insolvency Law) will be ordinary credits (*créditos ordinarios*) as defined in the Spanish Insolvency Law. Ordinary credits rank below credits against the insolvency estate (*créditos contra la masa*) and credits with a privilege (*créditos privilegiados*). Ordinary credits rank above subordinated credits and the rights of shareholders. In particular, in accordance with the insolvency procedures regulated in the Insolvency law, creditors whose rights arise from a Spanish public document, including Noteholders, do not have a preference to enforce their rights and do not rank ahead of other creditors whose rights may be recognised by virtue of a document not so witnessed.

(b) Status of the Guarantee

The payment of principal and interest in respect of the Notes and any related Coupons and Receipts and all amounts due under the Deed of Covenant in respect of the Notes and any related Coupons and Receipts has been unconditionally and irrevocably (*solidariamente*) guaranteed by the Guarantor pursuant to the Guarantee.

The obligations of the Guarantor under the Guarantee constitute direct, unconditional and unsecured obligations of the Guarantor and rank *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor.

In the event of insolvency (*concurso*) of the Guarantor, under the Spanish Insolvency Law, claims from Noteholders under the Guarantee will fall within the category of ordinary credits (*créditos ordinarios*) as defined in the Spanish Insolvency Law (except in case statutory exceptions apply). Ordinary credits will rank below credits against the insolvency estate (*créditos contra la masa*) and privileged credits (*créditos privilegiados*) which shall be paid in full before ordinary credits. The claims of all creditors considered as "ordinary credits" against the Guarantor will be satisfied pro rata in insolvency. Ordinary credits will rank above subordinated credits.

As set forth in the Guarantee, the Guarantor shall at all times have the right, in its sole and unfettered discretion, to elect not to perform or procure the delivery to a Noteholder when due, any asset other than a cash amount in respect of any Note or Coupon or Receipt or under the Deed of Covenant, as the case may be (**Delivery Obligations**), when the same shall become due and deliverable under the Guarantee, but in lieu thereof to make payment to the Noteholder(s) of an amount determined by the Guarantor in good faith and in a commercially reasonable manner to be equal to the fair market value of the assets to which the Delivery Obligation in respect of the relevant Note(s) relates less such Note(s) *pro rata* share of the costs of unwinding any underlying related hedging and/or funding arrangements of the Issuer and/or the Guarantor (the "**Guaranteed Cash Settlement Amount**"). Any payment of the Guaranteed Cash Settlement Amount in lieu of performance of the relevant

TERMS AND CONDITIONS OF THE NOTES

Delivery Obligations shall constitute a complete discharge of the Guarantors obligations under the Guarantee in respect of the relevant Notes, save as to any other cash amount due in respect of such Notes.

4. Interest

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will accrue in respect of each period from (and including) an Interest Period End Date (or if none the Interest Commencement Date) to (but excluding) the next (or first) Interest Period End Date (each an "**Interest Period**" and each such latter date the "**Interest Period End Final Date**"). Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after the Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such latter date. If a Business Day Convention (as defined in General Condition 4(g) below is specified in the Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (i) if there is no numerically corresponding day on the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (ii) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day (as defined in General Condition 4(g), then, the relevant Business Day Convention shall apply. For the purposes of this General Condition 4(g), "**Interest Period End Date**" shall mean each date so specified in the Final Terms. If no such date(s) is so specified, then the Interest Period End Date for an Interest Period shall be the corresponding Interest Payment Date (unadjusted for any Business Day Convention).

If no Business Day Convention is specified as applicable to an Interest Period End Final Date in the Final Terms, except as provided in the Final Terms:

- (i) the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Final Date in respect of such Interest Period, will amount to the Fixed Coupon Amount; and
- (ii) the amount of interest payable on any other Interest Payment Date will, if so specified in the Final Terms, amount to the Broken Amount so specified.

Subject to the Payout Conditions, Interest shall be calculated by applying the Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note or which are Book Entry Notes, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note or Book Entry Notes (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of each Fixed Rate Note in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction (as defined in General Condition 4(g) below specified in the Final Terms, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Notes Currency, half of any such sub-unit (as defined below) being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of Interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

"**sub-unit**" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) Interest on Floating Rate Notes and Reference Item Linked Interest Notes

(i) Interest Period End Dates and Interest Payment Dates

Each Floating Rate Note and, subject to the provisions of General Condition 4(g) and unless otherwise specified in the Final Terms, each Reference Item Linked Interest Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, in accordance with General Condition 4(e) in respect of each Interest Period (as defined in General Condition 4(a)). For the purposes of this General Condition 4(b), "**Interest Period End Date**" shall mean either:

TERMS AND CONDITIONS OF THE NOTES

- (A) the specified Interest Period End Date(s) in each year specified in the Final Terms; or
- (B) if no Interest Period End Date(s) is/are specified in the Final Terms, (x) in the case of Floating Rate Notes, each date which falls on the number of months or other period specified as the Specified Period in the Final Terms after the preceding Interest Period End Date or, in the case of the first Interest Period End Date, after the Interest Commencement Date and (y) in the case of Reference Item Linked Interest Notes, the corresponding Interest Payment Date (unadjusted for any Business Day Convention).

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (i) if there is no numerically corresponding day on the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (ii) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day (as defined in General Condition 4(g)), then the relevant Business Day Convention (as defined in General Condition 4(g)) shall apply. Provided that, in any case, where Specified Periods are specified in accordance with General Condition 4(b)(i)(B), the Floating Rate Convention shall apply.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Reference Item Linked Interest Notes will be determined in the manner specified in the Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the Margin (if any). For the purposes of this subparagraph (iii), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (A) the Floating Rate Option is as specified in the Final Terms;
- (B) the Designated Maturity is a period specified in the Final Terms; and
- (C) the relevant Reset Date is either (x) if the applicable Floating Rate Option is based on the London interbank offered rate ("**LIBOR**") or on the Euro-zone inter-bank offered rate ("**EURIBOR**") for a currency, the first day of that Interest Period or (y) in any other case, as specified in the Final Terms.

For the purposes of this sub-paragraph (iii), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate**" "**Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate per annum) for the Reference

TERMS AND CONDITIONS OF THE NOTES

Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the Specified Time indicated in the Final Terms (which will be 11.00 a.m., London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date (as defined below) in question plus or minus (as indicated in the Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded, as provided above) of such offered quotations.

- (C) in the case of a CMS Rate, the rate for swap transactions in the currency to which the CMS Rate relates with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Interest Determination Date as determined by the Principal Paying Agent or, in the event that the Principal Paying Agent determines it is not reasonably practicable to determine the Rate of Interest in such manner, the Rate of Interest will be determined by the Principal Paying Agent as such rate that it determines would have prevailed but for such impracticality by reference to such source(s) as it may select.

In the case of (A) and (B), the Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the Specified Time indicated above or in the Final Terms. The Final Terms may, if agreed by the relevant Dealer, set out such provisions in full.

- (v) Determination of Rate of Interest and Calculation of Interest Amount

The Calculation Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the "**Interest Determination Date**"), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the Final Terms) for the relevant Interest Period and will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period, as soon as practicable after calculating the same.

Subject to the Payout Conditions, the Calculation Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes and Reference Item Linked Interest Notes which are represented by a Global Note or which are Book Entry Notes, the aggregate outstanding nominal amount of the Notes represented by such Global Note or Book Entry Notes (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of each Floating Rate Note, Reference Item Linked Interest Note and Combination Interest Note in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the Day Count Fraction (as defined in General Condition 4(g) below) specified in the Final Terms and rounding the resultant figure to the nearest sub-unit (defined above) of the relevant Specified Notes Currency, one half of such a sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Floating Rate Note and Reference Item Linked Interest Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

- (vi) Minimum and/or Maximum Interest Rate

If the Final Terms specifies a Minimum Interest Rate for any Interest Period, then in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of subparagraph (ii), (iii), (iv) or (v) or (d) below (as appropriate) is less than such Minimum Interest Rate, the Rate of

TERMS AND CONDITIONS OF THE NOTES

Interest for such Interest Period shall be such Minimum Interest Rate. If the Final Terms do not specify a Minimum Interest Rate for any Interest Period, then the Rate of Interest for such Interest Period shall not be less than zero.

If the Final Terms specifies a Maximum Interest Rate for any Interest Period, then in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of subparagraph (ii), (iii), (iv) or (v) above or (d) below (as appropriate) is greater than such Maximum Interest Rate, the Rate of Interest for such Interest Period shall be such Maximum Interest Rate.

(vii) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(viii) Notification of Rate of Interest and Interest Amount

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) (such notifications to occur no later than the Business Day following the notification of the Calculation Agent), AIAF (in the case of Notes which are listed on the Official List of AIAF and the rules of such stock exchange so require) and, if applicable, to any other stock exchange on which the relevant Notes are for the time being listed. In addition, the Principal Paying Agent shall publish or cause to be published such Rate of Interest, Interest Amount and Interest Payment Date in accordance with General Condition 13 as soon as possible after their determination but in no event later than the fourth Business Day thereafter. Each Rate of Interest, Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Notes are for the time being listed and to the Noteholders in accordance with General Condition 13.

(ix) Certificates to be Final

All certificates, communications, determinations, calculations and decisions made for the purposes of the provisions of this paragraph (b), by the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor (if applicable), the Principal Paying Agent, the other Paying Agents and all Noteholders, and (in the absence as aforesaid) no liability to the Noteholders shall attach to the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) Zero Coupon Notes

Where a Zero Coupon Note becomes due and repayable prior to the Maturity Date and is not paid when due, the amount due and repayable shall be the amount determined in accordance with General Condition 6(e) as its Amortised Face Amount. As from the Maturity Date, any overdue principal of such Note shall bear interest at a rate per annum equal to the Accrual Yield specified in the Final Terms. Such interest shall continue to accrue (as well after as before any judgment) until the day on which all sums due in respect of such Note up to that day are received by or on behalf of the holder of such Note. Such interest will be calculated on the basis of a 360 day year consisting of 12 months of 30 days each and in the case of an incomplete month the actual number of days elapsed in such incomplete month or on such other basis as may be specified in the Final Terms.

(d) Interest on Reference Item Linked Interest Notes

TERMS AND CONDITIONS OF THE NOTES

In the case of Reference Item Linked Interest Notes, where the Rate of Interest and/or the Interest Amount (whether on any Interest Payment Date, early redemption, maturity or otherwise) is to be determined by reference to one or more Reference Items, the Rate of Interest and/or the Interest Amount shall be determined where applicable as provided in the Payout Annex.

(e) Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes) interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

(f) Interest Payments and Accrual of Interest

Interest will be paid subject to and in accordance with the provisions of General Condition 5. Interest will cease to accrue on each Note (or, in the case of the redemption of part only of a Note, that part only of such Note) on the due date for redemption thereof unless, upon due presentation thereof, payment of principal or the payment, and/or delivery of the Entitlement as set out in the Final Terms (if applicable), is improperly withheld or refused, in which event interest will continue to accrue (as well after as before any judgment) at the Fixed Rate or, as the case may be, the Rate of Interest at such day count fraction as the Calculation Agent determines appropriate or as otherwise provided in the Final Terms until whichever is the earlier of (i) the day on which all sums due and/or assets comprised in the Entitlement in respect of such Note up to that day are received by or on behalf of the holder of such Note and (ii) the day on which the Principal Paying Agent or any agent appointed by the Issuer to deliver such assets to Noteholders has notified the holder thereof (either in accordance with General Condition 13 or individually) of receipt of all sums due and/or assets comprised in the Entitlement in respect thereof up to that date (subject, in the case of Credit Linked Notes, to the provisions of Credit Linked Condition 12).

(g) Calculation Agent

(i) If a Calculation Agent is specified in the Final Terms, any determination specified in General Conditions 4(b) to (f) (inclusive) as being determinations to be made by the Principal Paying Agent will instead be made by the Calculation Agent as if references to the Principal Paying Agent in such General Conditions (and related provisions of the Agency Agreement) were to the Calculation Agent. The Calculation Agent will notify any amount of interest to the Principal Paying Agent as soon as reasonably practicable following its determination.

(ii) A Calculation Agent must be appointed for the determination of the Rate of Interest where such determination is other than a single determination of the Rate of Interest for each Interest Period that is made in accordance with this General Condition 4 and the related provisions of the Agency Agreement and without the imposition of any additional duties on the Principal Paying Agent

(h) Definitions

In these General Conditions, unless the context otherwise requires, the following defined terms shall have the meaning set out below:

"Business Day" means a day which is both:

If a Noteholder fails to give an Asset Transfer Notice or, in the case of Book-Entry Notes, Iberclear Settlement Instruction, as provided herein with a copy to each relevant party, prior to the close of business in each place of receipt on the Cut-Off Date, then the Entitlement will be delivered or, as the case may be, Delivered at the risk of such Noteholder in the manner provided below as soon as practicable after the date fixed for redemption (in which case, such date of delivery shall be the Delivery Date or, in the case of Credit Linked Notes, the Credit Settlement Date) Provided That if, in respect of a Note, a duly completed Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is not delivered in accordance with the requirements of this General Condition 5(b), with a copy to each party specified for such purpose herein, prior to the close of business in each place of receipt on the 90th calendar day following the Cut-off Date then:

- (a) if "**Assessed Value Payment Amount**" is specified as applicable in the applicable Final Terms, the Issuer shall as soon as reasonably practicable following such date determine the Assessed Value Payment Amount and in respect of such Note shall pay the Assessed Value Payment Amount to the relevant Noteholder in lieu of delivery of the Entitlement as soon as reasonably practicable following determination of the Assessed Value Payment Amount; or
- (b) if "**Assessed Value Payment Amount**" is not specified as applicable in the applicable Final Terms, the Issuer's obligations in respect of such Note shall be discharged and no further liability in respect thereof shall attach to the Issuer.

For the avoidance of doubt, in the circumstances described in (a) above, such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date or Credit Settlement Date, as applicable, falling after the scheduled Delivery Date or the originally designated Credit Settlement Date and no liability in respect thereof shall attach to the Issuer or the Guarantor (if applicable). Upon payment of the Assessed Value Payment Amount the Issuer's obligations in respect of such Note shall be discharged and the Guarantor's obligations in respect of such Note pursuant to the Guarantee shall be discharged.

The Issuer (or any Delivery Agent on its behalf) shall at the risk of the relevant Noteholder, deliver or procure the delivery of the Entitlement for each Note or (in the case of Credit Linked Notes) Deliver the Deliverable Obligations comprising the Entitlement, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated in the relevant Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) or in such manner as is specified in the applicable Final Terms. All costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes ("**Expenses**") arising from the delivery of the Entitlement or the Delivery of the Deliverable Obligations comprising the Entitlement, as the case may be, in respect of such Notes shall be for the account of the relevant Noteholder and no delivery of the Entitlement or the Delivery of the Deliverable Obligations comprising the Entitlement, as the case may be, shall be made until all Expenses have been paid to the satisfaction of the Issuer by the relevant Noteholder.

For the purposes hereof:

"**Assessed Value Payment Amount**" means, in respect of a Note, an amount determined by the Calculation Agent to be the fair market value of the assets comprised in the Entitlement in respect of such Note less the cost to the Issuer and/or its affiliates of unwinding any underlying relating hedging arrangements, all as determined by the Issuer.

- (D) General

TERMS AND CONDITIONS OF THE NOTES

Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes, provided that, the aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

Following the Delivery Date or Credit Settlement Date in respect of a share forming part of the Entitlement, all dividends on the relevant shares to be delivered will be payable to the relevant party according to market practice assuming a sale of the shares has been executed on the Delivery Date or Credit Settlement Date. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in General Condition 5(b)(i)(A).

For such period of time after delivery or Delivery of the Entitlement until the Delivery Date or the Credit Settlement Date (the "**Intervening Period**"), none of the Issuer, the Guarantor (if applicable), the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations or Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities, obligations or Deliverable Obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities, obligations or Deliverable Obligations.

(E) Settlement Disruption

The provisions of this General Condition 5(vii) apply to Notes other than Credit Linked Notes.

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the Final Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with General Condition 13. Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

"Disruption Cash Redemption Amount" means, in respect of any relevant Note, the fair market value of such Note (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets) less the cost to the

TERMS AND CONDITIONS OF THE NOTES

Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion;

"**Settlement Business Day**" has the meaning specified in the Final Terms; and

"**Settlement Disruption Event**" means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer or the Guarantor, as the case may be, as a result of which the Issuer or the Guarantor, as the case may be, cannot make delivery of the Relevant Asset(s) using the method specified in the Conditions and/or the Final Terms.

(F) Failure to Deliver due to Illiquidity

The provisions of this General Condition 5 (b)(i)(F) apply to the Notes other than Credit Linked Notes.

If "**Failure to Deliver due to Illiquidity**" is specified as applying in the Final Terms and, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the "**Affected Relevant Assets**") comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a "**Failure to Deliver due to Illiquidity**"), then:

- (1) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of redemption in accordance with this General Condition 5(b); and
- (2) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Failure to Deliver Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with General Condition 13. Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 that the provisions of this General Condition 5(b)(i)(F) apply.

For the purposes hereof, "**Failure to Deliver Redemption Amount**" means, in respect of any relevant Note, the fair market value of such Note (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(ii) Variation of Settlement

If the Final Terms indicate that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may at its sole and unfettered discretion in respect of each such Note, elect not to pay the relevant Noteholders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with General Condition 13.

(iii) Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount

Notwithstanding any provision of these General Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of Notes to which this General Condition 5(b) applies, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises assets which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other assets which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute

Notification of any such election will be given to Noteholders in accordance with General Condition 13 and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a "**freely tradable**" security shall mean (i) with respect to the United States, a security which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradable security for purposes of the Securities Act, in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a security not subject to any legal restrictions on transfer in such jurisdiction.

(iv) **Rights of Noteholders and Calculations**

None of the Issuer, the Guarantor (if applicable), the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes.

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(v) **For the purposes of the General Conditions:**

"**Affiliate**" means, in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes "**control**" means ownership of a majority of the voting power of an entity; and

"**Assessed Value Payment Amount**" means, in respect of a Note, an amount determined by the Calculation Agent to be the fair market value of the assets comprised in the Entitlement in respect of such Note less the cost to the Issuer and/or its Affiliates of unwinding any underlying relating hedging arrangements, all as determined by the Issuer.

6. **Redemption and purchase**

(a) **Final Redemption**

Unless previously redeemed or purchased and cancelled as provided below, each Note (other than a Credit Linked Note) will be redeemed by the Issuer at its relevant Final Redemption Amount in the Specified Notes Currency on the Maturity Date specified in the Final Terms or, if Physical Settlement is specified as applicable in the Final Terms (each such Note a "**Physical Delivery Note**") by delivery of the Entitlement (as provided in General Condition 5(b) above). Notes may not be redeemed other than in accordance with these General Conditions and any applicable Annex.

The "**Final Redemption Amount**" shall be an amount in respect of each Calculation Amount, equal to the Calculation Amount multiplied by: (i) the percentage or (ii) the Final Payout specified in the Final Terms. For the avoidance of doubt, if the Final Payout is zero, no amount shall be payable in the final redemption of the Note.

The "**Entitlement**", in respect of each Calculation Amount, shall be a quantity of the Relevant Asset(s) (and any cash amount to be delivered as a result of rounding down) specified in the Final Terms equal to the Entitlement Amount specified in the Final Terms (or, in the case of Credit Linked Notes, the Deliverable Obligations to be delivered pursuant to Annex 6 – "Additional Terms and Conditions for Credit-Linked Notes").

"**Relevant Asset(s)**" means the relevant asset(s) so specified in the Final Terms.

(b) **Redemption for Tax reasons**

The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the Note is not a Floating Rate Note) or on any Interest Payment Date (if the Note is a Floating Rate Note), on giving not less than 30 or more than 60 days' notice to the Principal Paying Agent and, in accordance with General Condition 13, the Noteholders (which notice shall be irrevocable), if:

TERMS AND CONDITIONS OF THE NOTES

- (i) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged under Spanish law to pay additional amounts as provided or referred to in General Condition 7 or the Guarantor would be unable for reasons outside its control to procure payment by the Issuer and in making payment itself would be required to pay such additional amounts (as defined in General Condition 7); or there is any change after the issue date of the Notes in the application or official interpretation of the Spanish laws or regulations as a result of which withholding tax is applicable to the Notes, which change or amendment becomes effective on or after the issue date of the Notes; and
- (ii) such obligation cannot be avoided by the Issuer or, as the case may be, the Guarantor taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or, as the case may be, the Guarantor would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this General Condition, the Issuer or, as the case may be, the Guarantor shall deliver to the Principal Paying Agent a certificate signed by two Directors of the Issuer (or if at the time that such certification is to be given the Issuer has only one Director, such certificate may be signed by such Director) or, as the case may be, the Guarantor stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, an opinion of independent legal advisers of recognised standing to the effect that the Issuer or, as the case may be, the Guarantor has or will become obliged to pay such additional amounts.

Each Note redeemed pursuant to this General Condition 6(b) will be redeemed at its Early Redemption Amount referred to in paragraph (e) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) Redemption for Illegality

In the event that the Issuer determines in good faith that the performance of its obligations under the Notes or that any arrangements made to hedge its obligations under the Notes has or will become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or in the interpretation thereof, the Issuer having given not less than 10 nor more than 30 days' notice to the Noteholders in accordance with General Condition 13 (which notice shall be irrevocable), may, on expiry of such notice redeem all, but not some only, of the Notes, each Note being redeemed at its Early Redemption Amount referred to in paragraph (e) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(d) Redemption at the Option of the Issuer (Issuer Call)

If "**Issuer Call Option**" is specified as being applicable in the Final Terms, the Issuer may, having given:

- (i) not less than 5 days' (or such other notice period specified in the Final Terms) notice to the Noteholders in accordance with General Condition 13; and
- (ii) not less than 4 days before the giving of the notice referred to in (i), notice to the Principal Paying Agent,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and each at the Optional Redemption Amount(s) specified in, or determined on the Optional Redemption Valuation Date in the manner specified in, the Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any partial redemption must be of a nominal amount equal to the Minimum Redemption Amount or, if applicable, a Higher Redemption Amount as specified in the Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion), in the case of Redeemed Notes represented by a Global Note, or in the case of Redeemed Notes that are represented by Book-Entry Notes, the rules of Iberclear or the Book-Entry Depository (as the case may be), not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with General Condition 13 not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of

TERMS AND CONDITIONS OF THE NOTES

definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that the aggregate nominal amount of Redeemed Notes represented by definitive Notes shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a Global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph (d) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with General Condition 13 at least five days prior to the Selection Date.

In the case of Redeemed Notes represented by Book-Entry Notes, a list of the ISIN codes of such Redeemed Notes will be published in accordance with General Condition 13 not less than 15 day's prior to the date fixed for redemption (or such lesser period as may be specified in the applicable Final Terms).

(e) Redemption at the Option of the Noteholders (Noteholder Put)

If "**Noteholder Put Option**" is specified as being applicable in the Final Terms, upon the holder of any Note giving to the Issuer in accordance with General Condition 13 not less than 15 or more than 30 days' notice (or such other minimum and/or maximum notice period specified in the Final Terms) (which notice shall be irrevocable) the Issuer will, upon the expiry of such notice, redeem in whole but not in part, subject to and in accordance with the terms specified in the Final Terms, such Note on the Optional Redemption Date and at the Optional Redemption Amount specified in, or determined on the Optional Redemption Valuation Date specified in the Final Terms, together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of the Notes its holder must, if the Notes are in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a "**Put Notice**") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this General Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed. If a Note is in definitive bearer form, the Put Notice must be accompanied by the Note or evidence satisfactory to the Paying Agent concerned that the Note will, following delivery of the Put Notice, be held to its order or under its control. If a Note is represented by a global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of the Note the holder of the Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time, and, if a Note is a Bearer Note represented by a global Note, at the same time present or procure the presentation of the relevant global Note to the Principal Paying Agent for notation accordingly. If the Note is represented by a Book-Entry Note held through Iberclear, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Iberclear (which may include notice being given on his instruction by Iberclear, or any Iberclear member to the Principal Paying Agent by electronic means) in a form acceptable to Iberclear from time to time. In the case of a Book-Entry Note held through a Book-Entry Depositary, to exercise the right to require redemption of the Note, the holder of the Note must within the notice period, give notice to the Principal Paying Agent and the Spanish Paying Agent in accordance with the procedures agreed with such Book-Entry Depositary.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear, and/or Clearstream Luxembourg and/or Iberclear given by a holder of any Note pursuant to this General Condition 13 shall be irrevocable except where prior to the due date of redemption an Event of Default has occurred and is continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this General Condition 6(e) and instead to declare such Note forthwith due and payable pursuant to General Condition 9.

(f) Early Redemption

For the purposes of paragraph (c), General Condition 9 and any circumstances where the Notes are to be redeemed prior to their Maturity Date at their Early Redemption Amount (as defined below), each Note will be redeemed at an amount (the "**Early Redemption Amount**") calculated as follows, and no further interest will be payable since the immediately preceding Interest Payment Date or, if none, the Issue Date:

TERMS AND CONDITIONS OF THE NOTES

- (i) in the case of any Note, other than a Zero Coupon Note to which paragraph (ii) below applies, at an amount determined by the Calculation Agent on the second Business Day immediately preceding the due date for the early redemption of the Notes, representing such Note's pro rata share of (a) the fair market value of such Notes taking into account all factors which the Calculation Agent determines relevant (including, if applicable, any interest provision of the Note) (but ignoring the event which resulted in such redemption) less (b) all costs incurred by the Issuer, the Guarantor or any of its Affiliates in connection with such early redemption, including, without limitation, any costs associated with unwinding any underlying related hedging arrangements, and all other expenses related thereto, as determined by the Calculation Agent in good faith and in a commercially reasonable manner; or
- (ii) in the case of a Zero Coupon Note the Early Redemption Amount of which is not linked to an index, a formula or other Reference Item at an amount (the "**Amortised Face Amount**") equal to the sum of:
 - (A) the Reference Price specified in the Final Terms; and
 - (B) the product of the Accrual Yield specified in the Final Terms (compounded annually) being applied to the Reference Price in respect of each Interest Period from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable.

Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of a 360-day year consisting of 12 months of 30 days each and, in the case of an incomplete month, the number of days elapsed in such incomplete month.

(g) Purchases

The Issuer, the Guarantor or any of their respective subsidiaries may at any time purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Notes purchased as aforesaid may, at the option of the Issuer, the Guarantor or their respective subsidiaries, as the case may be, be held, reissued, resold or surrendered to any Paying Agent and/or the Registrar for cancellation.

(h) Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to paragraph (f) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

(i) Instalments

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates specified in the Final Terms. In the case of Notes in definitive form, all instalments (other than the final instalment) will be paid by surrender of, in the case of a Definitive Bearer Note, the relevant Receipt (which must be presented with the Note to which it appertains) and, in the case of a definitive Registered Note, the relevant Note and issue of a new Note in the nominal amount remaining outstanding, all as more fully described in General Condition 5. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(j) Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (b), (d) or (e) above is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iv) of this General Condition 6 above as though the references therein to the date fixed for redemption or the date upon which the Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and
- (ii) the date on which the full amount of the moneys payable has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with General Condition 13.

(k) Partly Paid Notes

TERMS AND CONDITIONS OF THE NOTES

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise in accordance with the provisions of this General Condition 6.

7. Taxation

All payments of principal and interest in respect of the Notes, Receipts and Coupons by the Issuer or the Guarantor will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of the Kingdom of Spain ("**Spain**") or any political subdivision or authority thereof or therein having the power to tax unless such withholding or deduction is required by law. In such event, the Issuer or, as the case may be, the Guarantor will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (i) presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with Spain other than the mere holding of such Note, Receipt or Coupon; or
- (ii) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in General Condition 5(a)); or
- (iii) presented for payment by or on behalf of a holder of the Notes in respect of which the Issuer has not been provided by the Paying Agent with the correspondent Annex as it is required in order to comply with Additional Provision One of Spanish Law 10/2014, Spanish Royal Decree 1065/2007 of 27 July as amended by RD 1145/2011 (and any other regulations or interpretations that may be enacted by the Government or the Tax Authorities), the 10th calendar day of the month following the relevant date upon which the payment was due (or if such date is not a day on which commercial banks are open for general business in Spain, the immediately preceding such date); or
- (iv) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (v) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.
- (vi) presented for payment by or on behalf of a Spanish legal entity subject to Spanish Corporate Income Tax or by an individual or legal entity non resident in Spain, subject to Spanish Non Resident Income Tax, operating in Spain through a permanent establishment to which the Notes are assigned, if the Spanish Tax Authorities determine that the Notes do not comply with the exemption requirements specified in Sections 59 q) and s) of the Royal Decree 1777/2004 of 30 July 2004 approving the Corporate Income Tax Regulations in the way that such requirements have been interpreted by the reply to the consultation of the Directorate General for Taxation on 20 July 2004 or if they change the interpretation held in the before mentioned reply and require a withholding to be made.

In these General Conditions, the "**Relevant Date**" means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with General Condition 13.

8. Redenomination

- (a) Redenomination

Where redenomination is specified in the Final Terms as being applicable, the Issuer may, without the consent of the Noteholders, the Receiptholders and the Couponholders, on giving prior notice to the Principal Paying Agent, Euroclear and Clearstream, Luxembourg and at least 30 days' prior notice to the Noteholders in accordance with General Condition 13, elect that, with effect from the Redenomination Date specified in the notice, the Notes shall be redenominated in euro.

The election will have effect as follows:

- (i) the Notes and the Receipts shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a nominal amount for each Note and Receipt equal to the nominal amount of that Note or Receipt in the Specified Notes Currency, converted into euro at the Established Rate, provided that, if the Issuer

TERMS AND CONDITIONS OF THE NOTES

determines, with the agreement of the Principal Paying Agent, that the then market practice in respect of the redenomination into euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments;

- (ii) save to the extent that an Exchange Notice has been given in accordance with paragraph (iv) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate nominal amount of Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant Noteholder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (iii) if definitive Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer in the denominations agreed at the time by the Issuer and the Principal Paying Agent;
- (iv) if issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Notes Currency (whether or not attached to the Notes) will become void with effect from the date on which the Issuer gives notice (the "Exchange Notice") that replacement euro-denominated Notes, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes and Receipts so issued will also become void on that date although those Notes and Receipts will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Notes, Receipts and Coupons will be issued in exchange for Notes, Receipts and Coupons denominated in the Specified Notes Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Notes;
- (v) after the Redenomination Date, all payments in respect of the Notes, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Notes to the Specified Notes Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (vi) if the Notes are Fixed Rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on a Fixed Interest Date, it will be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined above) of the relevant Specified Notes Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention;
- (vii) if the Notes are Floating Rate Notes, the Final Terms will specify any relevant changes to the provisions relating to interest; and
- (viii) such other changes shall be made to these General Conditions as the Issuer may decide, after consultation with the Principal Paying Agent, and as may be specified in the notice, to conform them to conventions then applicable to instruments denominated in euro.

10. Prescription

Claims for payment of principal in respect of the Notes shall be prescribed upon the expiry of 10 years from the due date thereof and claims for payment of interest (if any) in respect of the Notes shall be prescribed upon the expiry of five years, from the due date thereof. There shall not be included in any Coupon sheet issued on exchange of a Talon, any Coupon the claim for payment in respect of which would be void pursuant to this General Condition 10 or General Condition 5 above.

11. Replacement of notes, receipts, coupons and talons

If any Note (including any Global Note), Receipt, Coupon or Talon is mutilated, defaced, stolen, destroyed or lost, it may be replaced at the specified office of the Principal Paying Agent or the Registrar, as the case may be, upon payment by the claimant of the costs incurred in connection therewith and on such terms as to evidence and indemnity, as the Issuer and the Principal Paying Agent or the Registrar may require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued. Cancellation and replacement of Notes, Receipts, Coupons or Talons shall be subject to compliance with such procedures as may be required under any applicable law and subject to any applicable stock exchange requirements.

12. Further issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders, the Receiptholders or the Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

13. Notices

All notices regarding the Bearer Notes will be deemed to be validly given if published in one leading language daily newspaper of general circulation in the place of listing or in the manner specified in the Final Terms. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or any other relevant authority on which the Bearer Notes are for the time being listed or by which they have been admitted to trading. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

All notices regarding Book-Entry Notes may be given by delivery to the Noteholders by registered mail to the addresses appearing in the relevant registries maintained by Iberclear or, as the case may be, the relevant Iberclear Member or by any other means which comply with Spanish law and the rules applicable to the giving of notices to investors and, if the Book-Entry Notes are listed on AIAF, the rules of AIAF. All notices regarding the Registered Notes will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named of joint

TERMS AND CONDITIONS OF THE NOTES

Until such time as any definitive Notes are issued, notice may be given (so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg and/or Iberclear (instead of by way of publication in a newspaper or mailing)) by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or Iberclear for communication by them to the holders of the Notes, except that for so long as any Notes are listed on a stock exchange or admitted to listing by another relevant authority, such notice will be also published in a manner which complies with the rules of that stock exchange or relevant authority by the Issuer. Any such notice shall be deemed to have been given to the holders of the Notes on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg and/or Iberclear.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes). Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Principal Paying Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg and/or Iberclear, as the case may be, in such manner as the Principal Paying Agent, the Registrar and Euroclear and/or Clearstream, Luxembourg and/or Iberclear, may approve for this purpose.

14. Meetings of noteholders, modification and waiver

The Agency Agreement contains provisions for convening meetings of Noteholders to consider matters affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of the Notes, the Receipts, the Coupons or any provisions of the Agency Agreement. Such a meeting may and, if required in writing by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time being outstanding, shall be convened by the Issuer. At a meeting of the holders of the Notes for the purpose of, amongst others, approving a modification or amendment to, or obtaining a waiver of any covenant or condition set forth in the Notes, the Receipts, the Coupons or the Agency Agreement, persons entitled to vote a majority in aggregate nominal amount of the Notes at the time outstanding shall constitute a quorum. In the absence of a quorum at any such meeting that is not a meeting convened upon the requisition of Noteholders, within 30 minutes of the time appointed for such meeting, the meeting may be adjourned for a period of not less than 14 days, in the absence of a quorum any meeting that is convened on the requisition of Noteholders shall be dissolved; the persons entitled to vote a majority in aggregate nominal amount of the Notes at the time outstanding shall constitute a quorum for the taking of any action set forth in the notice of the original meeting. At a meeting or an adjourned meeting duly convened and at which a quorum is present as aforesaid, any Extraordinary Resolution to, amongst others, modify or amend any of the Notes, the Receipts, the Coupons or any provisions of the Agency Agreement ([other than those items specified in General Condition 1(a)(i) and (ii)]), or to waive compliance with, any of the terms and conditions of the Notes shall be effectively passed if passed by a majority consisting of at least 75 per cent. of the votes cast.

The Principal Paying Agent, the Issuer and the Guarantor may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to:

- (i) any modification of the Notes, the Receipts, the Coupons or the Agency Agreement which is not materially prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Notes, the Receipts, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or to cure, correct or supplement any defective provision or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor are incorporated.

Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Noteholders, in accordance with General Condition 11 as soon as practicable thereafter.

- (ii) so long as the Notes are listed on any stock exchange or admitted to listing by any relevant authority, there will at all times be a Paying Agent (in the case of Bearer Notes and Book Entry Notes) and a Transfer Agent (in the case of

TERMS AND CONDITIONS OF THE NOTES

Registered Notes) with a specified office in such place as may be required by the rules and regulations of such other stock exchange or other relevant authority;

- (iii) there will at all times be a Paying Agent in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; and

Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with General Condition 13, provided that no such variation, termination, appointment or changes shall take effect (except in the case of insolvency) within 7 days before any due date for the payment of any Note or any related Receipt or Coupon. Notice of all changes in the identities or specified offices of any Agent will be given promptly by the Issuer to Noteholders in accordance with General Condition 13.

In acting under the Agency Agreement, the Agents will act solely as agents of each of the Issuer and Guarantor (if applicable) and do not assume any obligations or relationship of agency or trust to or with the Noteholders, Receiptholders or Couponholders, except that (without affecting the obligations of the Issuer and the Guarantor (if applicable) to the Noteholders, Receiptholders and Couponholders, to repay Notes and pay interest thereon) funds received by the Principal Paying Agent for the payment of the principal of or interest on the Notes shall be held by it in trust for the Noteholders and/or Receiptholders or Couponholders until the expiration of the relevant period of prescription under General Condition 10. The Issuer will agree to perform and observe the obligations imposed upon it under the Agency Agreement. The Agency Agreement contains provisions for the indemnification of the Paying Agents and for relief from responsibility in certain circumstances, and entitles any of them to enter into business transactions with the Issuer and any of its subsidiaries without being liable to account to the Noteholders, Receiptholders or the Couponholders for any resulting profit.

In the event of any inconsistency between (i) the General Conditions and/or any other Annex and (ii) the Payout Conditions, the Payout Conditions shall prevail.

1. Structured Notes

(a) Use of Payout Conditions

These Payout Conditions set out the methodology for determining various payouts and product features in respect of the Notes. The applicable text shown in Payout Conditions 2, 3, 4 and 5 below will be extracted, included and completed at the paragraph indicated in the Final Terms on the basis that (i) applicable text (including, where appropriate, section headings and terms defined in Payout Condition 5 which are required to be completed) from the relevant Payout Condition will be set out at the paragraph indicated in the Final Terms and (ii) inapplicable text (and any terms defined in Payout Condition 5 which are not required to be completed) need not be included.

(b) Use of Terms

Terms in these Payout Conditions or in the Final Terms may be attributed a numerical or letter suffix value when included in the Final Terms. Without limitation, the suffix can be denoted as "j", "k", "m", "q", "n", "t", "i", "A", "B", "C" or "1", "2", "3" etc. And the term may be completed on the basis of the number or numbers represented by j, k, m, q, n, t, i, "A", "B", "C" or 1, 2, 3 etc, as chosen at the time of an issue of Notes. Moreover suffixes may be placed in series as necessary, such as "A(1)", "B(1)", "C(1)" etc. When applicable and in order to improve the reading and intelligibility of the formula(e) in the Final Terms, the applicable suffixes may be included, completed and the relation between the term and the suffix will be explained and may be presented as a table, if necessary, in the Final Terms. A term in Payout Condition 5 may be included in the applicable Final Terms section more than once if there is more than one number represented by the term n, t or i. Conjunctions (e.g. or, and, but) and punctuation may also be included where appropriate. Suffixes may denote that a relevant term relates to an asset, item or date associated with that suffix.

The constituent parts of any formula(e) or term(s) used in these Payout Conditions and that are to be specified in the Final Terms may be replaced in the Final Terms by the prescribed amount, level, or percentage or other value or term (the "**Variable Data**"). If a Variable Data has a value of either 0 (zero) or 1 (one), or is not applicable in respect of the relevant formula(e), then the related formula(e) may be simplified, for the purpose of improving the reading and intelligibility in the formula(e) in Final Terms, by deleting such Variable Data.

Such Notes are, where the Interest Basis is: Index Linked Interest, an "**Index Linked Interest Note**"; Equity Linked Interest, an "**Equity Linked Interest Note**"; Inflation Linked Interest, an "**Inflation Linked Interest Note**"; Reference Item Rate Linked Interest, a "**Reference Item Rate Linked Interest Note**"; Fund Linked Interest, a "**Fund Linked Interest Note**"; Credit Linked Interest, a "**Credit Linked Interest Note**"; Foreign Exchange (FX) Rate Linked Interest, a "**Foreign Exchange (FX) Rate Linked Interest Note**" or where a combination of any two or more Interest Bases, a "**Combination Interest Note**" (each, a "**Reference Item Linked Interest Note**").

*If specified as applicable in the Final Terms, the terms and conditions applicable to Index Linked Notes shall comprise the General Conditions and the additional terms and conditions for Index Linked Notes set out below (the "**Index Linked Conditions**"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Final Terms and subject to completion in the Final Terms. In the event of any inconsistency between the General Conditions and the Index Linked Conditions, the Index Linked Conditions shall prevail. In the event of any inconsistency between the Index Linked Conditions and the Payout Conditions, the Payout Conditions shall prevail.*

1. Disrupted Day

The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day would have been an , an Automatic Early Redemption Valuation Date, an Averaging Date, an Observation Date, or a Valuation Date, as the case may be, or on any Knock-in Determination Day or Knock-out Determination Day, as the case may be.

2. Adjustments to an index

(a) Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

(b) Modification and Cessation of Calculation of an Index

If (i) on or prior to the last Averaging Date, last Observation Date, last Valuation Date, last Knock-in Determination Day, last Knock-out Determination Day, last Strike Date, or last Automatic Early Redemption Valuation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for, or the method of, calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation, contracts or commodities and other routine events) (an "**Index Modification**"), or permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"), or (ii) on an Averaging Date, an Observation Date, a Valuation Date, a Strike Date, an Automatic Early Redemption Valuation Date, a Valuation Date, a Knock-in Determination Day or Knock-out Determination Day, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then:

- (i) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Settlement Price using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Valuation Date, Observation Date, Averaging Date, Strike Date, Automatic Early Redemption Date, Valuation Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event; or
- (ii) unless Delayed Redemption on Occurrence of Index Adjustment Event is specified as being applicable in the Final Terms, on giving notice to Noteholders in accordance with General Condition 13, the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of a Note, taking into account the Index Adjustment Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Index Adjustment Amount**"), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or

ADDITIONAL TERMS AND CONDITIONS FOR INDEX LINKED NOTE

- (iii) if Delayed Redemption on Occurrence of Index Adjustment Event is specified as being applicable in the Final Terms, the Calculation Agent shall calculate the Calculated Index Adjustment Amount as soon as practicable following the occurrence of the Index Adjustment Event (the "**Calculated Index Adjustment Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to the Calculated Index Adjustment Amount plus interest accrued on the Calculated Index Adjustment Amount on a daily basis from and including the Calculated Index Adjustment Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day.

Notwithstanding (i), (ii) and (iii) above, if there are any options or future contracts of the Index traded on the Related Exchange, the Calculation Agent may instead in its sole and absolute discretion, upon the occurrence of an Index Adjustment Amount, make the corresponding adjustments made on any Related Exchange (an "**Exchange Based Adjustment**").

(c) Notice

Upon the occurrence of an Index Adjustment Event, the Calculation Agent shall, as soon as practicable, other than in the case of an Exchange Based Adjustment notify the relevant Agents of any determination made by it pursuant to paragraph (b) above and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of an Index Adjustment Event, giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Index Adjustment Event or the proposed actions.

3. Correction of index

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment under the Notes calculated by reference to the level of an Index, if the relevant level of the Index published on a given day which is used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor, (i) in respect of a Composite Index, no later than five Exchange Business Days following the date of the original publication or, (ii) in respect of an Index which is not a Composite Index, within the number of days equal to the Index Correction Period of the original publication, the level to be used shall be the level of the Index as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment under the Notes calculated by reference to the level of the Index will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

4. Additional disruption events

- (a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i), (ii) or (if applicable) (iii) below:
 - (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Weighting and/or any of the other terms of the General Conditions, these Index Linked Conditions and/or the Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) unless Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the Final Terms, redeem the Notes by giving notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of a Note, taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Additional Adjustment Amount**"), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or

- (b) Upon the occurrence of an Additional Disruption Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

(c) Consequences of the occurrence of an Extraordinary Event:

If an Extraordinary Event occurs in relation to a Share, the Issuer in its sole and absolute discretion may take the action described in (i), (ii), (iii), (iv) (if applicable), (v) or, in the case of Notes relating to a Basket of Shares only, (vi) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms to account for the relevant Extraordinary Event, and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary Event made by any options exchange to options on the Shares traded on that options exchange. In addition, in relation to a Basket of Shares, the Calculation Agent may adjust the Basket of Shares in accordance with the provisions of sub-paragraph (vii) below;
- (ii) in the case of Equity Linked Notes relating to a Basket of Shares, redeem the Notes in part by giving notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed in part the portion (the "**Redeemed Amount**") of each Note representing the affected Share(s) shall be redeemed and the Issuer will:

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

- (B) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms to account for such redemption in part. For the avoidance of doubt the remaining part of each Note after such cancellation and adjustment shall remain outstanding with full force and effect. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13;
- (iii) unless Delayed Redemption on the Occurrence of an Extraordinary Event is specified as being applicable in the Final Terms, on giving notice to Noteholders in accordance with General Condition 13, redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of a Note taking into account the relevant Extraordinary Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Extraordinary Event Amount**"), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13;
- (iv) if Delayed Redemption on the Occurrence of an Extraordinary Event is specified as being applicable in the Final Terms, require the Calculation Agent to calculate the Calculated Extraordinary Event Amount as soon as practicable following the occurrence of the relevant Extraordinary Event (the "**Calculated Extraordinary Event Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Extraordinary Event Amount plus interest accrued on the Calculated Extraordinary Event Amount on a daily basis from and including the Calculated Extraordinary Event Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its nominal amount;
- (v) following such adjustment to the settlement terms of options on the Shares traded on such exchange(s) or quotation system(s) as the Issuer in its sole discretion shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (vi) on or after the relevant Extraordinary Event Effective Date, require the Calculation Agent to adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each, a "**Substitute Share**") for each Share (each, an "**Affected Share**") of each Basket Company (each, an "**Affected Basket Company**") which is affected by such Extraordinary Event and the Substitute Share will be deemed to be a "Share", and the issuer of such shares a "**Basket Company**", for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to an initial

price (the "**Initial Price**") of the Affected Share, the relevant Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

"B" is the Initial Price of the relevant Affected Share; and

"C" is the fair market value of the relevant Affected Share on the Substitution Date (which may, where available, be determined by reference to the official closing price of the Affected Share on the relevant Exchange and/or such other source(s) as the Calculation Agent determines appropriate).

Such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the relevant Extraordinary Event Effective Date.

The Weighting of each Substitute Share in the Basket of Shares will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must satisfy the following criteria, in the sole and absolute discretion of the Calculation Agent:

- (A) where the relevant Extraordinary Event is a Merger Event or a Tender Offer and the relevant share is not already included in the Basket of Shares, the relevant share shall be an ordinary share of the entity or person (other than the Affected Basket Company) involved in the Merger Event or the making of the Tender Offer, that is, or that as of the relevant Extraordinary Event Effective Date (i) is promptly scheduled to be, publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (ii) is not subject to any currency exchange controls, trading restrictions or other trading limitations; or

 - (2) the issuer of the share shall, to the extent possible, have a comparable market capitalisation, international standing and exposure as the Affected Basket Company in respect of the Affected Share.

Upon the occurrence of an Extraordinary Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable, and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 13 stating the occurrence of the Extraordinary Event, giving details thereof and the action proposed to be taken in relation thereto, including, in the case of a Share Substitution, the identity of the Substitute Shares and the Substitution Date, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Extraordinary Event.

4. Correction of Share Price

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment under the Notes calculated by reference to the price of a Share, if the relevant price of the relevant Share published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Exchange within the number of days equal to the Share Correction Period of the original publication, the price to be used shall be the price of the relevant Share as so corrected.

 - (ii) unless Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the Final Terms, redeem the Notes by giving notice to Noteholders in accordance with General Condition 13. If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of a Note taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Additional Disruption Amount**"), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 13; or
 - (iii) if Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the Final Terms, require the Calculation Agent to calculate the Calculated Additional Disruption Amount as soon as practicable following the occurrence of the Additional Disruption Event (the "**Calculated Additional Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Additional Disruption Amount plus interest accrued on the Calculated Additional Disruption Amount on a daily basis from and including the Calculated Additional Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater its nominal amount; or

$$\text{Initial Price} = A \times (B/C)$$

where:

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

In the event of any inconsistency between the General Conditions and the Credit Linked Conditions, the Credit Linked Conditions shall prevail.

Unless otherwise stated in these Credit Linked Conditions or in the Final Terms, in the event that any day specified in the section "**Credit Linked Redemption**" in the Final Terms or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit Linked Notes for which more than one Reference Entity is specified in the Final Terms, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Credit Linked Notes will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Credit Linked Notes may take the form of Single Reference Entity Credit Linked Notes, First-to-Default Credit Linked Notes, Nth-to-Default Credit Linked Notes or Linear Basket Credit Linked Notes. In the case of Linear Basket Credit Linked Notes, either Credit Payment on Maturity or Credit Payment As You Go will apply. The Final Terms shall specify:

- (a) the type of Credit Linked Notes;
- (b) the Settlement Method and, where Auction Settlement applies, the applicable Fallback Settlement Method;

1. Redemption of Credit Linked Notes

- (a) Unless previously redeemed or purchased and cancelled and provided that a Credit Event Determination Date has not occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Note on the Maturity Date by payment of the Final Redemption Amount. If a Credit Event Determination Date has occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Note as described below. References in these Credit Linked Conditions to a Credit Linked Note or Note are to a nominal amount of Credit Linked Notes equal to the Calculation Amount. Any payment of a "pro rata" amount in respect of a Note will be determined by reference to its nominal amount relative to the then aggregate nominal amount of Notes.
- (b) Where the Notes are Single Reference Entity Credit Linked Notes, if a Credit Event Determination Date has occurred in relation to the Reference Entity, then the Notes will be settled in accordance with Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable or, if the Notes are Zero/Set Recovery Notes, the provisions of paragraph (g) below will apply.

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (c) Where the Notes are First-to-Default Credit Linked Notes, if a Credit Event Determination Date has occurred in relation to any of the specified Reference Entities, then the Notes will be settled in accordance with Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, in relation only to the First Reference Entity (as defined in the definition of Credit Event Determination Date) or, if the Notes are Zero/Set Recovery Notes, the provisions of paragraph (g) below will apply.
- (d) Where the Notes are Nth-to-Default Credit Linked Notes, if a Credit Event Determination Date has occurred in relation to one or more of the specified Reference Entities notwithstanding any provision to the contrary in these Credit Linked Conditions, no settlement in accordance with Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, or interest adjustment in accordance with Credit Linked Condition 5 will occur until such time as a Credit Event Determination Date has occurred in respect of the Relevant Number of Reference Entities (a "**Trigger**"). The Reference Entity in respect of which a Credit Event Determination Date has occurred which causes the Trigger to occur is referred to as the "**Triggering Reference Entity**" and the Relevant Number is the number specified as such in the Final Terms. As of the day on which the Calculation Agent determines that a Credit Event Determination Date has occurred in respect of the Relevant Number of Reference Entities then (i) Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply in relation only to the Triggering Reference Entity and the Credit Event Determination Date will be deemed to have occurred only as of such day for the purposes of the provisions set out in General Condition 4(f) or (ii) if the Notes are Zero/Set Recovery Notes, the provisions of paragraph (g) below will apply.
- (e) Where the Notes are Linear Basket Credit Linked Notes to which Credit Payment on Maturity applies, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with General Condition 13 and (ii) in respect of each Credit Linked Note:

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

- (f) Where the Notes are Linear Basket Credit Linked Notes to which Credit Payment As You Go applies, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with General Condition 13 and (ii) in respect of each Credit Linked Note:
 - (A) the Issuer shall pay as an Instalment Amount for the purposes of General Condition 6(i) an amount equal to the relevant Credit Event Amount, if any, on the relevant Credit Event Payment Date which will be the relevant Instalment Date;
 - (B) the interest calculation basis described in paragraph (i) below will apply; and
 - (C) each Note shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if on or prior to the Credit Event Redemption Date a Credit Event Determination Date has occurred in respect of all the specified Reference Entities each Credit Linked Note will be redeemed (together with accrued interest, if any) at the final Credit Event Amount on the final Credit Event Payment Date, subject as provided in paragraph (h) below.

For the avoidance of doubt parts (A) and (B) of this provision will apply and part (C) of this provision will continue to apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

- (g) Where the Notes are Zero/Set Recovery Notes then if a Credit Event Determination Date has occurred in respect of any Reference Entity (in the case of Single Reference Entity Credit Linked Notes, Linear Basket Credit Linked Notes or First-to-Default Credit Linked Notes) or in respect of the Triggering Reference Entity (in the case of Nth-to-Default Credit Linked Notes) then (i) following a Credit Event Determination Date in respect of any such Reference Entity the provisions of Credit Linked Conditions 2, 3 or 4 will not apply but each Single Reference Entity Credit Linked Note, First-to-Default Credit Linked Note and Nth-to-Default Credit Linked Note will be

redeemed by payment of the Credit Event Redemption Amount, if any, on the Credit Event Redemption Date together with accrued interest, if any, and (ii) each Linear Basket Credit Linked Note may be redeemed (or otherwise) as provided in paragraph (e) or (f) above, as applicable and/or paragraph (h) below, if applicable.

- (h) Where any Credit Event Redemption Amount is or would be zero (whether the Notes are Zero/Set Recovery Notes or otherwise) then, other than for the payment of accrued interest or any other due but unpaid amounts, the Notes will be cancelled as of the Credit Event Redemption Date with no payment being due other than any final amount of accrued interest or any other due but unpaid amounts. The Issuer will have no further obligations in respect of the Credit Linked Notes.
- (i) In the case of Linear Basket Credit Linked Notes, each Note will bear interest pursuant to, and in accordance with, General Condition 4, provided that for the purposes of determining the interest amounts payable, the provisions set out in Credit Linked Condition 5 will not apply and instead the aggregate outstanding nominal amount of the Notes shall be deemed to be the Adjusted Credit Outstanding Nominal Amount or, in the case of each of General Condition 4(a)(B) or 4(b)(v)(B), the Calculation Amount shall be deemed to be each Note's pro rata share of the Adjusted Credit Outstanding Nominal Amount, in each case on the relevant Interest Payment Date or the relevant date for payment pursuant to Credit Linked Conditions 6, 7, 8, 9 or 11.
- (j) For these purposes "**Adjusted Credit Outstanding Nominal Amount**" means, on any Interest Payment Date or date for payment pursuant to Credit Linked Conditions 6, 7, 8, 9, or 11 (i) the aggregate outstanding nominal amount minus (ii) the product of (a) the aggregate outstanding nominal amount and (b) a fraction with (x) the original aggregate Reference Entity Notional Amounts of Reference Entities in respect of which a Credit Event Determination Date has occurred on or prior to the relevant Interest Payment Date or date for payment pursuant to Credit Linked Conditions 6, 7, 8, 9 or 11, as the case may be, as numerator and (y) the original aggregate Reference Entity Notional Amounts of the original number of Reference Entities to which the Notes related, in each case as of the Issue Date of the first Tranche of the Notes, as denominator.

- (l) If any purchase and cancellation of Notes occurs under General Condition 6(g) or any further issue under General Condition 12, the Calculation Agent will make such adjustments to the applicable Final Terms and/or these Credit Linked Conditions as it determines appropriate (including Reference Entity Notional Amounts) to ensure the Notes continue to reflect economic intentions.

2. Auction Settlement

- (a) Where Auction Settlement is specified as the applicable Settlement Method in the Final Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an "**Auction Settlement Notice**") to the Noteholders in accordance with General Condition 13, and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Specified Notes Currency on the Credit Event Redemption Date.
- (b) Unless settlement has occurred in accordance with the paragraph above, if:
 - (i) an Auction Cancellation Date occurs;
 - (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
 - (iii) a DC Credit Event Question Dismissal occurs; or
 - (iv) a Credit Event Determination Date was determined pursuant to paragraph (a) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date,

then:

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (x) if Fallback Settlement Method – Cash Settlement is specified as applicable in the Final Terms, the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 3 below; or
- (y) if Fallback Settlement Method – Physical Delivery is specified as applicable in the Final Terms, the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 4 below.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the nominal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

3. Cash Settlement

If a Credit Event Determination Date has occurred, then where Cash Settlement is specified as the applicable Settlement Method in the Final Terms or if Credit Linked Condition 2(b)(x) applies, the Issuer shall give notice (such notice a "**Cash Settlement Notice**") to the Noteholders in accordance with General Condition 13, and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Specified Notes Currency on the Credit Event Redemption Date.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the nominal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

4. Physical Settlement

If a Credit Event Determination Date has occurred, then where Physical Delivery is specified as the applicable Settlement Method in the Final Terms or if Credit Linked Condition 2(b)(y) applies, then, subject to any prior redemption in accordance with Credit Linked Condition 22, the Issuer shall, following the receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a "**Notice of Physical Settlement**") to the Noteholders in accordance with General Condition 13, and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer by the Delivery of the Deliverable Obligations comprising the Entitlement on the Credit Settlement Date, subject to and in accordance with the General Conditions and these Credit Linked Conditions. The relevant Asset Package, if applicable, will be deemed to be a Deliverable Obligation and the composition of the Asset Package and the Entitlement in respect of each Credit Linked Note equal to the Calculation Agent will be determined by reference to the relevant Prior Deliverable Obligation or Package Observable Bond specified in the relevant Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable. Where appropriate the Calculation Agent may make any adjustment in relation to provisions for physical delivery and determination of the Entitlement to take account of the relevant Asset Package.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with General Condition 13, (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Principal Balance or Due and Payable Amount (determined on the same basis as in the definition of Entitlement) of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced or the equivalent Currency Amount of any such amount (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Replacement Deliverable Obligation(s), taken together, shall have an aggregate Replaced Deliverable Obligation Outstanding Amount at least equal to the Outstanding Principal Balance(s) and/or Due and Payable Amount(s) (or the equivalent Currency Amount(s) of any such amount(s)) of the Deliverable Obligations being replaced. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Noteholders in accordance with General Condition 13, prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the PSN Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Noteholders (in accordance with General Condition 13) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If "Mod R" is specified as applicable in the Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements.

If "Mod Mod R" is specified as applicable in the Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the nominal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor.

5. Accrual of Interest

Notwithstanding General Condition 4(f), other than in the case of Linear Basket Credit Limited Notes, where Credit Linked Condition 1(i) will apply, if:

- (i) "Accrual of Interest upon Credit Event" is specified as not applicable in the Final Terms, each Note shall cease to bear interest from the Interest Payment Date immediately preceding the Credit Event Determination Date, or if the Credit Event Determination Date is an Interest Payment Date such Interest Payment Date, or, if the Credit Event Determination Date falls prior to the first Interest Payment Date, no interest shall accrue on the Notes; or
- (ii) "Accrual of Interest upon Credit Event" is specified as applicable in the Final Terms, each Note shall cease to bear interest from the Credit Event Determination Date; and
- (iii) "Continuing Accrual until scheduled maturity" is specified as applicable in the Final Terms, then notwithstanding the occurrence of a Credit Event Determination Date each Note will continue to bear interest in accordance with General Condition 4(f) up to but excluding the Scheduled Maturity Date (with such date being deemed to be the final Interest Payment Date),

provided that, if:

- (A) Credit Linked Condition 6, Credit Linked Condition 7 or Credit Linked Condition 8 applies in respect of the Notes and, in the case of Credit Linked Condition 6, a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or, in the case of Credit Linked Condition 7, a Failure to Pay has not occurred on or prior to the Grace Period Extension Date or, in the case of Credit Linked Condition 8, a Credit Event has not occurred on or prior to the DC Cut-off Date, as the case may be; and/or
- (A) Credit Linked Condition 9 applies in respect of the Notes and a Credit Event Determination Date or the Repudiation/Moratorium Extension Condition, as applicable, has not occurred or are not satisfied on or prior to the Postponed Maturity Date,

then interest will accrue as provided in Credit Linked Condition 6, Credit Linked Condition 7, Credit Linked Condition 8 or Credit Linked Condition 9, as the case may be.

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

6. Repudiation/Moratorium Extension

If "Repudiation/Moratorium" is specified as a Credit Event in the Final Terms, the provisions of this Credit Linked Condition 6 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Maturity Date or any Interest Payment Date (determined by reference to the Relevant Time) but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Maturity Date or any Interest Payment Date or, if Credit Linked Condition 9(y) applies, the Postponed Maturity Date or Postponed Interest Payment Date (as defined in Credit Linked Condition 9) and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation Moratorium will, in the sole determination of the Calculation Agent, fall after the Scheduled Maturity Date or relevant Interest Payment Date, then the Calculation Agent shall notify the Noteholders in accordance with General Condition 13 that a Potential Repudiation/Moratorium has occurred and the maturity of the Notes and/or relevant interest payment will be delayed and:

- (a) in relation to such event as of the Scheduled Maturity Date, where a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date:
 - (i) each nominal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Repudiation/Moratorium Evaluation Date or, if later, the Postponed Maturity Date; and
 - (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest (if any) calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the Repudiation/Moratorium Evaluation Date or, if later, the Postponed Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and a Credit Event Determination Date has occurred, the provisions of Credit Linked Condition 1, Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes; or

7. Grace Period Extension

If "Grace Period Extension" is specified as applicable in the Final Terms, the provisions of this Credit Linked Condition 7 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Maturity Date or any Interest Payment Date (determined by reference to the Relevant Time) but, in the determination of the Calculation Agent, a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Scheduled Maturity Date or relevant Interest Payment Date (determined by reference to the Relevant Time) (and such Grace Period(s) is/are continuing as at the Scheduled Maturity Date or relevant Interest Payment Date), then the

 - (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the Grace Period Extension Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or
- (b) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and a Credit Event Determination Date has occurred, the provisions of Credit Linked Condition 1, Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes; or
- (c) in relation to such event as of an Interest Payment Date, the Calculation Agent may delay the relevant amount of interest which would otherwise be payable on the relevant Interest Payment Date. In this case where (i) a Failure to Pay has not occurred on or prior to the Grace Period Extension Date then the relevant amount of interest shall be payable on the second Business Day following the Grace Period Extension Date but no additional interest will be payable in respect of the relevant delay and for the avoidance of doubt no amendment will be made to any Interest Period or basis of calculation of the relevant amount of interest, other than as described above; or (ii) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and a Credit Event Determination Date has occurred thereafter, the relevant amount of interest will be adjusted accordingly and may be zero and will be payable on the second Business Day following the applicable Grace Period Extension Date.

8. Credit Derivatives Determinations Committee Extension

If, in the determination of the Calculation Agent, a Potential Credit Event has occurred and the Credit Derivatives Determinations Committee has not made its determination on or prior to the Scheduled Maturity Date or any Interest Payment Date (determined by reference to the Relevant Time) then the Calculation Agent shall notify Noteholders in accordance with General Condition 13 that the Maturity Date or relevant Interest Payment Date has been postponed to a date (the "**DC Determination Cut-off Date**") being the day falling (i) (a) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred, fifteen (15) Business Days following the relevant DC Credit Event Announcement or (b) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has not occurred, the second Business Day following the relevant DC No Credit Event Announcement or, if later (ii) fifteen (15) Business Days following the DC Credit Event Question Dismissal, and:

9. Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes

The following provisions of this Credit Linked Condition 9 apply to Credit Linked Notes and, for the avoidance of doubt, may be applied on more than one occasion:

- (i) in the case of Credit Linked Condition 9(x), a Credit Event Determination Date has occurred on or prior to the Postponed Maturity Date or relevant Postponed Interest Payment Date, the provisions of Credit Linked Condition 1, Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, shall apply to the Credit Linked Notes; or
- (ii) in the case of Credit Linked Condition 9(y), the Repudiation/Moratorium Extension Condition is satisfied on or prior to the Postponed Maturity Date or relevant Postponed Interest Payment Date, the provisions of Credit Linked Condition 1 or Credit Linked Condition 6 shall apply to the Credit Linked Notes.

10. Partial Cash Settlement

If all or a portion of the Obligations comprising the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, the Issuer shall give notice (a "**Partial Cash Settlement Notice**") to the Noteholders in accordance with General Condition 13 and the Issuer shall pay in respect of each Undeliverable Obligation and/or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

Unless otherwise specified in the Final Terms, for the purposes of this Credit Linked Condition 10 only the following terms shall be defined as follows and such definitions will apply notwithstanding other definitions of such terms in Credit Linked Condition 13:

"Indicative Quotation" means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

"Market Value" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the Final Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

"Partial Cash Settlement Amount" is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (B) the Final Price with respect to such Undeliverable Obligation or

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Hedge Disruption Obligation, determined as provided in this Credit Linked Condition less if applicable (C) a pro rata share of Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (ii) zero provided that where (i) the relevant Undeliverable Obligation or Hedge Disruption Obligation forms part of the Asset Package and the Calculation Agent determines in its sole discretion that a Final Price cannot reasonably be determined in respect of such Undeliverable Obligation or Hedge Disruption Obligation, then the Partial Cash Settlement Amount will be an amount calculated by the Calculation Agent in its sole discretion equal to the fair market value of the relevant Undeliverable Obligation or Hedge Disruption Obligation less Unwind Costs.

"**Partial Cash Settlement Date**" is deemed to be the date falling three Business Days after the calculation of the Final Price.

"**Quotation**" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the Final Terms, each Indicative Quotation obtained and expressed as a percentage of the Outstanding Principal Balance or Due and Payable Amount, as applicable, of the relevant Undeliverable Obligation or Hedge Disruption Obligation with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the Final Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the Final Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.
- (c) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this determination.

"**Quotation Amount**" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to at least the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

"**Quotation Method**" is deemed to be Bid.

"**Reference Obligation**" is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

"**Valuation Method**" is deemed to be Highest unless fewer than two Full Quotations are obtained or a Weighted Average Quotation applies (or, if applicable, Indicative Quotations), in which case "Valuation Method" is deemed to be Market.

"**Valuation Time**" is the time specified as such in the Final Terms, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be.

"**Weighted Average Quotation**" means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

11. Settlement Suspension

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

(a) Suspension

Without prejudice to Credit Linked Condition 9, if, following the determination of a Credit Event Determination Date but prior to the Credit Settlement Date or, to the extent applicable, a Valuation Date, there is a DC Credit Event Meeting Announcement, the Calculation Agent may, at its option, determine that the applicable timing requirements of this Credit Linked Condition 11 and the definitions of Credit Event Redemption Date, Valuation Date, Physical Settlement Period and PSN Cut-off Date, and any other Credit Linked Condition provision(s) as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a "**Suspension Period**") until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal. Once the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal has occurred, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary.

In the event of any such Suspension Period, the Calculation Agent may make (x) such consequential or other adjustment(s) or determination(s) to or in relation to the General Conditions and these Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (y) determine the effective date of such adjustment(s) or determination(s).

(b) Interest

In the case of interest bearing Credit Linked Notes:

- (i) if a Suspension Period falls in any one or more Interest Period(s), then no interest (or any interest on any delayed payment of interest) shall accrue during each portion of an Interest Period during which a Suspension Period exists; and

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Noteholders at the specified office of the Principal Paying Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraph (a)(iii), (a)(iv), (a)(v) or (b) or (b) above, more than one Successor has been identified, the Calculation Agent shall adjust such of these Terms and Conditions and/or the Final Terms as it shall determine to be appropriate to reflect that the Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Terms and Conditions and/or the Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit Linked Notes under the provisions of the 2014 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Holders in accordance with General Condition 13 stating the adjustment to these Terms and Conditions and/or the Final Terms and giving brief details of the relevant Successor event.

For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Notwithstanding the provisions above and sub-paragraph (b) of the definition of Reference Entity, where one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor to another Reference Entity pursuant to the above provisions and at least one other entity which is not a Reference Entity or the Issuer is also identified as a Successor for the purposes of any succession, each Affected Reference Entity

If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity to which the relevant succession relates shall be deemed to have ceased to be a Reference Entity; (iii) that portion of any interest payable which is referable to the purchase of credit protection purchased by the Issuer under the Notes in respect of the Affected Reference Entity shall be reduced accordingly as determined by the Calculation Agent in its sole and absolute discretion; and (iv) the Calculation Agent may make such adjustments to the Conditions and/or the Final Terms to account for the Successor Associated Costs, which may include, without limitation, reducing the Final Redemption Amount, Credit Event Redemption Amount or the Entitlement (as the case may be) by an amount equal to the Successor Associated Costs, in each case with effect from the date determined by the Calculation Agent to be the relevant Succession Date.

Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

New agreement for the acquisition of an additional 14.9% of Garanti

On November 19, 2014 BBVA Group entered into a new agreement with Dogus Holding A.S., Ferit Faik Şahenk, Dianne Şahenk and Defne Şahenk (“Dogus”) for the acquisition of 62,538,000,000 shares of Garanti at a maximum total consideration of 8.90 Turkish Liras per share, which is equal to 5,566 million of Turkish liras.

Completion of the acquisition and the entry into force of the new agreement are conditional on the obtaining of all necessary regulatory consents from the relevant Turkish, Spanish, European Union and, if applicable, other jurisdictions’ regulatory authorities. After the acquisition of the new shares, the stake of the BBVA Group in Garanti will be 39.9%.

In accordance with EU-IFRS, as a consequence of the implementation of the new agreement, the BBVA Group shall value its current stake in Garanti (which is classified at present as a joint venture accounted for using the equity method) at fair value and shall fully consolidate Garanti in the consolidated financial statements of the BBVA Group as from the date of the actual acquisition of control foreseen during 2015, subject to obtaining the abovementioned regulatory consents.

The date of announcement of the agreement the estimated negative impact in the attributable profit of the consolidated financial statements of the BBVA Group was approximately €1,500 million. As of the most recent date to the date of completion of these consolidated financial statements, the update of the estimated negative impact in the attributable profit of the consolidated financial statements of the BBVA Group was approximately €1,250 million, basically being affected by the exchange differences due to the depreciation of the Turkish lira against euro since initial acquisition. These exchange differences are already registered as Other Comprehensive Income deducting the stock shareholder’s equity of the BBVA Group. Such accounting impact does not translate into any additional cash outflow from BBVA.

Catalunya Banc competitive auction

On July 21, 2014, the Management Commission of the Banking Restructuring Fund (known as “FROB”) accepted BBVA’s bid in the competitive auction for the acquisition of Catalunya Banc, S.A. (“Catalunya Banc”).

As a consequence, BBVA has executed a sale and purchase agreement with FROB, by virtue of which FROB will sell up to 100% of the shares of Catalunya Banc to BBVA for the price of up to €1,187 million.

The price will be reduced in an amount equal to €267 million provided that, prior to the effective closing of the transaction, FROB and Catalunya Banc do not obtain a confirmation issued by the Spanish tax authorities of the application of the deferred tax assets regime (foreseen in Royal Decree Law 14/2013) to some losses recorded in Catalunya Banc’s consolidated financial statements for 2013 which were originated as a consequence of the transfer of assets by Catalunya Banc to the Management Company for Assets Arising from the Banking Sector Reorganization (known as “SAREB”).

Closing of the sale and purchase transaction will be subject, among others, to the obtaining of the relevant administrative authorizations and approvals and to the effective closing of the transaction announced by Catalunya Banc to the market on July 17, 2014 whereby Catalunya Banc will transfer to an asset securitization fund a loan portfolio with a nominal value of €6,392 million.

The gain on disposal, attributable to the Parent company net of taxes, amounted to approximately €500 million which was recognized under the heading "Profit from discontinued operations (Net)" in the consolidated income statement in 2013.

On April 23, 2013, BBVA sold a wholly owned Peruvian subsidiary "AFP Horizonte SA" to "AFP Integra SA" and "Profuturo AFP, SA" who have each acquired 50% of said company.

The total consideration paid for the shares is approximately US\$ 544 million. This consideration is composed by a price of approximately US\$ 516 million and a dividend distributed prior to the closing of approximately US\$ 28 million.

The gain on disposal, attributable to parent company net of taxes, amounted to approximately €206 million at the moment of the sale and such gain was recognized under the heading "Profit from discontinued operations (Net)" in the consolidated income statement in 2013 (see Note 49.2).

Acquisition of Unnim

On March 7, 2012, the Governing Board of the Fund for Orderly Bank Restructuring (FROB) awarded BBVA Unnim Banc, S.A. (hereinafter “Unnim”).

A Protocol of Financial Support Measures was also concluded for the restructuring of Unnim. This regulates an asset protection scheme (EPA) whereby the FGD will assume 80% of the losses that may be incurred on a portfolio of predetermined Unnim assets for the next 10 years.

On July 27 2012, following the completion of the transaction, Unnim became a wholly owned subsidiary of BBVA.

Customer deposits of this operating segment as of December 31, 2014 amounted to €154,261 million, a 1.8% decrease from the €157,124 million recorded as of December 31, 2013, mainly due to the lower remuneration of time deposits that has led to a shift of funds to demand deposits and mutual funds.

Mutual funds of this operating segment as of December 31, 2014 amounted to €28,695 million, a 28.7% increase from the €22,298 million recorded as of December 31, 2013. TAXATION

The following summary refers solely to certain Spanish tax consequences of the acquisition, ownership and disposition of the Notes. It does not purport to be a complete analysis of all tax consequences relating to the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which might be subject to special rules. Prospective investors should consult their own tax advisors as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of Spain of acquiring, holding and disposing of Notes and receiving any payments under the Notes. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date. References in this section to Noteholders include the beneficial owners of the Notes.

Acquisition of the notes

The issue of, subscription for, transfer and acquisition of the Notes is exempt from Transfer and Stamp Tax (*Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados*) and Value Added Tax (*Impuesto sobre el Valor Añadido*).

Taxation on the income and transfer of the notes

The tax treatment of the acquisition, holding and subsequent transfer of the Notes is summarised below and is based on the tax regime applicable to the Notes pursuant to Royal Legislative Decree 5/2004 of March 5 approving the consolidated text of the Non-Resident Income Tax Law (*Impuesto sobre la Renta de los no Residentes*), as amended by Law 26/2014 of November 27, 2014, Law 27/2014 of November 27, 2014 approving the consolidated text of the Corporate Income Tax Law (*Impuesto sobre Sociedades*) and Law 35/2006 of November 28, 2006 on Personal Tax Law (*Impuesto sobre la Renta de las Personas Físicas*), as amended by Law 26/2014 of November 27, 2014 Law 19/1991 of June 6, 1991 approving the Wealth Tax Law (*Impuesto sobre el Patrimonio*), and Law 29/1987 of December 18, 1987 approving the Inheritance and Gift Tax Law. Consideration has also been given to the rules for the implementation of such regulations (Royal Decree 1776/2004 of 30 July approving the Non-Resident Income Tax Regulations, Royal Decree 439/2007 of 30 March, approving the Individuals Income Tax Regulations as amended by Royal Decree 1003/2014 of December 5, 2014 and Royal Decree 1777/2004 of July 30, 2004 approving the Corporate Income Tax Regulations).

Consideration has also been given to Spanish legislation on the issuance of preferred securities and debt securities issued by Spanish financial and non-financial listed entities, either directly or through a subsidiary (Law 10/2014, and RD 1065/2007(as amended by RD 1145/2011), approving the General Regulations relating to tax inspection and management procedures and developing the common rules of the procedures to apply taxes).

Income obtained by Noteholders who are Non-Resident Income Tax payers in Spain in respect of the Notes

Income obtained by Noteholders who are Non-Resident Income Tax payers, both in respect of interest and in connection with the transfer, repayment or redemption of the Notes, whether or not through a permanent establishment, shall be considered Spanish source income and therefore subject to taxation in Spain under Legislative Royal Decree 5/2004 of 5 March approving the Consolidated Non-Resident Income Tax Law, amended by Law 26/2014 of November 28, 2014, without prejudice to the provisions contained in any applicable tax treaty for the avoidance of double taxation (“**DTT**”).

Income not obtained through a permanent establishment in Spain in respect of the Notes

Income obtained by Noteholders who are not tax resident in Spain acting for these purposes without a permanent establishment within Spain is exempt from Non-Resident Income Tax in the terms described under “*Tax reporting obligations of the Issuer and the Guarantor*” below.

Income obtained through a permanent establishment in Spain in respect of the Notes / Corporate Income Tax taxpayers.

The holding of Notes by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

Income obtained by non-Spanish resident holders acting through a permanent establishment in Spain in respect of the Notes will be taxed under the rules provided by Chapter III of the Non-Resident Income Tax Law. These Noteholders will be subject to taxation substantially in the same manner as Spanish Corporate Income Tax taxpayers and, therefore, it shall be computed as taxable income in accordance with the general rules set out in the Corporate Income Tax Law and will therefore be taxed at the current rate of 28% from 1st of January 2015 (25% from 1st of January of 2016).

Income derived from the transfer and holding of the Notes shall not be subject to withholding tax as provided by Section 59(s) of the Corporate Income Tax Regulations, to the extent that the Notes satisfy the requirements laid down by the reply to the Directorate General for Taxation's (*Dirección General de Tributos*) consultation, on 27th July, 2004, indicating that in the case of issuances made by entities with tax residency in Spain, (as in the case of the Issuer), application of the exemption requires that the Notes be placed outside Spain in another OECD country and traded on organised markets in OECD countries. Notes issued under the Programme and traded in an OECD country different from Spain are expected to satisfy these requirements.

TAXATION

For withholding on income derived from payment of interest, redemption or repayment of the Notes see “Taxation - Tax Reporting Obligations of the Issuer and the Guarantor”.

In accordance with Section 59 (q) of the Corporate Income Tax Regulations, there is no obligation to withhold on the income derived from the transfer and holding of the Notes obtained by Spanish Corporate Income Tax taxpayers from financial assets represented in book entries form and traded in a Spanish official secondary market.

Individuals with tax residency in Spain

Income obtained by Noteholders who are Personal Income Tax payers, both as interest and in connection with the transfer, redemption or repayment of the Notes, shall be considered income on investments obtained from the assignment of an individual’s capital to third parties, as defined in Section 25.2 of Individuals Income Tax Law and therefore will be taxed as savings income at the applicable rate currently varying from 20 per cent to 24 per cent, from 1st of January 2015, (from 19 per cent to 23 per cent from 1st of January 2016).

The above mentioned income will be subject to the corresponding personal income tax withholding at the applicable tax rate (currently 20 per cent from 1st of January 2016 and 19 per cent from 1st of January 2015.). Article 44 of the RD 1065/2007 has established new information procedures for debt instruments issued under the Law 10/2014 (which do not require identification of the Noteholders) and has provided that the interest will be paid by the relevant Issuer to the Paying Agent for the whole amount, provided that such information procedures are complied with.

Nevertheless, withholding tax at the applicable rate (currently 20 per cent. from 1st of January 2015 and 19 per cent from 1st of January 2016) may have to be deducted by other entities (such as depositaries or financial entities), provided that such entities are resident for tax purposes in Spain or have a permanent establishment in Spanish territory.

The Issuers and the Guarantor consider that, according to RD 1145/2011, they are not obliged to withhold any tax amount provided that the new simplified information procedures (which do not require identification of the Noteholders) are complied with by the Paying Agent as it is described in section “*Tax Reporting Obligations of the Issuer and the Guarantor*”.

However, regarding the interpretation of the “Tax Reporting Obligations of the Issuer and the Guarantor” please refer to “Risk Factors – Spanish Tax Rules”.

Notes registered in Spain in book entry form and traded in a Spanish secondary market

There is no obligation to withhold tax on the income derived from the transfer or reimbursement of the Notes as provided by Section 75 (e) of the Personal Income Tax Regulations, to the extent that the Notes are represented by book entries and are traded on a Spanish regulated market, except for the part of the price which is equivalent to the accrued interest on any transfers which are made within the thirty days immediately prior to the maturity of the coupon, when the acquirer is an individual or entity not resident in Spain or is a taxable person for Corporate Income Tax purposes and this express income is exempt from the obligation to withhold in relation to the acquirer.

Wealth Tax

Individuals with tax residency in Spain are subject to Wealth Tax on tax year 2015 to the extent that their net worth exceeds €700,000. Therefore, they should take into account the value of the Notes which they hold as at 31 December 2015.

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory, exceed €700,000 would be subject to Wealth Tax at the applicable rates, ranging between 0.2% per cent. and 2.5% per cent., without prejudice of any exemption that should be applicable and the laws and regulations in force in each Autonomous Region.

Legal entities are not subject to Wealth Tax.

Inheritance and Gift Tax

The transfer of the Notes to individuals by inheritance, legacy or donation shall be subject to the general rules of Inheritance and Gift Tax (Impuesto sobre Sucesiones y Donaciones) in accordance with the applicable Spanish and State rules even if title passes outside Spain and neither the heir nor the beneficiary, as the case may be, is resident in Spain for tax purposes, without prejudice to the provisions of any DTT signed by Spain.

The effective tax rates, after applying all relevant factors, range between 0 per cent and 81.6 per cent.

In the event that the beneficiary is an entity other than a natural person, the income obtained shall be subject to Corporate Income Tax or Non-Resident Income Tax, as the case may be, and without prejudice, in the latter event, to the provisions of any DTT that may apply.

Tax rules for payments made by the Guarantor

TAXATION

Payments which may be made by the Guarantor to Noteholders, if the Guarantee is enforced, will be subject to the same tax rules previously set out for payments made by the Issuer.

Tax Reporting Obligations of the Issuer and the Guarantor

RD 1145/2011 modified, among other provisions, article 44 of RD 1065/2007, which sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 10/2014. The new procedures apply to interest deriving from preference shares and debt instruments to which Law 10/2014 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

Notes originally registered with the entities that manage clearing systems located in Spain

According to the wording of article 44.4 of RD 1065/2007, income derived from securities originally registered with a clearing system located in Spain, will be paid free of Spanish withholding tax in respect to non-Spanish-resident holders (acting or not through a permanent establishment in the Kingdom of Spain) or to legal entities that are resident in the Kingdom of Spain for tax purposes and are subject to Corporate Income Tax, provided that the entities which hold values registered on its third parties accounts or, if applicable, the entities that manage clearing systems located outside Spain which have entered into an agreement with such clearing system located in Spain, submit a statement to the Issuer in accordance with the form attached as annex to RD 1065/2007 (see “Supplementary Annex” below) with the following information:

- (i) identification of the securities;
- (ii) total amount of income;
- (iii) amount of income received by individual with tax residency in Spain which are subject to Personal Income Tax; and
- (iv) amount of income received that will be paid free of Spanish withholding tax.

Notes originally registered with the entities that manage clearing systems located outside Spain.

According to the literal wording of article 44.5 of RD 1065/2007, income derived from securities originally registered with the entities that manage clearing systems located outside Spain, that are recognised by Spanish law or by the law of another OECD country (such as Euroclear or Clearstream), will be paid free of Spanish withholding tax provided that the Paying Agent appointed by the Issuer submits a statement to the issuer, in accordance with the form attached as annex to RD 1065/2007 (see “Supplementary Annex” below), with the following information:

- (v) identification of the securities; and
- (vi) total amount of the income corresponding to each clearing house located outside Spain.

Common References

For these purposes, “income” means interest and the difference, if any, between the aggregate redemption price paid upon the redemption of the Notes and the issue price of the Notes.

In accordance with Section 44 of RD 1065/2007, the statements mentioned above must be provided to the relevant Issuer on the business day immediately prior to each interest payment date. In the event that on the date, the entities obliged to provide the declaration fail to do so, the relevant Issuer or the Paying Agent on its behalf will make a withholding at the general rate (currently 20 per cent from 1st of January 2015 and 19 per cent from 1st of January 2016.) on the total amount of the return on the relevant Notes otherwise payable to such entity.

As at the date of this Base Prospectus, the Guarantor has entered into an agreement with a Tax Certification Agent in order to establish a procedure for the disclosure of information regarding Noteholders who are resident in Spain for tax purposes. Such information will be provided, if necessary, to the Spanish Tax Authorities by the Guarantor. Regarding the interpretation of Article 44 RD 1065/2007 and the new simplified information procedures please refer to “*Risk Factors - Spanish tax rules*”.

Please note that this is for general information purposes only and is not intended to be nor shall it be deemed to be, or constitute legal advice.

THE PROPOSED FINANCIAL TRANSACTIONS TAX

The European Commission has published a proposal for a Directive for a common Financial Transaction Tax (FTT) in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures. In the case of

TAXATION

Switzerland, if an interest payment on a Note is made by a Swiss paying agent to an individual resident or residual in an EU Member State the paying agent must withhold the tax at a rate of 35 per cent., with the option of the individual to have the paying agent and/or Switzerland provide to the tax authorities of the EU Member State the details of the interest payments in lieu of the withholding. The individual may be entitled to a tax credit or refund of the withholding, provided that he or she is the beneficial owner of the interest payments and certain other conditions are met.

Nevertheless, last 15th of April 2014 was published the EC Council Directive 2014/48/EC that amends the EC Council Directive 2003/48/EC which may broaden the scope of the requirements described above (although until 1st of January 2017 will not be effective in the Member States)...

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "**foreign financial institution**", or "**FFI**" (as defined by FATCA)) that does not become a "Participating FFI" by entering into an agreement with the IRS to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States Account" of the Issuer (a "**Recalcitrant Holder**"). The Issuer may be classified as an FFI.

The new withholding regime will be phased in beginning 1st July, 2014 for payments from sources within the United States and will apply to "foreign passthru payments" (a term not yet defined) no earlier than 1st January, 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after the grandfathering date, which is the later of (a) 1st July, 2014 and (b) the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified on or after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued before the grandfathering date, and additional Notes of the same series are issued on or after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have announced their intention to negotiate intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "Reporting FI" not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "**FATCA Withholding**") from payments it makes (unless it has agreed to do so under the U.S. "qualified intermediary", "withholding foreign partnership" or "withholding foreign trust" regimes. The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold as a Participating FFI on foreign passthru payments and payments that it makes to Recalcitrant Holders. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Spain have initialled an IGA. The United States Treasury has announced that it is in the process of finalising an IGA with the Netherlands.

If the Issuer becomes a Participating FFI under FATCA, the Issuer and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

Whilst the Notes are in global form and held within the clearing systems, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the Common Depository, given that each of the entities in the payment chain beginning with the Issuer and ending with the clearing systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the clearing systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive notes will only be printed in remote circumstances.

If an amount in respect of FATCA Withholding were to be deducted or withheld from payments made in respect of the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less than expected. FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially

TAXATION

different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

TO ENSURE COMPLIANCE WITH IRS CIRCULAR 230, EACH TAXPAYER IS HEREBY NOTIFIED THAT: (A) ANY TAX DISCUSSION HEREIN IS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED BY THE TAXPAYER FOR THE PURPOSE OF AVOIDING U.S. FEDERAL INCOME TAX PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER; (B) ANY SUCH TAX DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) THE TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

In order to facilitate the offering of any Tranche of the Notes, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Notes during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Notes for their own account by selling more Notes than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Notes in the open market. In addition, such persons may stabilise or maintain the price of the Notes by bidding for or purchasing Notes in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Notes are reclaimed if Notes previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Notes at a level above that which might otherwise prevail for a limited period after the Issue Date. The imposition of a penalty bid may also affect the price of the Notes to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time and must be brought to an end after a limited period. Under UK laws and regulations stabilising activities may only be carried on by the Stabilising Manager named in the applicable Final Terms (or persons acting on its behalf) and may only continue for a limited period following the Issue Date (or, if the ending day would be earlier, 60 days after the date of allotment) of the relevant Tranche of Notes.

Selling Restrictions

United States

Neither the Notes nor the Guarantee have been or will be registered under the Securities Act and the Notes may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder.

The relevant Dealer has represented and agreed that, it will not offer, sell or deliver Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each relevant Dealer has further agreed that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), the relevant Dealer has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the **Relevant Implementation Date**, make an offer of Notes to the public, in that Relevant Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a **Non-exempt Offer**), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstance falling within Article 3(2) of the Prospectus Directive,

In the event that the Savings Certificates Act applies, certain identification requirements in relation to the issue and transfer of, and payments on, Zero Coupon Notes have to be complied with and, in addition thereto, if such Zero Coupon Notes in definitive form do not qualify as commercial paper traded between professional borrowers and lenders within the meaning of the agreement of 2nd March, 1987 attached to the Royal Decree of 11th March, 1987 as published in the Official Gazette 1987, 129, as amended from time to time, each transfer and acceptance should be recorded in a transaction note, including the name and address of each party to the transaction, the nature of the transaction and the details and serial numbers of such Notes.
